

Move Louisville Projects Update: the chart below describes each project in the 20-year Move Louisville transportation plan, which was completed in April 2016 and is administered by Louisville Metro’s Office of Advanced Planning, as well as Public Works. The chart also provides an update on the progress of each project as of May 2023.

Project	What is it?	What are the benefits?	Status
A. East/West Transit Corridors	<ul style="list-style-type: none"> • Cross-town transit route connecting Dixie Highway to Westport Road • Two major routes are proposed, one just inside the Watterson Expressway and one just inside the Snyder Freeway. 	<ul style="list-style-type: none"> • Enhanced cross-town transit routes to better connect residents to jobs 	Routes were evaluated as part of TARC’s Comprehensive Operations Analysis which was completed in early 2021. The future of these routes was analyzed further in TARC’s Long Range Plan, completed in 2022. A new route began operation in August 2022 that connects Preston Hwy to New Cut Rd via Outer Loop.
B. Transforming Dixie Highway Bus Rapid Transit (BRT)	<ul style="list-style-type: none"> • Improvements to Dixie Highway including a Bus Rapid Transit line, sidewalk enhancements , landscaping and traffic signal upgrades 	<ul style="list-style-type: none"> • Creation of a safer, more efficient and economically successful multimodal corridor 	Construction complete. The new BRT line began operations in early 2020.
C. Broadway Complete Street Bus Rapid Transit (BRT)	<ul style="list-style-type: none"> • Complete street retrofit of Broadway from Shawnee Park to Baxter Avenue to accommodate Premium Transit Service along with bicycle and pedestrian safety and mobility improvements. 	<ul style="list-style-type: none"> • Increased transit frequency, reliability and efficiency • Transit user experience improvements • Enhanced bicycle and pedestrian infrastructure to improve safety, mobility and access to high capacity transit services 	The Broadway All the Way project was awarded a RAISE Planning Grant from USDOT in August 2022. This Planning Grant will create shovel-ready design and engineering plans for Broadway, including Bus Rapid Transit and enhanced pedestrian and bicycle facilities. The plans will also include enhanced transit services and amenities along Baxter Ave/Bardstown Rd, ending at Bashford Manor Ln. Engagement with the community will be ongoing as

			a more concrete vision for the future of Broadway is developed.
D. Preston Corridor Premium Transit	<ul style="list-style-type: none"> • Introduction of Bus Rapid Transit (BRT) or Premium Transit, pedestrian and streetscape enhancements. 	<ul style="list-style-type: none"> • Provide enhanced transit service and better connect residents to jobs. 	A master planning process for Preston Highway, that will include analysis for premium transit, began in Fall 2021 and will be complete by August 2023. A draft plan is currently available for review at www.prestoncorridorplan.org .
E. Oxmoor Farms Bridges & Access	<ul style="list-style-type: none"> • Transportation infrastructure, including new bridges and roads. 	<ul style="list-style-type: none"> • Unlock this ideally situated undeveloped parcel of land with the addition of transportation infrastructure • Ease congestion in the area and provide new connectivity points. 	Discussion initiated with Kentucky Transportation Cabinet. Substantial appropriations from the state is required.
F. Urton Lane Corridor Improvements	<ul style="list-style-type: none"> • Extending Urton Lane from Middletown to Taylorsville Road. 	<ul style="list-style-type: none"> • Provide a local thoroughfare expediting the movement of goods and services and facilitating shorter and more efficient commutes. 	Portions of the corridor are under construction, including the bridge over the railroad tracks close to the I-265 and Taylorsville Rd. connection.
G. East Louisville Connectivity	<ul style="list-style-type: none"> • Holistic transportation approach to the Parklands including strategically improving existing rights of way and building a limited number of new connector roads. 	<ul style="list-style-type: none"> • Accommodate new development and all modes of travel where appropriate. 	Mobility, access, and the street network are included in the South Floyds Fork Vision area plan that was adopted in August 2020.
H. West Louisville Connectivity	<ul style="list-style-type: none"> • Conversion of one-way streets to two-way streets and improved 	<ul style="list-style-type: none"> • Support reinvestment, particularly private 	18 th Street, on the north and south sides of Broadway has been realigned.

	<p>maintenance of the street, bicycle and pedestrian networks.</p>	<p>development, throughout West Louisville.</p>	<p>Metro Council allocated funding in FY21 for two-way conversion of West Louisville streets, which has funded design and engineering plans for Chestnut/River Park Dr, Muhammad Ali Blvd, Portland/Bank St, and Northwestern Pkwy. Chestnut/River Park Dr and Muhammad Ali were included in a RAISE Implementation Grant from USDOT that was awarded in August 2022; construction is expected to be complete in 2026. Liberty St. to be extended from 9th to 13th St. Safe Street and Roads for All grant awarded to Louisville Metro in 2022, which includes rightsizing projects on 22nd St, Louis Coleman Jr. Dr, Wilson Ave, W Oak St, and Crums Ln.</p>
<p>I. Downtown/Edge Neighborhood Two-Way Streets</p>	<ul style="list-style-type: none"> • Conversion of Louisville’s downtown street network from one-way to two-way. 	<ul style="list-style-type: none"> • Increase the livability of the affected neighborhoods for both residents and visitors. 	<p>3rd Street from Liberty to Broadway and from Market to Main has been converted to 2 way. An urban core analysis for safety improvements has been completed. 7th Street, 8th Street, and Jefferson Street (east of I-65) are slated for conversion in 2023. Muhammad Ali (east of Jackson), Chestnut (east of Jackson), Shelby St (Main to Broadway), Campbell St (Main to Chestnut) are planned to be converted in the near future.</p>
<p>J. River Road Complete Street/Extension</p>	<ul style="list-style-type: none"> • Extension of River Road westward from its current end at 7th Street 	<ul style="list-style-type: none"> • Provide connections between east Louisville, downtown, the Portland/Russell neighborhoods, and the future 	<p>Preliminary design phase of River Road Extension is complete, final design has been initiated. Construction to begin in 2023.</p> <p>Complete street retrofit of River Road from 3rd Street to</p>

		<p>Waterfront Park Phase IV</p> <ul style="list-style-type: none"> • Improvements to the existing portion of River Road from 3rd Street to 7th Street to make the road safer and more attractive for all modes of travel. 	<p>7th Street is currently in final design. Construction should begin in 2023. Funding provided through KYTC TAP.</p>
K. Reimagine Ninth Street	<ul style="list-style-type: none"> • Reimagining the Ninth Street corridor as a true urban boulevard 	<ul style="list-style-type: none"> • Enhance connectivity between downtown and surrounding neighborhoods • Supports Choice Neighborhood project • Pedestrian connectivity improvements 	<p>Re-imagine 9th Street Master Plan completed in early 2018. In August 2022, Louisville Metro was awarded a \$15.5 million RAISE Implementation Grant from USDOT to design and build the vision in Re-imagine 9th Street. Preliminary design work and community engagement are expected to begin in 2023, with construction complete by 2026. The engineering firm HDR was selected as the engineering consultant for this project.</p>
L. Main Street/Story Avenue Intersection Redesign	<ul style="list-style-type: none"> • Reconstruct the intersection at Story Avenue, Main Street and Baxter Avenue 	<ul style="list-style-type: none"> • The eastern end of Main Street is oddly designed, difficult to understand and unsafe for pedestrians. • Safety improvements and support of the two-way operation of downtown streets. 	<p>Final design has been completed. Construction expected in 2023.</p>
M. Improved Sidewalk Connectivity	<ul style="list-style-type: none"> • Metro is committed to increasing the connectivity of sidewalks by adding 150 miles of new sidewalks along 	<ul style="list-style-type: none"> • There are currently more than 2,000 miles of sidewalks in Louisville Metro, yet many areas in 	<p>Approx. \$900,000 was allocated in the FY17 budget to fund new sidewalks. An additional \$730,000 was allocated in FY18 and \$816,000 was allocated in</p>

	<p>corridors with high pedestrian demand.</p>	<p>the city do not have sidewalks at all.</p>	<p>FY19. Approx. \$2.7 million was allocated in FY21 to fund new sidewalks. \$2 million was allocated in FY22 for sidewalk repairs. \$3 million was allocated in FY23 for sidewalk repairs.</p>
<p>N. Central Bicycle Network</p>	<ul style="list-style-type: none"> • Implementation of a network of extensive, yet inexpensive and relatively easy to implement bike facilities - connected to transit - in the downtown and the central neighborhoods 	<ul style="list-style-type: none"> • Support the success of LouVelo, the city’s bike share program. • Launch Bikes for Everyone program making Bikeshare more accessible to all residents. • Implementing residents desires to get around the city by bike • Reduction of vehicle miles travelled, increase of alternative transportation modes and achievement of the corresponding health improvements 	<p>Bike share launched in 2017. Four additional stations added to UofL campus with three more in Southern Indiana in 2019. A SNAP/EBT discount rate is available plus discount rates for students and government employees. New contract was awarded for bikeshare operations in Fall 2021. 50 e-bikes were ordered in 2022 to supplement the existing LouVelo system. Dockless vehicle policy drafted in 2018. \$500,000 allocated in FY22 for scooter/bike infrastructure. \$500,000 allocated in FY23 for scooter/bike infrastructure. Significant scooter/bike infrastructure projects planned on Logan Street, Lexington Road (Payne to Liberty), and Ellison Avenue.</p>
<p>O. Louisville Loop</p>	<ul style="list-style-type: none"> • Approximately 50 miles of the Loop has been completed. Additional funding is needed to design and build approximately 65 more miles 	<ul style="list-style-type: none"> • A shared-use path system of more than 100 miles that will connect residents and visitors to parks, jobs, transit, schools and other destinations. 	<p>A half-mile section of Middletown-Eastwood Trail (MET) from Beckley Woods to South Beckley Station has been completed. The MET section of the Loop is now 2 miles continuous from the east edge of Middletown to South Beckley Station. Work continues on the other segments/projects in active phases across Louisville Metro, including Prospect, Eastwood, McNeely Lake Park, Cooper Chapel Road,</p>

			Jefferson Memorial Forest, Camp Ground Road, and Algonquin Parkway.
P. Lexington Road Complete Street	<ul style="list-style-type: none"> • Reconfiguring Lexington Road as a multi-modal street 	<ul style="list-style-type: none"> • Address safety issues to improve efficiency and enhances future redevelopment opportunities. 	Safety enhancements have been completed from Payne Street to Frankfort Ave/Shelbyville Rd. Final section from Payne Street to Liberty Street/Baxter Ave slated for improvements in 2023.
