**RACHAEL A. HAMILTON
DIRECTOR**

Louisville Metro Air Pollution Control District Notice of Public Comment Period and Hearing

What action is the District taking?

The Louisville Metro Air Pollution Control Board opens a public comment period October 16, 2021, on an amended Board Order and site-specific Reasonably Available Control Technology (RACT) Plan for American Synthetic Rubber Company, 4500 Camp Ground Road, Louisville, Kentucky 40216. If approved, the District will submit the determination to EPA for inclusion in the Kentucky State Implementation Plan.

How can I comment on this action?

You can comment, online at <https://louisvilleky.wufoo.com/forms/comment-on-apcd-proposed-action>, or by mail to the Board Secretary-Treasurer, Byron Gary, Louisville Metro Air Pollution Control District, 701 W. Ormsby Ave., Suite 303, Louisville, Ky 40203, until 5:00 p.m., November 15, 2021. Oral statements will be accepted at a public hearing held via teleconference (due to the COVID-19 outbreak) at 10:00 a.m. November 17, 2021. Instructions on attending the teleconference will be posted at www.louisvilleky.gov/APCD/Docket before the meeting and emailed to subscribers of APCD Public Notices (<https://louisvilleky.gov/government/air-pollution-control-district/subscribe-stay-informed-apcd>).

Where can I get a copy of the proposed action?

A paper copy of the proposed amended Board Order may be obtained from the District by contacting us at (502) 574-6000. Please specify that you are calling in regard to the Amended Board Order with American Synthetic Rubber Company, provide your name and mailing address, and allow time for processing and delivery via USPS. An electronic copy of the proposed determination may be downloaded from the District's website at www.louisvilleky.gov/APCD/Docket.htm.

Summary of proposal

The District is proposing amending the NO_x RACT ABO with ASRC to add emissions verification requirements on a 30-day rolling basis.

Will this action lead to an increase or decrease in emissions?

This action will not lead to any change in emissions. The only change is to add additional emissions verification requirements on a 30-day rolling basis to match the time period of the emissions limits already in the ABO.

What is the timeline for this action?

Unless there is substantial public comment during the comment period the amended ABO will be on the Agenda for the Air Pollution Control Board as new business at its regular November meeting on November 17. The Board may make a final decision on adopting the amended ABO at that meeting, or may delay voting on the ABO until a later meeting.
