Agricultural Open Burning Request

Procedure:

Soil & Water Conservation District (SWCD) will review your application for agricultural applicability and forward its recommendation to the Air Pollution Control District (APCD). APCD will consider the recommendations of SWCD and the local fire district in making its determination.

1. Obtain an application form from SWCD or APCD (also available at www.apcd.org).
2. Complete the form as indicated and **submit it to the SWCD**. SWCD will forward it to APCD for review by APCD and the local fire district.
3. After review by the three panel members, APCD will act on the application and return the approved or disapproved application to the applicant with copies to the panel members.
4. The property owner must notify the local fire district immediately prior to burning, and must obtain written approval from APCD to change the burn date.
5. The property owner must have the approved application available for inspection during burning.

Please allow at least six (6) weeks for processing of your application.

The three review panel members are:

Soil & Water Conservation District
4233 Bardstown Rd., Suite 100-A
Louisville, KY 40218-3280
499-1900

Air Pollution Control District
701 W. Ormsby Ave., Suite 303
Louisville, KY 40203
574-6000

local fire district

General Conditions:

1. The material to be burned is limited to brush, timber, wood or other naturally produced organic material.
 2. Burning of any other material, such as old tires or shingles, will void permission to burn and subject applicant to possible citation and prosecution.
 3. Application valid only for burning during or on the dates indicated on the application.
 4. Earth-moving and fire-containing equipment is required on-site during burning.
 5. Burning is prohibited on Ozone Action Days. The property owner is responsible for knowing whether the burn date is an Ozone Action Day. Call 574-3319 or visit our website at www.apcd.org to learn if a given day is an Ozone Action Day.
 6. Specific conditions may be added by the APCD.
