

Restricted Food Service

The following low-risk foods may be sold from a stand or pushcart that is either fixed or mobile: pre-cooked, commercially processed hot dogs, frankfurters, and similar meats such as bratwurst and Italian sausage; roasted peanuts, almonds, pecans, and walnuts without the shell; pre-packaged, commercially processed snack foods; shelf stable, pre-packaged baked goods; shaved ice, flavored ice, and snow-cones that use commercially prepared prepackaged flavor dispensers that are replaced when empty, pre-packaged ice cream and popsicles; pre-packaged sandwiches, nacho chips and cheese, pork rinds, and cotton candy

Permit Fee: \$125.00 per year [\$100 state fee + \$25 local fee]

Sanitation requirements:

- If public water is available, a restricted facility shall follow the requirements of the Kentucky State Plumbing Code.
- If public water is not available, a restricted concession facility may operate under temporary sanitation if:
 - There is an adequate amount of stored potable water available;
 - Tubs, buckets, or similar containers for washing, rinsing, and sanitizing equipment large enough to completely immerse the largest item used in operation are available;
 - There are adequate hand washing facilities; and
 - Permanent or portable toilet facilities are conveniently located and have hand washing facilities available.
 - Requirements for operating under temporary sanitation are available at www.louisvilleky.gov/health
- The restricted concession facility shall provide adequate cold and hot storage for food products and safe storage areas for the storage of dry food and single-service articles.
- The restricted concession facility shall be constructed or located in such a way that food and utensils shall be protected from potential contamination, including from insects, dust, and debris.
