

WEBVTT

1 "Harward, Sonya" (2751791104)  
00:00:24.955 --> 00:00:30.666  
Making me the, um, the host please. Well, do you.

2 "Powell, Brian" (347740416)  
00:00:30.666 --> 00:00:33.434  
Or cohost yeah, I'll do it. It won't.

3 "Harward, Sonya" (2751791104)  
00:00:33.434 --> 00:00:36.990  
It doesn't give me the option to do the start the streaming.

4 "Harward, Sonya" (2751791104)  
00:00:50.170 --> 00:01:11.660  
Thank you.

5 "Harward, Sonya" (2751791104)  
00:01:46.500 --> 00:01:50.490  
So, I know London.

6 "Jason Nemes" (1270223872)  
00:04:23.568 --> 00:04:32.159  
Hey, Sonia, can you hear me.

7 "Jason Nemes" (1270223872)  
00:04:39.507 --> 00:04:42.659  
Just make sure when you're cory's name's called the.

8 "Jason Nemes" (1270223872)  
00:04:42.659 --> 00:04:49.529  
Everybody that he's, he's teaching and he told us in advance and he's going to get there as quickly as he can. He would just texted me as well.

9 "Jason Nemes" (1270223872)  
00:04:49.529 --> 00:04:54.366  
Okay, thanks.

10 "julie raque adams" (4264177920)  
00:04:54.366 --> 00:04:57.365  
Protocol of my name. No.

11 "Jason Nemes" (1270223872)  
00:04:57.365 --> 00:05:17.689  
Yep.

12 "Jason Nemes" (1270223872)  
00:05:17.689 --> 00:05:37.689  
3.

13 "Jason Nemes" (1270223872)  
00:08:37.689 --> 00:08:53.953  
Oh.

14 "Jack Will" (968094464)  
00:08:53.953 --> 00:08:57.239  
This game product backlog display with that.

15 "Jack Will" (968094464)  
00:08:57.239 --> 00:09:18.529  
What.

16 "Jason Nemes" (1270223872)  
00:11:24.439 --> 00:11:30.681  
All right, I think we're going to go ahead. Can you hear me Sonia? Yes.

17 "Harward, Sonya" (2751791104)  
00:11:30.681 --> 00:11:32.922  
I think we're going to go ahead and start. I just.

18 "Jason Nemes" (1270223872)

00:11:32.922 --> 00:11:37.859  
Talk to Earl, he asked me to go ahead and get rolling. He's going to call in.

19 "Jason Nemes" (1270223872)  
00:11:37.859 --> 00:11:41.669  
We'll go ahead and and recording is on his way.

20 "Jason Nemes" (1270223872)  
00:11:41.669 --> 00:11:58.727  
We can go ahead and call role and then we'll start any, any comments that we have on anything. We'll make sure we're holding it on the line, but the ones that are not in the comments, we'll just go ahead and move forward with go ahead and call her. Well, if you're ready represented.

21 "Harward, Sonya" (2751791104)  
00:11:58.727 --> 00:12:00.982  
Jason, yes.

22 "ken fleming" (2044048640)  
00:12:00.982 --> 00:12:02.002  
I'm.

23 "Harward, Sonya" (2751791104)  
00:12:02.002 --> 00:12:07.259  
Jones, um, Senator, Gerald, Neil.

24 "Harward, Sonya" (2751791104)  
00:12:07.259 --> 00:12:13.682  
Julie rocky Adams, I'm here.

25 "julie raque adams" (4264177920)  
00:12:13.682 --> 00:12:16.162  
Um, Senator, Mike, me.

26 "Harward, Sonya" (2751791104)  
00:12:16.162 --> 00:12:20.560  
Yes, present representative Ken Fleming.

27 "ken fleming" (2044048640)  
00:12:20.560 --> 00:12:24.024  
Representative Pamela Stevenson.

28 "Harward, Sonya" (2751791104)  
00:12:24.024 --> 00:12:27.089  
Is it.

29 "Harward, Sonya" (2751791104)  
00:12:27.089 --> 00:12:32.099  
Council member Anthony council member Corey Arthur.

30 "Harward, Sonya" (2751791104)  
00:12:32.099 --> 00:12:35.219  
Council member Cindy Fowler.

31 "Marianne" (3324136448)  
00:12:39.422 --> 00:12:43.482  
Show me, William, some of, em.

32 "Harward, Sonya" (2751791104)  
00:12:43.482 --> 00:12:49.079  
1, Berber mayor, Bonnie young here.

33 "Harward, Sonya" (2751791104)  
00:12:49.079 --> 00:12:53.444  
Chief Shawn Drysdale draws back here.

34 "sean Dreisbach" (2940501504)  
00:12:53.444 --> 00:12:56.240  
Mr.

35 "Harward, Sonya" (2751791104)  
00:12:56.240 --> 00:12:59.858  
Here you have 9 and a quorum. Okay.

36 "Jason Nemes" (1270223872)  
00:12:59.858 --> 00:13:04.559  
Sounds good. So, does everybody have a sheet in front of them that has the, um.

37 "Jason Nemes" (1270223872)  
00:13:04.559 --> 00:13:10.889  
The recommendations, I think it's 26 pages. Obviously a lot of them will be going very fast through.

38 "Jason Nemes" (1270223872)  
00:13:10.889 --> 00:13:16.700  
Is that in front of everyone? Was that handed out? Yes, sir.

39 "Harward, Sonya" (2751791104)  
00:13:16.700 --> 00:13:21.144  
Okay, at least the people that are in the room, have it great and the ones that.

40 "Jason Nemes" (1270223872)  
00:13:21.144 --> 00:13:28.859  
Aren't in the room had it they should've had an email to them. So so we'll just start from the top number 1. um.

41 "Jason Nemes" (1270223872)  
00:13:28.859 --> 00:13:34.169  
Is the link so just so everybody knows what this is number 1st.

42 "Jason Nemes" (1270223872)  
00:13:34.169 --> 00:13:52.049  
Column, obviously has the number of the recommendation there are total of 39 that we consider, not that we will make the recommendation of the 2nd column. It just says just a brief synopsis of what is road funding government board and so forth. And so on the 3rd columns who made the recommendation, the 4th column.

43 "Jason Nemes" (1270223872)  
00:13:52.049 --> 00:13:56.699  
Is the initial proposal and then a 5th column is what early and I understand.

44 "Jason Nemes" (1270223872)  
00:13:56.699 --> 00:14:00.209  
The agreement of the commission to be.

45 "Jason Nemes" (1270223872)  
00:14:00.209 --> 00:14:06.959  
So, if we could just if everybody could just take a moment to read, I don't know if we want to need to read them out loud. Just take a moment to read.

46 "Jason Nemes" (1270223872)  
00:14:06.959 --> 00:14:12.629  
The 5th column begins, the commission recommends that the state so forth and so on and.

47 "Jason Nemes" (1270223872)  
00:14:12.629 --> 00:14:16.799  
Uh, we'll take any comments on that and if there are none.

48 "Jason Nemes" (1270223872)  
00:14:16.799 --> 00:14:21.389

We'll assume that it's, um, I'll give a little bit of time. We'll send that. It's.

49 "Jason Nemes" (1270223872)

00:14:21.389 --> 00:14:25.280

As we've understood the commission to recommend.

50 "Harward, Sonya" (2751791104)

00:14:25.280 --> 00:14:29.699

Mister chairman, do you want to do housekeeping as we go along?

51 "Harward, Sonya" (2751791104)

00:14:29.699 --> 00:14:33.179

Like, on column number.

52 "Harward, Sonya" (2751791104)

00:14:33.179 --> 00:14:40.319

Where it talks about backlogs and road funding determinations that was in bold, except for O. N. S.

53 "Harward, Sonya" (2751791104)

00:14:40.319 --> 00:14:45.444

Just 1, I would like to document it to be really clean. Yes. And.

54 "Jason Nemes" (1270223872)

00:14:45.444 --> 00:14:50.879

There will be no bold. That was for that was kind of the changes that we thought that we needed to highlight.

55 "Jason Nemes" (1270223872)

00:14:50.879 --> 00:14:57.599

Are there real thought that needed to be highlighted but there'll be no bone in the ultimate. Okay Thank you. For for that. Catch.

56 "Jason Nemes" (1270223872)

00:15:02.879 --> 00:15:07.679

Okay, so without objection we'll move forward. We'll consider that 1 as as.

57 "Jason Nemes" (1270223872)

00:15:07.679 --> 00:15:10.709

Appropriate to what we agreed to.

58 "Jason Nemes" (1270223872)

00:15:10.709 --> 00:15:16.109

Okay, so no more on page 1 page 2 or 3.

59 "Jason Nemes" (1270223872)

00:15:16.109 --> 00:15:21.509

I'll give everybody a moment just to make sure that's right.

60 "Jason Nemes" (1270223872)

00:15:29.159 --> 00:15:35.819

Well, as the page 4, I don't know if Scott is on the line and then what he is.

61 "Jason Nemes" (1270223872)

00:15:40.319 --> 00:15:44.309

We might just look to make sure that's your understanding of a recommendation there.

62 "Jason Nemes" (1270223872)

00:15:51.989 --> 00:15:57.569

And that's item number 6. all right so we'll go to item to page 5 item number 7.

63 "Jason Nemes" (1270223872)

00:16:09.119 --> 00:16:12.689

I made that tighter, but same concepts.

64 "Jason Nemes" (1270223872)  
00:16:12.689 --> 00:16:16.619  
Got any objections we'll move to item number 8.

65 "Jason Nemes" (1270223872)  
00:16:20.519 --> 00:16:40.519  
The longer 1, so I'll give a little bit more time.

66 "Jason Nemes" (1270223872)  
00:16:40.519 --> 00:16:51.869  
Okay, any comments on 8 and you'll just have to go in because I won't be able to see you raising your hand. Obviously.

67 "Jason Nemes" (1270223872)  
00:16:51.869 --> 00:17:00.209  
Item number 9, and 10, we thought were encompassed in the ones that we've suggested.

68 "Jason Nemes" (1270223872)  
00:17:00.209 --> 00:17:05.099  
Check to make sure that's everyone's agree. Understanding.

69 "Jason Nemes" (1270223872)  
00:17:21.899 --> 00:17:26.159  
And the office building, you'll you'll know that we added that to.

70 "Jason Nemes" (1270223872)  
00:17:26.159 --> 00:17:32.609  
This butler's recommendation at the bottom of number 8.

71 "Jason Nemes" (1270223872)  
00:17:38.669 --> 00:17:47.639  
Okay, so let's move to item number 11 on page 8. we made some changes, I think, with regard to, um.

72 "Jason Nemes" (1270223872)  
00:17:47.639 --> 00:17:51.029  
Suggestions for Miss flower counsel and fell on that.

73 "Jason Nemes" (1270223872)  
00:17:51.029 --> 00:17:55.019  
And that is at the end of that recommendation.

74 "Harward, Sonya" (2751791104)  
00:18:06.613 --> 00:18:12.539  
Representative name is I just want to be clear. Are you saying I'm on page.

75 "Harward, Sonya" (2751791104)  
00:18:12.539 --> 00:18:15.899  
8 going into page 9.

76 "Harward, Sonya" (2751791104)  
00:18:15.899 --> 00:18:26.191  
Are you saying that it was the recommendation is the last sentence there? However, the commission recommends metro council studies issues related to talk, et cetera, et cetera is that what we're talking about? Yes.

77 "Jason Nemes" (1270223872)  
00:18:26.191 --> 00:18:29.609  
Change the Mr fower recommended was that it have.

78 "Jason Nemes" (1270223872)  
00:18:29.609 --> 00:18:33.913  
We added service across the entire community. Yeah, sounds good.

79 "Harward, Sonya" (2751791104)  
00:18:33.913 --> 00:18:39.515  
Thank you and that.

80 "Jason Nemes" (1270223872)  
00:18:39.515 --> 00:18:43.499  
The rest of the ones that were related to talk, which had a number of recommendations.

81 "Jason Nemes" (1270223872)  
00:18:43.499 --> 00:18:52.792  
The next 1 is item 15 yes, yes. Yes.

82 "Harward, Sonya" (2751791104)  
00:18:52.792 --> 00:18:56.879  
For 3rd, please.

83 "Harward, Sonya" (2751791104)  
00:18:56.879 --> 00:19:00.989  
Senator Neal is here just a quick pause.

84 "Harward, Sonya" (2751791104)  
00:19:33.419 --> 00:19:37.439  
Mr. chair just for clarity. We're currently we're on.

85 "Harward, Sonya" (2751791104)  
00:19:37.439 --> 00:19:43.152  
On the 1st column number 15 page 10. is that correct? Right? That's what we're.

86 "Jason Nemes" (1270223872)  
00:19:43.152 --> 00:19:46.929  
About alternative gotcha. 1 for a 2nd and won't be ready to.

87 "Harward, Sonya" (2751791104)  
00:19:46.929 --> 00:20:03.110  
No problem.

88 "Jason Nemes" (1270223872)  
00:20:03.110 --> 00:20:08.579  
Neil, the 1 clarification we've made thus far is just a note that.

89 "Jason Nemes" (1270223872)  
00:20:08.579 --> 00:20:19.289  
When we submit the final, if there will not be highlights or bones, there are some in the document. Those were things that either early or I thought we needed to bring to the attention of the group.

90 "Jason Nemes" (1270223872)  
00:20:19.289 --> 00:20:26.789  
But those will there will not be Bolds or highlights unless unless the commission decides otherwise on the call today but.

91 "Jason Nemes" (1270223872)  
00:20:26.789 --> 00:20:32.634  
When you see that you can point them out, but know that that we intend to remove those. Well.

92 "Harward, Sonya" (2751791104)  
00:20:32.634 --> 00:20:40.259  
If I may, I just want to be clear. Um, my name is, uh, uh.

93 "Harward, Sonya" (2751791104)  
00:20:40.259 --> 00:20:50.309  
Gave me an explanation which I accept, but I thought I thought we were doing something different. I thought we were voting today, go over it again on the panel.

94 "Harward, Sonya" (2751791104)  
00:20:50.309 --> 00:20:55.794  
Wording right correct. Or incorrect no.

95 "Jason Nemes" (1270223872)

00:20:55.794 --> 00:21:12.809

Well, I guess it's a little bit of, I don't know that how to answer. Here's what we were doing today. Um, we, we voted on all these concepts and we made language changes Earl, and I was supposed to go back, make sure we made the changes. We submitted them to everybody. I think it was Tuesday.

96 "Jason Nemes" (1270223872)

00:21:12.809 --> 00:21:18.719

And we're going through just to make sure that the document, the language of the particular recommendation.

97 "Jason Nemes" (1270223872)

00:21:18.719 --> 00:21:25.859

Um, encapsulates the, the, uh, the, the agreement that the commission voted on earlier.

98 "Jason Nemes" (1270223872)

00:21:25.859 --> 00:21:29.369

So, we won't be voting on anything in particular unless, for example.

99 "Jason Nemes" (1270223872)

00:21:29.369 --> 00:21:41.099

You were to say, just to go to number 1, for example, you were to say, hey, I want to add this sentence, and then we would take that up. But other than that, it's just yeah. Make sure make sure that the language encapsulates what.

100 "Jason Nemes" (1270223872)

00:21:41.099 --> 00:21:44.189

What the commission voted on earlier? Is that fair?

101 "Jason Nemes" (1270223872)

00:21:44.189 --> 00:21:48.431

Understood.

102 "Kaplan, David" (902884608)

00:21:48.431 --> 00:21:51.154

So.

103 "Jason Nemes" (1270223872)

00:21:51.154 --> 00:22:04.829

No, I don't think any of the ones that we went through are the ones that had many negative votes on those were coming up to those because those ones, obviously everybody's going to want to make sure that we got on point. And so we're on number 15.

104 "Jason Nemes" (1270223872)

00:22:04.829 --> 00:22:10.049

On page 10, so let's go ahead and have everybody. I'll take a moment.

105 "Jason Nemes" (1270223872)

00:22:10.049 --> 00:22:19.310

Let everybody review that to make sure it's as and I don't think by the way when we voted, I don't think we made any changes to this, but I'll be quiet whatever my groups.

106 "Harward, Sonya" (2751791104)

00:22:19.310 --> 00:22:21.072

Of course.

107 "Jason Nemes" (1270223872)

00:22:21.072 --> 00:22:21.990

I, I, I.

108 "Harward, Sonya" (2751791104)

00:22:21.990 --> 00:22:30.629

We were starting at 3. I had that in my phone, but then I looked at my  
Las transmission and said 2 so I kind of blew it.

109 "Harward, Sonya" (2751791104)  
00:22:30.629 --> 00:22:40.147  
It's the same problem. Okay so it will be okay if I, if I do review  
something, we can revisit it. Is that okay?

110 "Jason Nemes" (1270223872)  
00:22:40.147 --> 00:22:45.983  
Okay, thank you for on this.

111 "Marianne" (3324136448)  
00:22:45.983 --> 00:22:54.899  
Item 15, uh, I'm still not comfortable with this. I don't think it's a  
simplistic.

112 "Marianne" (3324136448)  
00:22:54.899 --> 00:22:58.529  
As it's made out to see him in this.

113 "Marianne" (3324136448)  
00:22:58.529 --> 00:23:04.139  
I think there are some other ramifications that we just don't know about.

114 "Marianne" (3324136448)  
00:23:04.139 --> 00:23:12.425  
So, I'm not real comfortable putting this in there. Like, it was a  
unanimous decision. Yeah.

115 "Jason Nemes" (1270223872)  
00:23:12.425 --> 00:23:15.344  
It won't be noted as that Mary.

116 "Marianne" (3324136448)  
00:23:15.344 --> 00:23:17.544  
How are we going to know that the, the vote.

117 "Jason Nemes" (1270223872)  
00:23:17.544 --> 00:23:21.419  
On this, uh, Sanya, I don't know if Sandy was the 1 cabinet the day we  
did that.

118 "Jason Nemes" (1270223872)  
00:23:21.419 --> 00:23:24.779  
But the vote on this will be, we'll be represented.

119 "Jason Nemes" (1270223872)  
00:23:24.779 --> 00:23:31.979  
I think it was 9 to 5 we'll go back, but the vote will be reflected. This  
is not we're not going to use today is to say.

120 "Jason Nemes" (1270223872)  
00:23:31.979 --> 00:23:38.339  
There were 14 people here and there were no objections. So thank you for  
that clarification. Now. I think that's an important 1.

121 "Marianne" (3324136448)  
00:23:42.020 --> 00:23:47.339  
Also, uh, in this, it says the chapter 75, 5 protection.

122 "Marianne" (3324136448)  
00:23:47.339 --> 00:23:54.029  
Services is not a chapter 75. it's a department of shively.

123 "Marianne" (3324136448)  
00:23:57.119 --> 00:24:01.639  
Thanks.

124 "Jason Nemes" (1270223872)

00:24:01.639 --> 00:24:07.859  
We delete Saturday in the word dialing in, in that parenthetical there are no objections of that. If there are state their objection.

125 "Jason Nemes" (1270223872)  
00:24:11.669 --> 00:24:19.340  
Okay, any other changes to number 15 can we.

126 "Marianne" (3324136448)  
00:24:19.340 --> 00:24:23.789  
Also, encourage those chapter 75 fire districts to.

127 "Marianne" (3324136448)  
00:24:23.789 --> 00:24:33.636  
Recoup their costs by charging for non transports and other things, at least for them to consider looking at that. Yeah, I.

128 "Jason Nemes" (1270223872)  
00:24:33.636 --> 00:24:38.819  
I think we, we've mentioned that a number of times, and I think that's encapsulated in the number that recommendation number.

129 "Jason Nemes" (1270223872)  
00:24:38.819 --> 00:24:44.219  
15 sub, 3, trying to find that what land that is.

130 "Jason Nemes" (1270223872)  
00:24:44.219 --> 00:24:49.829  
Says 3rd, the commission recommends that all EMS service providers in the county along with chapter 75.

131 "Jason Nemes" (1270223872)  
00:24:49.829 --> 00:24:56.639  
So forth, and so on enter into in our local agreements concerning reimbursements for services, provided by 1 service provider to another area.

132 "Jason Nemes" (1270223872)  
00:24:56.639 --> 00:25:01.127  
Outside his primary jurisdiction, I think that might that that would encompass that. Well.

133 "Marianne" (3324136448)  
00:25:01.127 --> 00:25:09.926  
I don't know that they need an interlocal agreement because their certificate, uh, needs as they have to provide for the entire community. Right?

134 "Jason Nemes" (1270223872)  
00:25:09.926 --> 00:25:11.387  
But.

135 "Marianne" (3324136448)  
00:25:11.387 --> 00:25:18.245  
If someone says, no, I don't want transport and they've called that person should pay understood.

136 "Jason Nemes" (1270223872)  
00:25:18.245 --> 00:25:23.785  
And that's what they're, that's what they're they have the ability to do now. Yeah.

137 "sean Dreisbach" (2940501504)  
00:25:23.785 --> 00:25:28.065  
Sorry, go ahead.

138 "Jason Nemes" (1270223872)  
00:25:28.065 --> 00:25:29.224

No, I said.  
139 "Marianne" (3324136448)  
00:25:29.224 --> 00:25:32.425  
They're just not doing it though.  
140 "Jason Nemes" (1270223872)  
00:25:32.425 --> 00:25:34.727  
I'm sorry.  
141 "sean Dreisbach" (2940501504)  
00:25:34.727 --> 00:25:41.445  
We're not doing, what, what are we not responding to the entire county?  
Is that what you meant? No.  
142 "Marianne" (3324136448)  
00:25:41.445 --> 00:25:49.222  
If if you go someplace, and the person says, no, I don't want to be  
transported, you don't charge right now. That's correct.  
143 "sean Dreisbach" (2940501504)  
00:25:49.222 --> 00:26:00.749  
You're right about that and I would I would just suggest is allow the  
actual chapter 75 for our districts as well global venture VMS to work up  
the interlocal agreement with their mutual aid agreement.  
144 "sean Dreisbach" (2940501504)  
00:26:00.749 --> 00:26:18.347  
On how billing will happen across the county as well as, uh, going  
outside each other's jurisdictions. If you leave it up to us to do that.  
I think that way. It would be a lot easier for us to be on the same page.  
If that makes sense.  
145 "Jason Nemes" (1270223872)  
00:26:18.347 --> 00:26:21.899  
You're suggesting Ken Fleming have that suggestion in that language.  
146 "Jason Nemes" (1270223872)  
00:26:21.899 --> 00:26:27.269  
I pointed to the wrong place. I apologize if you read the last sentence,  
the commission recommends consideration.  
147 "Jason Nemes" (1270223872)  
00:26:27.269 --> 00:26:35.189  
Of statutory changes to require part of these interlocal agreements, such  
gross reimbursement or non transport. I think that addresses what you're  
referring to.  
148 "Jason Nemes" (1270223872)  
00:26:35.189 --> 00:26:38.189  
Okay.  
149 "Jason Nemes" (1270223872)  
00:26:38.189 --> 00:26:41.339  
Any of the changes or comments on 15.  
150 "Jason Nemes" (1270223872)  
00:26:46.889 --> 00:26:50.639  
All right, let's turn to page 12 number 17.  
151 "Jason Nemes" (1270223872)  
00:26:50.639 --> 00:27:03.509  
It's the next 1 with a recommendation we added back in.  
152 "Jason Nemes" (1270223872)  
00:27:03.509 --> 00:27:10.319  
Just to make sure it's crystal clear for everyone, the constitutional  
amendment language. So take a moment to make sure that you.

153 "Jason Nemes" (1270223872)  
00:27:10.319 --> 00:27:31.301  
Not hear any comments on 17.

154 "Harward, Sonya" (2751791104)  
00:27:31.301 --> 00:27:39.599  
Question I have 1 question on it and you understand if representative Meredith bill goes through, then this.

155 "Harward, Sonya" (2751791104)  
00:27:39.599 --> 00:27:45.021  
Doesn't need to be cause all cities will be able to do it. Is that correct? That's right.

156 "Jason Nemes" (1270223872)  
00:27:45.021 --> 00:27:48.239  
So, listen, yes, sir, I got you.

157 "Jason Nemes" (1270223872)  
00:27:48.239 --> 00:28:00.959  
Any other comments on 17. okay.

158 "Jason Nemes" (1270223872)  
00:28:00.959 --> 00:28:05.699  
We can move the page 14 number 23. it's the next 1 with a recommendation.

159 "Jason Nemes" (1270223872)  
00:28:05.699 --> 00:28:10.859  
So this is 1 that we didn't, we never agreed on the.

160 "Jason Nemes" (1270223872)  
00:28:10.859 --> 00:28:14.039  
On the specific language, because we didn't have it ready.

161 "Jason Nemes" (1270223872)  
00:28:14.039 --> 00:28:19.559  
Earl, and I went back to the drawing board I think everybody was, uh, I think, did please tell me if I'm wrong.

162 "Jason Nemes" (1270223872)  
00:28:19.559 --> 00:28:22.769  
I think everybody agreed with the concept. The concept is.

163 "Jason Nemes" (1270223872)  
00:28:22.769 --> 00:28:28.079  
If there is any annexation, um, let's say of.

164 "Jason Nemes" (1270223872)  
00:28:28.079 --> 00:28:33.929  
In my area has been canceled, for example, if they were to try to annex Ford truck, that's something.

165 "Jason Nemes" (1270223872)  
00:28:33.929 --> 00:28:45.359  
And I think all of us agreed would would be something that we wouldn't we don't want to be allowed. Somebody wants to annex, for example so forth for the purpose of having taking their occupational techs, which would then.

166 "Jason Nemes" (1270223872)  
00:28:45.359 --> 00:28:52.799  
And also, if it were housing as well, it could take some of the insurance premium taxes but we're talking about businesses here.

167 "Jason Nemes" (1270223872)  
00:28:52.799 --> 00:29:07.859  
So, the language that we had before, we had 200 full time employees that was just pulled out of thin air as a place as a placeholder. What Earl

suggests is he and I got together and we thought we thought the language that you see on page 14.

168 "Jason Nemes" (1270223872)

00:29:07.859 --> 00:29:11.999

Would satisfy what we need we'll obviously work with.

169 "Jason Nemes" (1270223872)

00:29:11.999 --> 00:29:17.879

The mayor's office, they're very interested in making sure we get this language. Right? And so is our, our business community.

170 "Jason Nemes" (1270223872)

00:29:17.879 --> 00:29:28.274

So, just I wanted to highlight that this is the 1 that we really didn't agree on any language. We just agreed in concept. So any thoughts about the way we've done that year? Yes.

171 "Harward, Sonya" (2751791104)

00:29:28.274 --> 00:29:37.199

Mr. chair I would say that 1st of all I support the way the language is I would give another example, which is, uh, the, uh.

172 "Harward, Sonya" (2751791104)

00:29:37.199 --> 00:29:40.589

Point, uh, commercial district in my area.

173 "Harward, Sonya" (2751791104)

00:29:40.589 --> 00:29:53.219

It does have neighboring suburban cities that we wouldn't want to annex just that the commercial district, just for the sake of grabbing that tax base. So, uh, you know, again, I, and I like that. It says.

174 "Harward, Sonya" (2751791104)

00:29:53.219 --> 00:29:58.229

Annex an area for the primary purpose, or result.

175 "Harward, Sonya" (2751791104)

00:29:58.229 --> 00:30:14.177

Because somebody might say, well, that wasn't our purpose, but the result was X. so I think it's important to designate that. And then to your point, the actual execution of it can be dealt with in legislation. But I think it captures what the intent was. Thank you. Yeah, and the.

176 "Jason Nemes" (1270223872)

00:30:14.177 --> 00:30:18.689

That's a good example, Tony, because even if it's a number of businesses, rather than just 1.

177 "Jason Nemes" (1270223872)

00:30:18.689 --> 00:30:28.109

Let's say all the businesses, each had just to make hypothetical. Each of them had 30 employees, but there were 30 businesses. That's that's also what we're trying to.

178 "Jason Nemes" (1270223872)

00:30:28.109 --> 00:30:32.819

Make sure it doesn't happen as well. So it's not just the huge employers, but it's also the.

179 "Jason Nemes" (1270223872)

00:30:32.819 --> 00:30:43.259

The big office parks kind of thing like reports so, and so forth. Um, I would note that we need to make sure that occupational is spelled correctly. So I thought Bonnie.

180 "Jason Nemes" (1270223872)

00:30:43.259 --> 00:30:51.036

The point that out, I'm given an opportunity, but she didn't. So I did any more comments on 23 care that was spelling for us.

181 "Harward, Sonya" (2751791104)

00:30:51.036 --> 00:30:53.118

Mr. chairman Thank you. Bye.

182 "Jason Nemes" (1270223872)

00:30:53.118 --> 00:31:02.669

Any other questions on 23. okay, 24.

183 "Jason Nemes" (1270223872)

00:31:02.669 --> 00:31:07.799

I don't know if council Arthur's there yet or not. He's on his way.

184 "Jason Nemes" (1270223872)

00:31:07.799 --> 00:31:24.783

I'll take a moment, so people can read that and we'll remember the discussion about this is to inform residents if they want to annex, incorporate that they get information about their options. Mr. chairman.

185 "Harward, Sonya" (2751791104)

00:31:24.783 --> 00:31:31.919

Somehow, I'd like to link in either at the information of suburban cities and folks who ask.

186 "Harward, Sonya" (2751791104)

00:31:31.919 --> 00:31:43.739

Either, either, this department works with the Jefferson County league of cities to establish that information and, or.

187 "Harward, Sonya" (2751791104)

00:31:43.739 --> 00:32:00.959

Make those folks information available to the league of cities, or how can, how can we word that? Because I don't think there's anybody who knows more about cities and services than cities. And I think that this is going to be a part of it's vital that they.

188 "Harward, Sonya" (2751791104)

00:32:00.959 --> 00:32:04.360

Ever seen at that table somehow. Okay so.

189 "Jason Nemes" (1270223872)

00:32:04.360 --> 00:32:07.859

Since we have a suggested change there, we're going to skip this 1 we come back.

190 "Jason Nemes" (1270223872)

00:32:07.859 --> 00:32:12.837

I want to make sure that give Earl an opportunity to be heard as well on that. Yes.

191 "Harward, Sonya" (2751791104)

00:32:12.837 --> 00:32:24.778

And also, Mr chairman that would also apply to the very last 1. so we just don't have to do it again or else that would apply to page 24. okay. Yeah.

192 "Jason Nemes" (1270223872)

00:32:24.778 --> 00:32:31.829

Like that when we get to Bonita. Okay. All right. So we're going to come back to number 24. that's the 1st 1. we're going to come back to let's go ahead and go on.

193 "Jason Nemes" (1270223872)

00:32:31.829 --> 00:32:35.819

Um, to number, 27 on page, 17.  
194 "Harward, Sonya" (2751791104)  
00:32:41.794 --> 00:32:46.857  
Mr. chairman it's just a couple of typographical.  
195 "Jason Nemes" (1270223872)  
00:32:46.857 --> 00:32:53.957  
And that I have 3, the word team, the word a point in the word, otherwise  
any other.  
196 "Harward, Sonya" (2751791104)  
00:32:53.957 --> 00:32:56.031  
Go ahead.  
197 "Jason Nemes" (1270223872)  
00:32:56.031 --> 00:32:58.063  
Yeah, just.  
198 "Harward, Sonya" (2751791104)  
00:32:58.063 --> 00:33:04.499  
My experience when they deal with the subject matter of diversity, it  
becomes.  
199 "Harward, Sonya" (2751791104)  
00:33:04.499 --> 00:33:21.209  
Kind of a a run through and, uh, people make some major effort and they  
come up with well, we didn't get there. So we'll we have to go on and not  
deal with that particular issue. But I think this point here that you  
have here, it says we're glad to have that if.  
200 "Harward, Sonya" (2751791104)  
00:33:21.209 --> 00:33:40.841  
A diversity cannot be achieved, I think it says you're pointing authority  
shield document to make public the reasons why, but I think in that  
piece, they should also demonstrate the effort and inability to achieve  
the diversity. I think it should be a part of any report that they make  
that they would make sure.  
201 "Jason Nemes" (1270223872)  
00:33:40.841 --> 00:33:56.939  
I think That'll be controversial, but since that's a suggested change,  
we're going to put a pin in that and give her an opportunity to come back  
and we'll definitely I think that we'll have to wordsmith. So, while  
we're going on, if you've got a moment, just try to see where you think  
you want to add that in and we're going to come back to 27.  
202 "Jason Nemes" (1270223872)  
00:33:56.939 --> 00:34:05.849  
Thank you. Yes, sir number number 28 I've got a question mark there  
myself.  
203 "Jason Nemes" (1270223872)  
00:34:12.119 --> 00:34:16.169  
So, let's mark that 1 and come back to that 1. so that's the 3rd 1. we'll  
come back to you.  
204 "Jason Nemes" (1270223872)  
00:34:16.169 --> 00:34:22.169  
And go to number 30 if I'm going too fast, slow me down number 30.  
205 "Jason Nemes" (1270223872)  
00:34:22.169 --> 00:34:30.989  
Like, a moment on that 1, he suggested changes on 30.  
206 "Jason Nemes" (1270223872)  
00:34:38.699 --> 00:34:42.638

Number 31, et cetera. Okay.  
207 "Harward, Sonya" (2751791104)  
00:34:42.638 --> 00:34:46.318  
Oh, oh, that's okay, sir. Wait. Okay number 31.  
208 "Jason Nemes" (1270223872)  
00:34:46.318 --> 00:34:50.189  
Huh.  
209 "Jason Nemes" (1270223872)  
00:34:50.189 --> 00:34:53.429  
Well, remember, this is the 1 that that, uh.  
210 "Jason Nemes" (1270223872)  
00:34:53.429 --> 00:34:57.599  
Chairman Jones had to with the with his hope to have.  
211 "Jason Nemes" (1270223872)  
00:34:57.599 --> 00:35:00.689  
In addition to the district particular.  
212 "Jason Nemes" (1270223872)  
00:35:00.689 --> 00:35:03.779  
Council persons also to have that large council persons.  
213 "Jason Nemes" (1270223872)  
00:35:03.779 --> 00:35:07.349  
Is hoping that they would have more of a global.  
214 "Jason Nemes" (1270223872)  
00:35:07.349 --> 00:35:12.509  
Interest or represent more of a global interest, and we change that to  
make the to make it.  
215 "Jason Nemes" (1270223872)  
00:35:12.509 --> 00:35:23.867  
As you'll read a review to determine the best organization of the  
Council, those are that's obviously shorthand, but I'll be quite as  
everyone.  
216 "Harward, Sonya" (2751791104)  
00:35:23.867 --> 00:35:30.749  
Yes, sir when we 1st did a merger, it was a.  
217 "Harward, Sonya" (2751791104)  
00:35:30.749 --> 00:35:39.839  
Situation where they put boards and commissions together, they went very  
much in depth or the community. It was pretty much something that the  
community collectively.  
218 "Harward, Sonya" (2751791104)  
00:35:39.839 --> 00:35:50.219  
Over a series of actions came up with, but I'm wondering if we're going  
to and this takes in 30 and 31 if we're going to.  
219 "Harward, Sonya" (2751791104)  
00:35:50.219 --> 00:35:56.759  
Create a different arrangement with respect to metro Council, or some of  
these particular.  
220 "Harward, Sonya" (2751791104)  
00:35:56.759 --> 00:36:08.399  
Legislative pieces are are districts that should they not I should not  
the citizens of the affected areas also be part of the approval process.  
221 "Harward, Sonya" (2751791104)  
00:36:08.399 --> 00:36:15.899

And let me just put it this way. I'm recommending that that be so, and reason why I think that's important.

222 "Harward, Sonya" (2751791104)

00:36:15.899 --> 00:36:35.899

Is because this is the structure, the structures that we are now utilizing are the ones that we have been living under and if we take this way to Frankfurt, and it becomes the ad, if somebody something that somebody wants to happen, but really, it's not necessarily reflective of the people who are, uh.

223 "Harward, Sonya" (2751791104)

00:36:35.899 --> 00:36:49.319

Tends to be served by the change. So I think if we also allowed subjected this to also devote, or maybe whatever they come up with, if anything and.

224 "Harward, Sonya" (2751791104)

00:36:49.319 --> 00:36:57.410

Frankfurt is submitted back to the holding districts that are affected. I think there'll be a reasonable resolution. A number of.

225 "Jason Nemes" (1270223872)

00:36:57.410 --> 00:37:02.669

31 senator had mentioned that the review will be local, and then they'll submit to the general assembly.

226 "Jason Nemes" (1270223872)

00:37:02.669 --> 00:37:08.909

What they would, I think it's results of the review. The review I'm looking at it.

227 "Jason Nemes" (1270223872)

00:37:08.909 --> 00:37:12.356

During the last sentence, the results of the, I think we.

228 "Harward, Sonya" (2751791104)

00:37:12.356 --> 00:37:15.987

I think I'm really stuck on 30. I figured.

229 "Jason Nemes" (1270223872)

00:37:15.987 --> 00:37:17.672

It would be.

230 "Harward, Sonya" (2751791104)

00:37:17.672 --> 00:37:18.724

Determine that, but that's.

231 "Jason Nemes" (1270223872)

00:37:18.724 --> 00:37:23.292

You're referring to, but but so, 30 doesn't have that doesn't have that in there. So well.

232 "Harward, Sonya" (2751791104)

00:37:23.292 --> 00:37:25.348

Well, it was voted in.

233 "Jason Nemes" (1270223872)

00:37:25.348 --> 00:37:30.110

102, it was something that we discussed, and it just wasn't in there.

Well, we didn't.

234 "Harward, Sonya" (2751791104)

00:37:30.110 --> 00:37:46.879

Discuss the other matter that she said it had no problem and I'm just saying, I think it's important for everyone to vote in this process. I think that's always reasonable. I think transparency is always

reasonable. I think looking at something is always reasonable, particularly after a period of time, such as.

235 "Harward, Sonya" (2751791104)

00:37:46.879 --> 00:37:54.959

Is doing so I would recommend and would think that would not be controversial just as 31 is not.

236 "Harward, Sonya" (2751791104)

00:37:54.959 --> 00:38:05.031

And would recommend that we include that particular piece. Okay, so I'm sorry.

237 "Harward, Sonya" (2751791104)

00:38:05.031 --> 00:38:09.089

No, no, no, no, no, I interrupted you. I'm sorry. No, that.

238 "Jason Nemes" (1270223872)

00:38:09.089 --> 00:38:15.750

So, you're asking to reconsider what what we've already made today was about and that was pretty solid 11 to 2.

239 "Jason Nemes" (1270223872)

00:38:15.750 --> 00:38:27.108

I think today was about the making sure that we we already voted on the concept to make sure the language was, as we understood the agreement to already have been.

240 "Harward, Sonya" (2751791104)

00:38:27.108 --> 00:38:39.390

Yes, sir, uh, on number 30 you're correct that was discussed and then we had a vote on it to do this and not to study. It is, um.

241 "Harward, Sonya" (2751791104)

00:38:39.390 --> 00:38:44.820

Mentioned it was passed through the house, but we're suggesting that we passed through the.

242 "Harward, Sonya" (2751791104)

00:38:44.820 --> 00:38:49.410

The whole general assembly, and we did vote on that number 31.

243 "Harward, Sonya" (2751791104)

00:38:49.410 --> 00:38:53.580

Uh, Senator niel's concerns were discussed that.

244 "Harward, Sonya" (2751791104)

00:38:53.580 --> 00:39:04.470

And he brought it up that the locals should have input in this and not sent to the state to do. And that's why we put in there for a study for mental council almost who have it.

245 "Harward, Sonya" (2751791104)

00:39:04.470 --> 00:39:12.630

I'm okay with 31 I was looking specifically dealing with 30. okay. Well, my answer to that was we did discuss that and vote on it.

246 "Harward, Sonya" (2751791104)

00:39:12.630 --> 00:39:21.240

We discussed all these things to vote on it and we're here and we have the power and the ability to make adjustments and I'm requesting that we do that. Okay because, uh.

247 "Harward, Sonya" (2751791104)

00:39:21.240 --> 00:39:25.560

Because these are districts that are affected.

248 "Harward, Sonya" (2751791104)

00:39:25.560 --> 00:39:30.960

And they should have direct input into that instead of getting a mandate from Frankfurt.

249 "Harward, Sonya" (2751791104)

00:39:30.960 --> 00:39:37.347

That's all I'm saying, you know, we live here, we don't live in Frankfurt.

250 "Jason Nemes" (1270223872)

00:39:37.347 --> 00:39:41.828

To remember making a request, why why would we be afraid of the vote.

251 "Harward, Sonya" (2751791104)

00:39:41.828 --> 00:39:51.330

Other people in the district that we go into effect, in terms of how they want to govern themselves. W, why would we have an issue there? Mr. can I make a quick point?

252 "Harward, Sonya" (2751791104)

00:39:51.330 --> 00:40:00.390

Count them, if I could respond to San Antonio, it's because we don't do that with any other legislation that comes out of Frankfurt.

253 "Harward, Sonya" (2751791104)

00:40:00.390 --> 00:40:03.750

In this last legislative session, Frankfurt passed.

254 "Harward, Sonya" (2751791104)

00:40:03.750 --> 00:40:23.750

100+bills out of the Senate, how many how many bills passed out of the Senate, the Senate session, and every day categorically, I'm open to making a specific request to this specific reason. Why we do a lot of when things from Frankfurt, and we defer to local governments. We do all kinds of things. I'm just making a specific.

255 "Harward, Sonya" (2751791104)

00:40:23.750 --> 00:40:25.521

Yes.

256 "Jason Nemes" (1270223872)

00:40:25.521 --> 00:40:29.180

Piece and that does not deal.

257 "Harward, Sonya" (2751791104)

00:40:29.180 --> 00:40:31.640

Minimize the request.

258 "Jason Nemes" (1270223872)

00:40:31.640 --> 00:40:33.184

Saying that ceremony.

259 "Harward, Sonya" (2751791104)

00:40:33.184 --> 00:40:41.907

I'm not saying that the request is not legitimate. I'm simply saying we have a representative request. You don't want to interview it. You don't want to entertain it. That's fine. I'm just making a note.

260 "Jason Nemes" (1270223872)

00:40:41.907 --> 00:40:48.630

So, what I'm, what I'm going to say is that that wasn't the, what we were going to do today. We're not going to do that.

261 "Jason Nemes" (1270223872)

00:40:48.630 --> 00:40:58.140

We'll we'll make recommendations we'll take up recommendations on particular language. That was better reflect what the, what we've already had a vote on, for example, on number 31.

262 "Jason Nemes" (1270223872)

00:40:58.140 --> 00:41:03.990

We didn't have the exact language down. We wrote concepts down because we changed the recommend earl's recommendation.

263 "Jason Nemes" (1270223872)

00:41:03.990 --> 00:41:08.160

From make the make it happen to have 806.

264 "Jason Nemes" (1270223872)

00:41:08.160 --> 00:41:16.860

To study the commission, so I think we'll, we'll take recommendations on changing a wording, but not on, on changing of concepts that we've already voted on.

265 "Jason Nemes" (1270223872)

00:41:16.860 --> 00:41:20.490

But note your note, your request.

266 "Jason Nemes" (1270223872)

00:41:20.490 --> 00:41:24.706

I I agree with Senator Neil I don't know.

267 "Marianne" (3324136448)

00:41:24.706 --> 00:41:29.220

Why we can't take this to a vote for the people. I mean, this really changes.

268 "Marianne" (3324136448)

00:41:29.220 --> 00:41:33.420

How Metro is and how it was explained to them.

269 "Marianne" (3324136448)

00:41:33.420 --> 00:41:37.663

And they should have a say, we had a.

270 "Jason Nemes" (1270223872)

00:41:37.663 --> 00:41:46.170

Pretty robust representation if we had a robust debate on 30, uh, the language of 30 represents what we agreed to.

271 "Jason Nemes" (1270223872)

00:41:46.170 --> 00:41:55.707

And what we voted on, does the language on 31 represent what we agreed to, or any comments on? Yes, sir, I'll do it.

272 "Harward, Sonya" (2751791104)

00:41:55.707 --> 00:41:59.880

You know, I've been critical to this process from the beginning.

273 "Harward, Sonya" (2751791104)

00:41:59.880 --> 00:42:06.180

I don't wanna get into all the reasons why I will address those later in a different forum.

274 "Harward, Sonya" (2751791104)

00:42:06.180 --> 00:42:16.560

But my point is, is that this process, we're not trying to lock something in stone here or are we from here until, uh.

275 "Harward, Sonya" (2751791104)

00:42:16.560 --> 00:42:23.490

The state, which on a very political subject by the way, which is.

276 "Harward, Sonya" (2751791104)

00:42:23.490 --> 00:42:31.560  
Party dominant in terms of how this is going to turn out in the 1st place. Let's not be naive. None of us are.

277 "Harward, Sonya" (2751791104)  
00:42:31.560 --> 00:42:37.470  
I'm sure, uh, that we don't subject change of government.

278 "Harward, Sonya" (2751791104)  
00:42:37.470 --> 00:42:40.560  
Those affected on the local level.

279 "Harward, Sonya" (2751791104)  
00:42:40.560 --> 00:42:44.880  
In the circumstance, so I, you know.

280 "Harward, Sonya" (2751791104)  
00:42:44.880 --> 00:42:49.440  
It's nice, you know, we all friends, you know, I respect and.

281 "Harward, Sonya" (2751791104)  
00:42:49.440 --> 00:42:55.740  
Uh, like, they have a beer with a couple of you guys, but at the end of the day, we all know.

282 "Harward, Sonya" (2751791104)  
00:42:55.740 --> 00:42:58.770  
The playing field that we are functioning on.

283 "Harward, Sonya" (2751791104)  
00:42:58.770 --> 00:43:06.510  
And, you know, from for 1 part, you know, I, I don't play any games. I'm just looking at industry. We know what this is.

284 "Harward, Sonya" (2751791104)  
00:43:06.510 --> 00:43:16.170  
This is a political gambit and the question is and I don't mean that negatively. I'm just saying there's some opinions here and I'm saying that people that are being affected.

285 "Harward, Sonya" (2751791104)  
00:43:16.170 --> 00:43:19.320  
Should have direct say.

286 "Harward, Sonya" (2751791104)  
00:43:19.320 --> 00:43:26.700  
And how they want to be governed and not mandated from a political structure.

287 "Harward, Sonya" (2751791104)  
00:43:26.700 --> 00:43:33.075  
Far removed from them in Frankfurt and I'm sorry I'm sorry go ahead.

288 "Jason Nemes" (1270223872)  
00:43:33.075 --> 00:43:36.016  
No, no, that's okay. I understand. Now, I don't want.

289 "Harward, Sonya" (2751791104)  
00:43:36.016 --> 00:43:38.838  
Say, too much. I'll say what I have to say. I'm good.

290 "Jason Nemes" (1270223872)  
00:43:38.838 --> 00:43:50.570  
Say, I would say 3 things, the partisanship is in state lawsuits, demanded back Frankfurt. Now number 1 number 2, we had a robust debate on this where it was submitted much in advance. We had a.

291 "Jason Nemes" (1270223872)  
00:43:50.570 --> 00:43:56.550

Debate on it and then the 3rd thing with respect to your question, your assertion of a political Gambit, I would know.

292 "Jason Nemes" (1270223872)

00:43:56.550 --> 00:44:00.270

That this was an 11 to 2 to 2 to vote.

293 "Jason Nemes" (1270223872)

00:44:00.270 --> 00:44:05.453

Even the majority of the Democrats on this commission voted for it. So, and that's not while we're here today.

294 "Harward, Sonya" (2751791104)

00:44:05.453 --> 00:44:08.223

A few people I'm sorry go ahead. No, it's.

295 "Jason Nemes" (1270223872)

00:44:08.223 --> 00:44:20.270

50, 50 on this commission, the majority of Democrats on the commission voted for, but what we're here today for, and what we've announced to the community and the members of the commission is that we're here to make sure that the language accurately reflects the.

296 "Jason Nemes" (1270223872)

00:44:20.270 --> 00:44:24.840

Mission took, and so if you're wanting to make an allegation at 30, doesn't.

297 "Jason Nemes" (1270223872)

00:44:24.840 --> 00:44:34.200

And accurately reflect what we voted, and I'll consider that revisit to revisit. Won't won't be won't be consider.

298 "Harward, Sonya" (2751791104)

00:44:34.200 --> 00:44:39.120

To reflect that, I've said repeatedly, this is a flawed process.

299 "Harward, Sonya" (2751791104)

00:44:39.120 --> 00:44:49.980

That this process does not take into consideration. The type of research is necessary to understand and taking consideration the implications of some of the moves that we're making here.

300 "Harward, Sonya" (2751791104)

00:44:49.980 --> 00:44:54.150

And that outstanding your comment about robust.

301 "Harward, Sonya" (2751791104)

00:44:54.150 --> 00:45:13.075

Discussion, you know, if you don't have all the information before you and their research is not done, adequately adequately and the process is not extended. So everyone has a very informed vote. We can talk all day long. That does not make it robust. So, I just want to take issue with that. Thank you for chairman. Appreciate it. Thank you, Sandra and.

302 "Jason Nemes" (1270223872)

00:45:13.075 --> 00:45:21.030

I could certainly reflects that and I'm sure you'll make the Senate record reflected as well number 31. does it does it accurately reflect the language accurate or reflect the.

303 "Jason Nemes" (1270223872)

00:45:21.030 --> 00:45:25.710

The changes that we made the chairman Jones is recommendation.

304 "Jason Nemes" (1270223872)

00:45:31.980 --> 00:45:36.756

All right, let's move to number 32.

305 "Harward, Sonya" (2751791104)

00:45:36.756 --> 00:45:41.293

Chairman, can we add the entire language back in on.

306 "Jason Nemes" (1270223872)

00:45:41.293 --> 00:45:42.732

When it when it comes to.

307 "Harward, Sonya" (2751791104)

00:45:42.732 --> 00:45:46.618

To do 32 yes. Okay. So.

308 "Jason Nemes" (1270223872)

00:45:46.618 --> 00:45:59.100

As let's come back to that, you think you think that the vote that we took included the language that we had before, since you're going to make that recommendations come back to that.

309 "Jason Nemes" (1270223872)

00:45:59.100 --> 00:46:04.080

Tag that 1, and go to 33 we will come back to 32 and here you have on that 1 number 33.

310 "Jason Nemes" (1270223872)

00:46:04.080 --> 00:46:11.070

Shh.

311 "Jason Nemes" (1270223872)

00:46:21.300 --> 00:46:32.178

Ok, number 34.

312 "Harward, Sonya" (2751791104)

00:46:32.178 --> 00:46:34.154

If I may.

313 "Jason Nemes" (1270223872)

00:46:34.154 --> 00:46:35.574

I know.

314 "Harward, Sonya" (2751791104)

00:46:35.574 --> 00:46:43.140

Is that here we have and I think there's an attempt here to have a representative group of people who are knowledgeable.

315 "Harward, Sonya" (2751791104)

00:46:43.140 --> 00:46:47.040

To look at this issue regarding the.

316 "Harward, Sonya" (2751791104)

00:46:47.040 --> 00:46:50.910

And we had a lot of testimony that is already is.

317 "Harward, Sonya" (2751791104)

00:46:50.910 --> 00:47:10.910

Actually structured to do that anyway, but okay. Be that isn't may, but I would recommend that we also add to the appointing. Sorry I know you want I think you have 5 here that we consider 7, and including the National Association of real estate brokers. Louisville.

318 "Harward, Sonya" (2751791104)

00:47:10.910 --> 00:47:34.996

We're also a a very important, uh, player and aspect of the real estate world and I think we'd give another dimension in fact, value to the process of thank you attempting to achieve here. So, I'm just recommending that that we do. So.

319 "Jason Nemes" (1270223872)

00:47:34.996 --> 00:47:44.214

I heard you say you wanted to add 2, but 1 of them I heard was national associates and real estate brokers. Would you recommend that? They do too? Or did you have a 2nd group? They add another 1? Well.

320 "Harward, Sonya" (2751791104)

00:47:44.214 --> 00:47:56.050

And the reason I said too, is because I know you all in these kinds of things, you always want to have an odd number. So you don't get stuck. That's the only reason. I say it too. If we could have done it with 1 that said 1, so you're.

321 "Jason Nemes" (1270223872)

00:47:56.050 --> 00:48:02.824

Recommendation is to add to that. The National Association of real estate brokers gets to the point right?

322 "Harward, Sonya" (2751791104)

00:48:02.824 --> 00:48:06.827

For real estate broker Louisville. Okay so.

323 "Jason Nemes" (1270223872)

00:48:06.827 --> 00:48:11.306

That's the low. That's a little chapter, correct? I'm sorry.

324 "Harward, Sonya" (2751791104)

00:48:11.306 --> 00:48:12.387

Yeah, he he wants to.

325 "Jason Nemes" (1270223872)

00:48:12.387 --> 00:48:19.110

Chapter okay, so I'm going to I'm going to do 2 things number 1.

326 "Jason Nemes" (1270223872)

00:48:19.110 --> 00:48:26.130

I don't think that is a substantive change. I think that's more of a procedural change. And so we'll entertain that. Is there any objections to adding.

327 "Jason Nemes" (1270223872)

00:48:26.130 --> 00:48:31.948

The 2 appointments from National Association of real estate brokers from global. No, that's good.

328 "ken fleming" (3621805824)

00:48:31.948 --> 00:48:36.005

Good at I Pre Pre, trade center, nail doing that. Thank you.

329 "Jason Nemes" (1270223872)

00:48:36.005 --> 00:48:40.290

That without any objections will add that the 1 thing I wanted to highlight on this 1.

330 "Jason Nemes" (1270223872)

00:48:40.290 --> 00:48:45.450

Is you'll remember that we wanted we heard from miss younger that, um.

331 "Jason Nemes" (1270223872)

00:48:45.450 --> 00:48:55.590

Doing an assessment, or an appraisal of 1 house is different than, like an assessment for tax purposes or broad purposes. So we added we added the language at the very end.

332 "Jason Nemes" (1270223872)

00:48:55.590 --> 00:49:14.730

If you follow along with me, the last sentence, or you could, you could just turn to page 23 if you wanted to. And it says all of them must be

qualified to evaluate property for taxes and the purposes Earl. And I think that that encapsulates the thought that in this younger head there. So that was a change that we made. I wanted to highlight.

333 "Jason Nemes" (1270223872)

00:49:14.730 --> 00:49:19.163

Any other suggestions on 34.

334 "Marianne" (3324136448)

00:49:19.163 --> 00:49:24.807

Is this going to be across the board for all or all in Jefferson County?

335 "Jason Nemes" (1270223872)

00:49:24.807 --> 00:49:28.525

Okay.

336 "Marianne" (3324136448)

00:49:28.525 --> 00:49:32.843

And it's good for Jackson County. Why isn't good across the state? Yeah, well.

337 "Harward, Sonya" (2751791104)

00:49:32.843 --> 00:49:34.985

We limit that well, this.

338 "Jason Nemes" (1270223872)

00:49:34.985 --> 00:49:39.030

And that's again, this is going to the heart of the matter, but we had.

339 "Jason Nemes" (1270223872)

00:49:39.030 --> 00:49:43.320

Um, testimony from her, uh, from from our.

340 "Jason Nemes" (1270223872)

00:49:43.320 --> 00:49:49.500

Uh, the the thought is that we have particular and we've got some, um.

341 "Jason Nemes" (1270223872)

00:49:49.500 --> 00:49:54.750

Some evidence that there might be some differences in assessments in Jefferson County.

342 "Jason Nemes" (1270223872)

00:49:54.750 --> 00:50:07.468

And so we don't have the evidence that there's differences assessments elsewhere and obviously this commission is about is about mobile. So there's no, that's the reason that it's just right yes.

343 "Harward, Sonya" (2751791104)

00:50:07.468 --> 00:50:11.084

Mr. chairman I just wanted to reiterate.

344 "julie raque adams" (4264177920)

00:50:11.084 --> 00:50:26.930

Your last statement, and that, you know, the purpose of this commission, which was the suggestion of representative, Joanie Jenkins was set up so that we could look at merger and local and what's working what's not working? What is great?

345 "julie raque adams" (4264177920)

00:50:26.930 --> 00:50:36.107

What might need to be tweaked? So, this is a level specific project that we're working on.

346 "Jason Nemes" (1270223872)

00:50:36.107 --> 00:50:37.608

Thank you.

347 "Harward, Sonya" (2751791104)

00:50:37.608 --> 00:50:42.210  
Yeah, and I would point out that I mean, I think the point was made earlier.

348 "Harward, Sonya" (2751791104)  
00:50:42.210 --> 00:50:49.260  
That, you know, just about the question of we, we come from global here.

349 "Harward, Sonya" (2751791104)  
00:50:49.260 --> 00:50:54.030  
And we're making decisions about law fall as a bipartisan group.

350 "Harward, Sonya" (2751791104)  
00:50:54.030 --> 00:50:57.420  
I'm sure nobody is recommending.

351 "Harward, Sonya" (2751791104)  
00:50:57.420 --> 00:51:01.980  
At this group that none of which of us represent the rest of the state.

352 "Harward, Sonya" (2751791104)  
00:51:01.980 --> 00:51:13.950  
Is making recommendations related to the rest of the state so, you know, we need to stick we need to stay in our lane here a little bit stick to lawful. My understanding was this was about Jefferson County PVA. Thank you.

353 "Harward, Sonya" (2751791104)  
00:51:13.950 --> 00:51:18.462  
My name is Jeremy. Of course.

354 "Jason Nemes" (1270223872)  
00:51:18.462 --> 00:51:21.801  
There was a question, I think you were.

355 "Harward, Sonya" (2751791104)  
00:51:21.801 --> 00:51:38.930  
The language may deal with this, but I'm not certain, but there was a question as to how assessments are done by the PBA, which is, I'm using my words more of a generalized process, as opposed to specific property. I'm just wondering if this language.

356 "Harward, Sonya" (2751791104)  
00:51:38.930 --> 00:51:50.021  
Which really addresses that differences. I guess the word qualified to evaluate property for tax assessment purposes might take that might take care of that. That was.

357 "Jason Nemes" (1270223872)  
00:51:50.021 --> 00:51:57.158  
Default Journal, tax assessment purposes is not like, for purposes of a sales. So if you think we need to have better language on that no.

358 "Harward, Sonya" (2751791104)  
00:51:57.158 --> 00:52:06.342  
No, we just tried to share what the language intent was. Yes, sir. Okay. Thank you.

359 "Jason Nemes" (1270223872)  
00:52:06.342 --> 00:52:12.600  
Comments on 34, we will be adding to appointments to be made by National Association.

360 "Jason Nemes" (1270223872)  
00:52:12.600 --> 00:52:17.040  
A real estate brokers, local chapter anything else.

361 "Jason Nemes" (1270223872)

00:52:23.550 --> 00:52:29.021  
To move to 35.  
362 "Harward, Sonya" (2751791104)  
00:52:29.021 --> 00:52:33.180  
Chairman, once again, I would just like to try to add in.  
363 "Harward, Sonya" (2751791104)  
00:52:33.180 --> 00:52:37.470  
But the influx of the legal cities in there, because.  
364 "Harward, Sonya" (2751791104)  
00:52:37.470 --> 00:52:47.640  
You're talking about suburban services do you mean that services that can be offered or you just talking about all suburban services?  
365 "Harward, Sonya" (2751791104)  
00:52:47.640 --> 00:52:57.390  
That are in this, if you're talking about suburban services, I would like to share information and or have them involved in that somehow.  
366 "Harward, Sonya" (2751791104)  
00:52:57.390 --> 00:53:02.937  
Or are you just mostly talking about lack of I think I.  
367 "Jason Nemes" (1270223872)  
00:53:02.937 --> 00:53:13.860  
I think, I think Mayor John, what we're talking about in number 35, I think your point is certainly on point in my view on the other 1 that we were talking about that, we're going to come back to.  
368 "Jason Nemes" (1270223872)  
00:53:13.860 --> 00:53:22.710  
But with respect to 35, this is kind of city services that are available around the county. And we're trying to what we're trying to say here, is that.  
369 "Jason Nemes" (1270223872)  
00:53:22.710 --> 00:53:25.890  
Have a better interaction.  
370 "Jason Nemes" (1270223872)  
00:53:25.890 --> 00:53:30.420  
Infrastructure for the city. Okay, thank you.  
371 "Jason Nemes" (1270223872)  
00:53:30.420 --> 00:53:36.638  
Any other comments on 35? Well, I.  
372 "Marianne" (3324136448)  
00:53:36.638 --> 00:53:40.680  
I do believe mayor Greenberg has already started this. Um.  
373 "Marianne" (3324136448)  
00:53:40.680 --> 00:53:47.715  
He does have Bonnie is it monthly or BI, monthly meetings with all the mayors? He's a.  
374 "Harward, Sonya" (2751791104)  
00:53:47.715 --> 00:53:51.840  
Trying now to do about every 6 weeks we've got 1.  
375 "Harward, Sonya" (2751791104)  
00:53:51.840 --> 00:53:57.797  
Probably, we'll have another 1 before the holidays. I'm sure. So he.  
376 "Marianne" (3324136448)  
00:53:57.797 --> 00:54:01.800

He's already doing that, so I think somewhere in there, we need to give kudos.

377 "Marianne" (3324136448)  
00:54:01.800 --> 00:54:09.420

That they are doing this, and we hope that he.

378 "Marianne" (3324136448)  
00:54:09.420 --> 00:54:18.773

Continues reaching out to the suburban areas for input so I don't.

379 "Jason Nemes" (1270223872)  
00:54:18.773 --> 00:54:24.090

Consider that a substantive change. So, let's make that. Let me make a recommendation. Uh.

380 "Jason Nemes" (1270223872)  
00:54:24.090 --> 00:54:31.860

Marianne on your go to the last sentence, the councilman believes the metro government should. Why don't we say the council believes that Metro government and.

381 "Jason Nemes" (1270223872)  
00:54:31.860 --> 00:54:35.130

The new mayor.

382 "Jason Nemes" (1270223872)  
00:54:35.130 --> 00:54:43.680

Should continue to act to remedy does that acknowledge that that actions have been? The steps have been taken.

383 "Jason Nemes" (1270223872)  
00:54:43.680 --> 00:54:46.860

Yeah, okay.

384 "Jason Nemes" (1270223872)  
00:54:46.860 --> 00:54:50.910

So, with the chat with that change, I'll read the sentence.

385 "Jason Nemes" (1270223872)  
00:54:50.910 --> 00:54:56.070

I'm going to ask if this accurately reflects the agreement that we made the commission believes metro government.

386 "Jason Nemes" (1270223872)  
00:54:56.070 --> 00:55:00.300

And the new mayor should continue to act to remedy the situation by context.

387 "Jason Nemes" (1270223872)  
00:55:00.300 --> 00:55:08.033

With that change, does this accurately reflect our understanding of what we voted on? Yes.

388 "Marianne" (3324136448)  
00:55:08.033 --> 00:55:14.580

I don't remember voting on saying that I was okay with telling the mayor where his staff needs to live.

389 "Jason Nemes" (1270223872)  
00:55:14.580 --> 00:55:21.435

No, we are you talking about where deputy mayor.

390 "Marianne" (3324136448)  
00:55:21.435 --> 00:55:24.780

Yeah, that was in that was in a recommendation.

391 "Marianne" (3324136448)  
00:55:24.780 --> 00:55:29.940

Well, I know that it was mentioned before, but I don't remember voting on that.

392 "Marianne" (3324136448)  
00:55:29.940 --> 00:55:33.690

And I certainly would not tell him.

393 "Marianne" (3324136448)  
00:55:33.690 --> 00:55:40.230

Or her that they have to hire staff based on where they live, versus based on.

394 "Marianne" (3324136448)  
00:55:40.230 --> 00:55:45.169

Their skill levels we did.

395 "Jason Nemes" (1270223872)  
00:55:45.169 --> 00:55:50.272

Hold on that, we can go back and get the go ahead. Cancel.

396 "Harward, Sonya" (2751791104)  
00:55:50.272 --> 00:55:56.250

Yeah, Earl Jones is on now and I want to just show Marianne. Marianne, this was the subject.

397 "Harward, Sonya" (2751791104)  
00:55:56.250 --> 00:56:01.680

Rather heated debate when it was voted on and it was not unanimous.

398 "Harward, Sonya" (2751791104)  
00:56:01.680 --> 00:56:10.920

Approval so I think the point you're making was well articulated and heard nonetheless, this was the 1 that was approved.

399 "Harward, Sonya" (2751791104)  
00:56:10.920 --> 00:56:19.770

I think that the point the coach here makes about adding this note about continued is an effort, at least to acknowledge.

400 "Harward, Sonya" (2751791104)  
00:56:19.770 --> 00:56:24.450

That the mayor is is has heard this concern.

401 "Harward, Sonya" (2751791104)  
00:56:24.450 --> 00:56:29.850

And Mr. Co chair, if I could add, I think the language.

402 "Harward, Sonya" (2751791104)  
00:56:29.850 --> 00:56:33.060

To some degree gives options.

403 "Harward, Sonya" (2751791104)  
00:56:33.060 --> 00:56:49.950

So, it's not telling the mayor where he needs to hide a staff hire staff that says creating an office of suburban services end, or by appointing a deputy mayor or 2. so, it's basically saying, like, look, if there's a, a strategy around suburban services.

404 "Harward, Sonya" (2751791104)  
00:56:49.950 --> 00:57:05.780

Then it can be an or statement, he doesn't have to hire necessarily people so it's not so much ordering him. It's saying there's a couple options here on how the administration can demonstrate that they have a strategy around suburban services.

405 "Jason Nemes" (1270223872)  
00:57:05.780 --> 00:57:11.440

Tony, I think it also says consider considering that, you know, correct.

406 "Harward, Sonya" (2751791104)  
00:57:11.440 --> 00:57:15.936  
Correct yeah.

407 "Jason Nemes" (1270223872)  
00:57:15.936 --> 00:57:24.960  
Comments on 35. okay number 37. 0.

408 "Jason Nemes" (1270223872)  
00:57:24.960 --> 00:57:31.770  
So, we added I want to highlight for everyone.

409 "Jason Nemes" (1270223872)  
00:57:31.770 --> 00:57:34.980  
We added population density in here.

410 "Jason Nemes" (1270223872)  
00:57:34.980 --> 00:57:39.960  
That's not something that we discussed, but I think it was it was fairly  
in the conversation that we had had.

411 "Harward, Sonya" (2751791104)  
00:57:45.153 --> 00:57:48.497  
Did you advise in the new language there? Jason.

412 "Jason Nemes" (1270223872)  
00:57:48.497 --> 00:57:54.150  
Just that just right there. Yes. The new language is it it used to say,  
um.

413 "Jason Nemes" (1270223872)  
00:57:54.150 --> 00:58:02.190  
Population and economic development, and now it says population growth,  
population, density and economic development. I think some of.

414 "Jason Nemes" (1270223872)  
00:58:02.190 --> 00:58:11.130  
I think it may have been Gerald that was mentioning that that it should  
it should well, we're talking about population. We're not just talking  
about total numbers, but we're also talking about.

415 "Jason Nemes" (1270223872)  
00:58:11.130 --> 00:58:14.910  
Numbers in particular areas, I'm not articulate as well as he did, but.

416 "Jason Nemes" (1270223872)  
00:58:14.910 --> 00:58:18.000  
The density question is is important as well.

417 "Jason Nemes" (1270223872)  
00:58:18.000 --> 00:58:22.170  
Which would obviously help them the more downtown area.

418 "Jason Nemes" (1270223872)  
00:58:30.150 --> 00:58:33.390  
Okay, so without hearing any comments or 37.

419 "Jason Nemes" (1270223872)  
00:58:33.390 --> 00:58:36.450  
We can move to 38.

420 "Jason Nemes" (1270223872)  
00:58:36.450 --> 00:58:41.830  
Can we.

421 "Marianne" (3324136448)  
00:58:41.830 --> 00:58:48.780  
Add in this 1 that they just do an overall review of chapter 75 not just  
to require the election.

422 "Marianne" (3324136448)  
00:58:48.780 --> 00:58:55.500  
But just an overall review cause I know since they did this and last  
changed it in the forties, I'm sure it.

423 "Marianne" (3324136448)  
00:58:55.500 --> 00:59:00.973  
That the fire service has changed.

424 "Harward, Sonya" (2751791104)  
00:59:00.973 --> 00:59:06.870  
Address that I think there was some concern that an overall review might,  
um.

425 "Harward, Sonya" (2751791104)  
00:59:06.870 --> 00:59:17.550  
Um, let's say, invite others to make changes in the, in the tax rates,  
the potential to increase the tax.

426 "Harward, Sonya" (2751791104)  
00:59:17.550 --> 00:59:27.780  
Rates that these districts have, so the thought was limited to this,  
which was the issue that came up and was the subject of some concern.

427 "Harward, Sonya" (2751791104)  
00:59:35.280 --> 00:59:39.510  
I mean, if there's something specific that, that you think should be  
addressed.

428 "Harward, Sonya" (2751791104)  
00:59:39.510 --> 00:59:43.230  
We might do that, but I think just an overall.

429 "Harward, Sonya" (2751791104)  
00:59:43.230 --> 00:59:47.160  
Take a look and see what you want to change might be, um.

430 "Harward, Sonya" (2751791104)  
00:59:47.160 --> 00:59:58.529  
Inviting more trouble than it's worth. Okay.

431 "Jason Nemes" (1270223872)  
00:59:58.529 --> 01:00:06.240  
Any other comments on 38 go to 39 on the last page.

432 "Jason Nemes" (1270223872)  
01:00:06.240 --> 01:00:09.810  
And or we have 4 or 5, we're, we're going to come back to.

433 "Jason Nemes" (1270223872)  
01:00:09.810 --> 01:00:15.030  
Because there were suggestions I wanted to make sure that you were  
involved in that conversation 139.

434 "Jason Nemes" (1270223872)  
01:00:15.030 --> 01:00:27.780  
Thank you, we'll note that we.

435 "Jason Nemes" (1270223872)  
01:00:27.780 --> 01:00:37.470  
We tried to get the language down in the in the last 2 sentences that  
were the subject of the most discussion when we met last time. So.

436 "Jason Nemes" (1270223872)  
01:00:37.470 --> 01:00:43.110  
Read it all, obviously the commissioners, but the last 2 sentences, I  
think was the subject of most of our conversation.

437 "Jason Nemes" (1270223872)

01:00:47.220 --> 01:00:51.540  
And I think we're missing the word for or is that.  
438 "Jason Nemes" (1270223872)  
01:00:51.540 --> 01:00:59.331  
Currently, what you see most of the interstates no. Less than actually  
the answers 3 times a year in the.  
439 "Marianne" (3324136448)  
01:00:59.331 --> 01:01:04.067  
It is 3 and Metro pays for a couple of times. I think they.  
440 "Jason Nemes" (1270223872)  
01:01:04.067 --> 01:01:07.110  
Yeah, I do at least 1 that's why I was thinking for Mary and you're  
right.  
441 "Jason Nemes" (1270223872)  
01:01:07.110 --> 01:01:10.457  
Yep.  
442 "Harward, Sonya" (2751791104)  
01:01:10.457 --> 01:01:13.604  
To change here and then.  
443 "Jason Nemes" (1270223872)  
01:01:13.604 --> 01:01:26.238  
We left out the word 3, and currently most the interstates and the ramps  
no less than we left the blank and we say less than times per year, we  
need to add 3. well, we.  
444 "Marianne" (3324136448)  
01:01:26.238 --> 01:01:30.622  
Him to know more than that. So metro doesn't have to do it and that's  
what.  
445 "Harward, Sonya" (2751791104)  
01:01:30.622 --> 01:01:36.510  
Of the discussion yeah, just just for clarity. That's exactly what they  
currently do. Mo at 3 times.  
446 "Harward, Sonya" (2751791104)  
01:01:36.510 --> 01:01:54.082  
Metro pays for an additional time or 2, right? So, I think yeah, W, what  
MS Butler is saying we should do is is is recommended increase and I  
think it needs to be 5. I think we, we discussed at the using floor,  
right?  
447 "Jason Nemes" (1270223872)  
01:01:54.082 --> 01:01:58.464  
So, it's a little less than 4. 4.  
448 "Harward, Sonya" (2751791104)  
01:01:58.464 --> 01:02:02.640  
Of the state is that what are we saying? Yes, yes.  
449 "Harward, Sonya" (2751791104)  
01:02:02.640 --> 01:02:06.844  
No, less than 4 by the same. Yep. So.  
450 "Jason Nemes" (1270223872)  
01:02:06.844 --> 01:02:12.000  
So, if we want, so right now, that's it says how much they do it totally.  
451 "Jason Nemes" (1270223872)  
01:02:12.000 --> 01:02:16.170  
So, the next sentence, I guess should be revised and say, should realize  
this.

452 "Jason Nemes" (1270223872)  
01:02:16.170 --> 01:02:19.770  
Is in an urban area, and the modeling of interstate should occur.

453 "Jason Nemes" (1270223872)  
01:02:19.770 --> 01:02:25.350  
No, fewer than 4 times is that.

454 "Jason Nemes" (1270223872)  
01:02:25.350 --> 01:02:29.766  
Are you following me there? Yes yes.

455 "Marianne" (3324136448)  
01:02:29.766 --> 01:02:34.139  
Should occur no fewer.

456 "Jason Nemes" (1270223872)  
01:02:34.139 --> 01:02:42.060  
4 times annually, let's leave the, let's leave the reference of the rural area. Maybe.

457 "Jason Nemes" (1270223872)  
01:02:42.060 --> 01:02:51.480  
So, I.

458 "Marianne" (3324136448)  
01:02:51.480 --> 01:02:56.520  
I understand why you want to leave the rule area out. However, I think we need to put.

459 "Marianne" (3324136448)  
01:02:56.520 --> 01:03:01.320  
This is a urban area with a lot of pedestrians.

460 "Marianne" (3324136448)  
01:03:01.320 --> 01:03:06.360  
Something like that, because I know and you get over by Southern Parkway.

461 "Marianne" (3324136448)  
01:03:06.360 --> 01:03:11.880  
taylorville Ro, bardstown road table of our you've got a lot pedestrians.

462 "Marianne" (3324136448)  
01:03:11.880 --> 01:03:18.420  
By these in ramps that are walking the streets, whether they're getting to the bus line or whatever.

463 "Marianne" (3324136448)  
01:03:18.420 --> 01:03:22.620  
It just needs to be.

464 "Marianne" (3324136448)  
01:03:22.620 --> 01:03:27.646  
Cleaned up for them as well.

465 "Jason Nemes" (1270223872)  
01:03:27.646 --> 01:03:31.284  
Here's here's what I WH, what is.

466 "Harward, Sonya" (2751791104)  
01:03:31.284 --> 01:03:35.610  
Help or be permissible to add some language that.

467 "Harward, Sonya" (2751791104)  
01:03:35.610 --> 01:03:39.270  
The oh.

468 "Harward, Sonya" (2751791104)  
01:03:39.270 --> 01:03:48.030

Undertake a review as to additional needs in the various areas. In other words, employing them to take.

469 "Harward, Sonya" (2751791104)  
01:03:48.030 --> 01:03:56.280

Another look as to whether they are meeting needs in some areas, because I imagine it's probably a, and even.

470 "Harward, Sonya" (2751791104)  
01:03:56.280 --> 01:04:05.190

Kind of assessment, you'd have to make at least outcomes in terms of just doing it across the board. I'm not sure what that means. Quite frankly.

471 "Harward, Sonya" (2751791104)  
01:04:05.190 --> 01:04:12.766

So, just to get them to look at it, you know, what what what are we deficient in our? Well, we.

472 "Marianne" (3324136448)  
01:04:12.766 --> 01:04:15.324

Wanting to add it to, huh?

473 "Harward, Sonya" (2751791104)  
01:04:15.324 --> 01:04:21.441

No, that's where we, that's where we have the 4. that's where we have the no less than 4. okay.

474 "Jason Nemes" (1270223872)  
01:04:21.441 --> 01:04:40.050

I think I've got your let me see if I've got everyone's concepts here. So start with me on the last 2 sentences, and I'm going to change a little bit the wording or suggest that we change a little bit of the wording. Here. We go currently moves the interstates and the ramps no less than 3 times per year. Should.

475 "Jason Nemes" (1270223872)  
01:04:40.050 --> 01:04:48.510

Undertake an assessment to ensure its mowing practices are adequate and.

476 "Jason Nemes" (1270223872)  
01:04:48.510 --> 01:04:56.160

Realize this is an urban area with a lot of pedestrians and the moving of the interstate should occur. No fewer than 4 times annually.

477 "Jason Nemes" (1270223872)  
01:04:56.160 --> 01:05:02.346

I satisfy everyone. Yeah.

478 "Jason Nemes" (1270223872)  
01:05:02.346 --> 01:05:06.070

You have a green button.

479 "Marianne" (3324136448)  
01:05:06.070 --> 01:05:19.200

I would defer to you on that. No, no. I mean, I think it's true. I mean, they need to realize we've got people walk in this area when grass is 3 or 4 feet tall especially if it's a kid that's walking.

480 "Marianne" (3324136448)  
01:05:19.200 --> 01:05:22.800

That's an issue. Yeah.

481 "Jason Nemes" (1270223872)  
01:05:25.813 --> 01:05:29.490

It's on 39.

482 "Jason Nemes" (1270223872)  
01:05:29.490 --> 01:05:34.950

Okay, we have a few that we need to go back to the 1st 1 we need to go back to.

483 "Jason Nemes" (1270223872)

01:05:34.950 --> 01:05:39.180

Is in my note on page.

484 "Jason Nemes" (1270223872)

01:05:39.180 --> 01:05:43.440

15 number 24.

485 "Jason Nemes" (1270223872)

01:05:43.440 --> 01:05:57.071

Bonnie, I think this was your suggestion that you wanted to add in, so you have it for yes.

486 "Harward, Sonya" (2751791104)

01:05:57.071 --> 01:06:01.590

It's just that if they're going to have them.

487 "Harward, Sonya" (2751791104)

01:06:01.590 --> 01:06:06.150

I don't know how to put it in. Maybe also include the.

488 "Harward, Sonya" (2751791104)

01:06:06.150 --> 01:06:11.970

Address or contact information for Jefferson, Kelly, League of cities.

489 "Harward, Sonya" (2751791104)

01:06:11.970 --> 01:06:15.900

Um, that way they can.

490 "Harward, Sonya" (2751791104)

01:06:15.900 --> 01:06:22.620

Have that information or work with them.

491 "Harward, Sonya" (2751791104)

01:06:22.620 --> 01:06:26.340

And the city, so that they can get the full amount.

492 "Harward, Sonya" (2751791104)

01:06:26.340 --> 01:06:37.260

Their questions answered, not that I'm questioning anybody wouldn't do that. I just want to make sure if a person ask about annexation that they get the correct information.

493 "Harward, Sonya" (2751791104)

01:06:37.260 --> 01:06:41.100

Or if they want to start a city, then.

494 "Harward, Sonya" (2751791104)

01:06:41.100 --> 01:06:49.260

They want their own options as to whether that's a good or bad idea. So, just somehow include Jefferson County legal cities in that.

495 "Harward, Sonya" (2751791104)

01:06:49.260 --> 01:07:00.540

Well, can I ask a question clarification? Sure. The objective here is to say what metro government shall do and how it should what department should.

496 "Harward, Sonya" (2751791104)

01:07:00.540 --> 01:07:07.080

Departments be designated to take care of these services 5, this information.

497 "Harward, Sonya" (2751791104)

01:07:07.080 --> 01:07:11.730

Why is this something that the league can't do on its own?

498 "Harward, Sonya" (2751791104)  
01:07:11.730 --> 01:07:33.110  
Well, we, we do that on our own. But what I'm trying to do is work on a relationship and if someone comes to this department, you know, we want to work in cooperation. It might not be a good idea. That they annex this 1, particular reasons. Because the services would not be as good. Maybe just.

499 "Harward, Sonya" (2751791104)  
01:07:33.110 --> 01:07:42.930  
We're offering our services maybe it doesn't even have to be in this commission, but just to make sure that this department.

500 "Harward, Sonya" (2751791104)  
01:07:42.930 --> 01:07:49.050  
Has the information from the legacy cities so it could be it doesn't even have to be put in there.

501 "Harward, Sonya" (2751791104)  
01:07:49.050 --> 01:07:54.405  
Just something that can be worked out within that department.

502 "Jason Nemes" (1270223872)  
01:07:54.405 --> 01:08:03.125  
Is that something that you think you could make an agreement with on our mayor without putting something in here? Or do you want.

503 "Harward, Sonya" (2751791104)  
01:08:03.125 --> 01:08:11.370  
Sure, I believe he, he's extremely cooperative and I believe what's good for all of us is good for all of us.

504 "Harward, Sonya" (2751791104)  
01:08:11.370 --> 01:08:25.080  
Whether it's in 1 form of government or the other, we're all still legal metros. So sure. I, I can see that that the president executive director would work very close with the mayor's office. If they're willing to do that.

505 "Harward, Sonya" (2751791104)  
01:08:25.080 --> 01:08:29.523  
Okay.

506 "Jason Nemes" (1270223872)  
01:08:29.523 --> 01:08:34.444  
Suggestion is, let's see if that works and if it doesn't, and we'll come back with something that will that work for you. Sure.

507 "Harward, Sonya" (2751791104)  
01:08:34.444 --> 01:08:37.804  
Thank you. Yes.

508 "Jason Nemes" (1270223872)  
01:08:37.804 --> 01:08:42.810  
We need to come back to us on page 20. excuse me? Page? 17 number 27.

509 "Jason Nemes" (1270223872)  
01:08:42.810 --> 01:08:50.040  
And there was, I don't remember JIRA, was that you that had a comment on this 1 or.

510 "Harward, Sonya" (2751791104)  
01:08:50.040 --> 01:08:56.525  
So, how do we sort of language and you ask me to see if I can what, you know, that.

511 "Jason Nemes" (1270223872)

01:08:56.525 --> 01:08:59.883  
Need more time on. Go ahead. No, no, I'm fine.  
512 "Harward, Sonya" (2751791104)  
01:08:59.883 --> 01:09:03.630  
If you go down to the after the.  
513 "Harward, Sonya" (2751791104)  
01:09:03.630 --> 01:09:10.350  
As defining provided, however that if diversity cannot be achieved.  
514 "Harward, Sonya" (2751791104)  
01:09:10.350 --> 01:09:15.330  
Z should be a, the appointment authority shell document.  
515 "Harward, Sonya" (2751791104)  
01:09:15.330 --> 01:09:18.510  
Um, including.  
516 "Harward, Sonya" (2751791104)  
01:09:18.510 --> 01:09:24.780  
Demonstrating the efforts and inability to achieve.  
517 "Harward, Sonya" (2751791104)  
01:09:24.780 --> 01:09:28.470  
Diversity, um.  
518 "Harward, Sonya" (2751791104)  
01:09:28.470 --> 01:09:42.225  
Comma and made public the reasons why and a point otherwise qualified  
candidate I'm sure some grammatical issues there, but okay. That's the  
gist of it.  
519 "Jason Nemes" (1270223872)  
01:09:42.225 --> 01:09:46.950  
Let me make sure I've got you. Okay. I'm going to read it back to you.  
Ready yes.  
520 "Jason Nemes" (1270223872)  
01:09:46.950 --> 01:09:56.100  
For that, in the commission recommends that the boards and commissions  
throughout the state have diversity of members as defined in 676,139 778.  
521 "Jason Nemes" (1270223872)  
01:09:56.100 --> 01:10:00.210  
Provided, however, if diversity cannot be achieved.  
522 "Jason Nemes" (1270223872)  
01:10:00.210 --> 01:10:04.860  
The appointing authority chef document, including demonstrating the.  
523 "Jason Nemes" (1270223872)  
01:10:04.860 --> 01:10:07.860  
Efforts taken and inability.  
524 "Jason Nemes" (1270223872)  
01:10:07.860 --> 01:10:11.910  
To achieve diversity and make public those.  
525 "Jason Nemes" (1270223872)  
01:10:11.910 --> 01:10:19.021  
They make the reasons why and make public it's findings. It's.  
526 "Harward, Sonya" (2751791104)  
01:10:19.021 --> 01:10:26.250  
May I suggest that that instead of that place that we move it over to  
she'll document and make public.  
527 "Harward, Sonya" (2751791104)  
01:10:26.250 --> 01:10:32.760

The efforts to cetera. Yeah. The reasons why yeah, it wasn't. I agree.  
528 "Harward, Sonya" (2751791104)  
01:10:32.760 --> 01:10:37.230  
Move it there, Jason do you follow? Yes, sir. It makes sense.  
529 "Jason Nemes" (1270223872)  
01:10:48.487 --> 01:10:55.110  
So, Earl provided, however that if diversity cannot be achieved the  
appointment or self document and make public.  
530 "Jason Nemes" (1270223872)  
01:10:55.110 --> 01:11:04.872  
Its efforts taken and its inability to achieve diversity, an appointment  
and appoint and otherwise qualified candidate.  
531 "Harward, Sonya" (2751791104)  
01:11:04.872 --> 01:11:09.240  
I would say its efforts to achieve the required diversity.  
532 "Harward, Sonya" (2751791104)  
01:11:09.240 --> 01:11:13.020  
And the reasons it could it was unable to do. So.  
533 "Harward, Sonya" (2751791104)  
01:11:13.020 --> 01:11:21.300  
Okay, it has to, I think you have to put the word efforts in there. It's  
an efforts to achieve.  
534 "Harward, Sonya" (2751791104)  
01:11:21.300 --> 01:11:25.249  
Okay, I didn't hear that.  
535 "Jason Nemes" (1270223872)  
01:11:25.249 --> 01:11:29.611  
1st, to achieve the record Dr Jones and.  
536 "Harward, Sonya" (2751791104)  
01:11:29.611 --> 01:11:33.330  
Inability to do so.  
537 "Harward, Sonya" (2751791104)  
01:11:33.330 --> 01:11:36.990  
Okay, before.  
538 "Harward, Sonya" (2751791104)  
01:11:36.990 --> 01:11:45.660  
I can barely hear you before proceeding to point otherwise qualified  
candidate. Perfect. Okay.  
539 "Jason Nemes" (1270223872)  
01:11:53.449 --> 01:12:04.530  
I need to read it back. Are we good? All right. Would that change on 27?  
540 "Jason Nemes" (1270223872)  
01:12:04.530 --> 01:12:07.770  
Any other comments on 2007.  
541 "Jason Nemes" (1270223872)  
01:12:12.120 --> 01:12:19.200  
That change in the titles, I changed you already made in the typo shall  
be fixed. The next 1 that we were looking at is 28.  
542 "Jason Nemes" (1270223872)  
01:12:19.200 --> 01:12:30.254  
I was perplexed on what what what our thinking was on that 1.  
543 "Harward, Sonya" (2751791104)  
01:12:41.231 --> 01:12:45.660  
On page, 28 or number 28 page 18 number 28.

544 "Harward, Sonya" (2751791104)  
01:13:05.660 --> 01:13:09.840  
And this was another 1 that produced quite a bit of a.  
545 "Harward, Sonya" (2751791104)  
01:13:09.840 --> 01:13:18.810  
Of a discussion with concerns about overly complicating the process  
slowing down the process.  
546 "Harward, Sonya" (2751791104)  
01:13:18.810 --> 01:13:23.730  
But nonetheless, ensuring that, uh, people who had concerns could have an  
input.  
547 "Harward, Sonya" (2751791104)  
01:13:23.730 --> 01:13:30.570  
So, what was left least, as I recall, was then just this idea of making  
certain that.  
548 "Harward, Sonya" (2751791104)  
01:13:30.570 --> 01:13:34.620  
Some provision was made in the statute that.  
549 "Harward, Sonya" (2751791104)  
01:13:34.620 --> 01:13:40.530  
Input by stakeholders and that wasn't further define, but it clearly  
included.  
550 "Harward, Sonya" (2751791104)  
01:13:40.530 --> 01:13:46.080  
Residents community members, et cetera would have an opportunity to be  
heard.  
551 "Harward, Sonya" (2751791104)  
01:13:46.080 --> 01:13:52.350  
If that is, if this language does not achieve that, we can obviously  
amend it.  
552 "Harward, Sonya" (2751791104)  
01:13:52.350 --> 01:14:00.541  
But it's as simple as that was as simple as that. Yeah.  
553 "Jason Nemes" (1270223872)  
01:14:00.541 --> 01:14:05.028  
Remember that request, I think, came from jukari if I could.  
554 "" (0)  
01:14:05.000 --> 01:14:09.199  
So, we finished the sentence and this way Earl input, as cases are  
reviewed.  
555 "" (0)  
01:14:09.199 --> 01:14:12.350  
In making local planning decisions.  
556 "" (0)  
01:14:25.640 --> 01:14:31.460  
And if it is as written, it's okay. I'm fine with that too. So.  
557 "Harward, Sonya" (2751791104)  
01:14:31.460 --> 01:14:39.710  
The word appropriate stakeholders is that sufficient? What would you say.  
558 "Harward, Sonya" (2751791104)  
01:14:39.710 --> 01:14:44.676  
Oh, um.  
559 "Kaplan, David" (902884608)  
01:14:44.676 --> 01:14:48.350

A report.

560 "Kaplan, David" (902884608)

01:14:48.350 --> 01:14:52.383

Is we're marquee and I are you there?

561 "Jason Nemes" (1270223872)

01:14:52.383 --> 01:14:56.362

Is at the airport, please hit mute.

562 "Harward, Sonya" (2751791104)

01:14:56.362 --> 01:15:00.680

Um, uh.

563 "Harward, Sonya" (2751791104)

01:15:00.680 --> 01:15:03.920

Who who determines what's appropriate? Well, that's a good question.

564 "Harward, Sonya" (2751791104)

01:15:03.920 --> 01:15:07.640

Um, and I think there was.

565 "Harward, Sonya" (2751791104)

01:15:07.640 --> 01:15:10.850

We didn't have it in to the that question at the time.

566 "Harward, Sonya" (2751791104)

01:15:10.850 --> 01:15:16.550

I think the clear implication of the discussion though was.

567 "Harward, Sonya" (2751791104)

01:15:16.550 --> 01:15:19.580

At least was was residents.

568 "Harward, Sonya" (2751791104)

01:15:19.580 --> 01:15:23.870

That could resident and I, I guess.

569 "Harward, Sonya" (2751791104)

01:15:23.870 --> 01:15:31.340

My own take Senator, was that rather than saying, let's say residents, and then have somebody say and.

570 "Harward, Sonya" (2751791104)

01:15:31.340 --> 01:15:35.240

Developers or somebody else, the idea was stakeholders.

571 "Harward, Sonya" (2751791104)

01:15:35.240 --> 01:15:39.410

But, if the sense is that that the real concern is.

572 "Harward, Sonya" (2751791104)

01:15:39.410 --> 01:15:42.830

Residents, I suppose we could, we could make it.

573 "Harward, Sonya" (2751791104)

01:15:42.830 --> 01:15:46.880

Some specific reference to residents and.

574 "Harward, Sonya" (2751791104)

01:15:46.880 --> 01:15:51.362

Other appropriate, right for example, stakeholders can.

575 "Marianne" (3324136448)

01:15:51.362 --> 01:15:56.917

Let me just take out appropriate and say to include stakeholder input. I think.

576 "Harward, Sonya" (2751791104)

01:15:56.917 --> 01:16:00.500

You almost have to put residents in there somewhere otherwise.

577 "Harward, Sonya" (2751791104)  
01:16:00.500 --> 01:16:04.490  
Multiple people muscle out for residents, vested interest.

578 "Harward, Sonya" (2751791104)  
01:16:04.490 --> 01:16:09.410  
May have a tendency to muscle out residents.

579 "Harward, Sonya" (2751791104)  
01:16:09.410 --> 01:16:17.450  
This is a pretty common outcome.

580 "Harward, Sonya" (2751791104)  
01:16:20.540 --> 01:16:25.580  
I I think if you put residence, um.

581 "Harward, Sonya" (2751791104)  
01:16:25.580 --> 01:16:31.190  
And including appropriate stakeholders or something like that.

582 "Harward, Sonya" (2751791104)  
01:16:31.190 --> 01:16:40.670  
Maybe okay, residents and other stakeholders. How about that? Yeah, no raises a question of who.

583 "Harward, Sonya" (2751791104)  
01:16:40.670 --> 01:16:46.580  
I understand it's work in progress. Well, let's put it this way. The ones.

584 "Harward, Sonya" (2751791104)  
01:16:46.580 --> 01:16:50.780  
Who are let's say, we have a real stake in this.

585 "Harward, Sonya" (2751791104)  
01:16:50.780 --> 01:16:54.430  
Know who they are, and they're going to be there, so yes, they.

586 "Jason Nemes" (1270223872)  
01:16:54.430 --> 01:17:03.410  
Well, that's true. I think our citizens would appreciate having them put in there particularly to though.

587 "Jason Nemes" (1270223872)  
01:17:03.410 --> 01:17:16.220  
Yes, so I'm clear.

588 "Jason Nemes" (1270223872)  
01:17:16.220 --> 01:17:21.650  
Language is going to say review to include appropriate. Excuse me.

589 "Jason Nemes" (1270223872)  
01:17:21.650 --> 01:17:25.880  
Review carriers to include residents and.

590 "Jason Nemes" (1270223872)  
01:17:25.880 --> 01:17:32.349  
Other appropriate stakeholder input as cases are reviewed. Is that right?

591 "Harward, Sonya" (2751791104)  
01:17:32.349 --> 01:17:37.790  
And your language at the end in making local planning decisions.

592 "Harward, Sonya" (2751791104)  
01:17:37.790 --> 01:17:44.270  
If I'm meeting with Jeremy, I, I would like to take note that.

593 "Harward, Sonya" (2751791104)  
01:17:44.270 --> 01:17:48.350  
I get a lot of feedback from different places in the community.

594 "Harward, Sonya" (2751791104)  
01:17:48.350 --> 01:17:52.220  
Affected residents by this.

595 "Harward, Sonya" (2751791104)  
01:17:52.220 --> 01:17:55.820  
Role development a posture, which is.

596 "Harward, Sonya" (2751791104)  
01:17:55.820 --> 01:18:00.050  
1, that's taking place across the country and notwithstanding that.

597 "Harward, Sonya" (2751791104)  
01:18:00.050 --> 01:18:03.890  
If you find that a lot of a living spaces.

598 "Harward, Sonya" (2751791104)  
01:18:03.890 --> 01:18:07.370  
Of, um, sanctuary.

599 "Harward, Sonya" (2751791104)  
01:18:07.370 --> 01:18:11.930  
From decision making by planning the zoning people and then this.

600 "Harward, Sonya" (2751791104)  
01:18:11.930 --> 01:18:17.750  
Folk when they go and try to speak before a planning.

601 "Harward, Sonya" (2751791104)  
01:18:17.750 --> 01:18:21.770  
I mean, it's it's kind of a foregone conclusion that they are.

602 "Harward, Sonya" (2751791104)  
01:18:21.770 --> 01:18:25.010  
Um, actually not.

603 "Harward, Sonya" (2751791104)  
01:18:25.010 --> 01:18:31.489  
Too well, and not given, uh, the respect that we would hope would happen when.

604 "Harward, Sonya" (2751791104)  
01:18:31.489 --> 01:18:34.519  
The big guys who.

605 "Harward, Sonya" (2751791104)  
01:18:34.519 --> 01:18:37.939  
Do this Pro growth and planning.

606 "Harward, Sonya" (2751791104)  
01:18:37.939 --> 01:18:42.139  
Come into the scene, and the problem is, is that you got to have growth.

607 "Harward, Sonya" (2751791104)  
01:18:42.139 --> 01:18:45.769  
You've got to have, you know, if you don't do that, what are you doing?

608 "Harward, Sonya" (2751791104)  
01:18:45.769 --> 01:18:50.569  
In the community got to grow otherwise you regress. But the problem is.

609 "Harward, Sonya" (2751791104)  
01:18:50.569 --> 01:18:54.079  
How do you balance that and get sufficient?

610 "Harward, Sonya" (2751791104)  
01:18:54.079 --> 01:18:57.169  
But recognized by planning and zoning.

611 "Harward, Sonya" (2751791104)  
01:18:57.169 --> 01:19:02.839

Because when it gets down into a local, a highly local.  
612 "Harward, Sonya" (2751791104)  
01:19:02.839 --> 01:19:09.319  
Situation it may not be the proper place or that development.  
613 "Harward, Sonya" (2751791104)  
01:19:09.319 --> 01:19:13.009  
So, now you have an attitude of pro growth.  
614 "Harward, Sonya" (2751791104)  
01:19:13.009 --> 01:19:16.219  
Seems to me, you got to give some leverage to the residents.  
615 "Harward, Sonya" (2751791104)  
01:19:16.219 --> 01:19:19.759  
In that situation, because you go into the door with a pro growth.  
616 "Harward, Sonya" (2751791104)  
01:19:19.759 --> 01:19:23.809  
Uh, initiative, I'm trying to get some balance in.  
617 "Harward, Sonya" (2751791104)  
01:19:23.809 --> 01:19:29.179  
This is where I'm coming from. Maybe I'm just putting that on the record.  
I know we can't resolve that here.  
618 "Harward, Sonya" (2751791104)  
01:19:29.179 --> 01:19:34.009  
Perhaps, but I think it's something we should be mindful about.  
619 "Harward, Sonya" (2751791104)  
01:19:34.009 --> 01:19:42.619  
I guess we'd hope that by, by specifically mentioning residents, that  
that would be the.  
620 "Harward, Sonya" (2751791104)  
01:19:42.619 --> 01:19:47.869  
Try to balance it. Well, that helps, but when you get into that.  
621 "Harward, Sonya" (2751791104)  
01:19:47.869 --> 01:19:51.469  
The mechanism of this is, it's pretty much.  
622 "Harward, Sonya" (2751791104)  
01:19:51.469 --> 01:19:56.269  
Foregone conclusion that you swimming upstream so I've witnessed this.  
623 "Harward, Sonya" (2751791104)  
01:19:56.269 --> 01:20:02.989  
Have advised on this at times and it's pretty.  
624 "Harward, Sonya" (2751791104)  
01:20:02.989 --> 01:20:06.079  
Obvious that, uh, residents.  
625 "Harward, Sonya" (2751791104)  
01:20:06.079 --> 01:20:09.919  
Have very little leverage when they get into this.  
626 "Harward, Sonya" (2751791104)  
01:20:09.919 --> 01:20:15.409  
Process and I can when we were out there and listening to people across  
the spectrum.  
627 "Harward, Sonya" (2751791104)  
01:20:15.409 --> 01:20:19.549  
You found that in the Southwest you found that in the East.  
628 "Harward, Sonya" (2751791104)  
01:20:19.549 --> 01:20:23.239

And you found that in the West, everyone was saying.  
629 "Harward, Sonya" (2751791104)  
01:20:23.239 --> 01:20:26.779  
But I don't see anything reflected here.  
630 "Harward, Sonya" (2751791104)  
01:20:26.779 --> 01:20:29.989  
Um, that deals with that, and I'm not sure we can.  
631 "Harward, Sonya" (2751791104)  
01:20:29.989 --> 01:20:37.459  
But I'm thinking that we should put that on the record. At least I plan  
to put it on the record.  
632 "Harward, Sonya" (2751791104)  
01:20:37.459 --> 01:20:42.349  
I think it's something we should consider when we start talking about pro  
growth, we moved into other people's space.  
633 "Harward, Sonya" (2751791104)  
01:20:42.349 --> 01:20:47.239  
When we're making these determinations and there, sometimes there's when.  
634 "Harward, Sonya" (2751791104)  
01:20:47.239 --> 01:20:50.239  
And losers in that environment, I understand that.  
635 "Harward, Sonya" (2751791104)  
01:20:50.239 --> 01:20:56.689  
But there should be, we should, you know, the space of the human.  
636 "Harward, Sonya" (2751791104)  
01:20:56.689 --> 01:21:03.049  
Lives in is very, very important thing. In fact, that's all you really  
have is that space.  
637 "Harward, Sonya" (2751791104)  
01:21:03.049 --> 01:21:09.709  
We should give leverage to that. That's all I'm saying. Well, taken.  
638 "Jason Nemes" (1270223872)  
01:21:15.658 --> 01:21:22.018  
We're going to make those changes the 28 that we've identified the next  
1. we need to go to.  
639 "Marianne" (3324136448)  
01:21:22.018 --> 01:21:25.639  
Before we go to that 1, can we go back to number? Um.  
640 "Marianne" (3324136448)  
01:21:25.639 --> 01:21:28.819  
1131.  
641 "Marianne" (3324136448)  
01:21:28.819 --> 01:21:32.299  
Dr, uh, kim's just sent me.  
642 "Marianne" (3324136448)  
01:21:32.299 --> 01:21:37.339  
Some information and 1 thing we need to.  
643 "Marianne" (3324136448)  
01:21:37.339 --> 01:21:41.209  
Note is I'm not sure that the.  
644 "Marianne" (3324136448)  
01:21:41.209 --> 01:21:44.869  
The numbers are correct in here because.  
645 "Marianne" (3324136448)

01:21:44.869 --> 01:21:49.729  
Got money for Kobe, uh, during the year.  
646 "Marianne" (3324136448)  
01:21:49.729 --> 01:21:53.269  
It looks like maybe 1,516,000.  
647 "Marianne" (3324136448)  
01:21:53.269 --> 01:21:57.289  
16Million, so if we're going to.  
648 "Marianne" (3324136448)  
01:21:57.289 --> 01:22:01.909  
Compare this to true actual ridership, et cetera.  
649 "Marianne" (3324136448)  
01:22:01.909 --> 01:22:06.169  
I think we need to look at the numbers before they got this.  
650 "Marianne" (3324136448)  
01:22:06.169 --> 01:22:12.769  
Influx of money, because that money's going away so that.  
651 "Jason Nemes" (1270223872)  
01:22:12.769 --> 01:22:18.104  
Those numbers came from our tax committee. Is there a way to.  
652 "Marianne" (3324136448)  
01:22:18.104 --> 01:22:23.059  
Thank you, I think you just need to circle back with Dr Koons because he  
even talks.  
653 "Marianne" (3324136448)  
01:22:23.059 --> 01:22:30.369  
About the code at 19 injections have elapsed they're not going to be  
getting that money anymore. Yeah.  
654 "Jason Nemes" (1270223872)  
01:22:30.369 --> 01:22:35.209  
I want to make sure that any changes that early to make are okay with the  
commission.  
655 "Jason Nemes" (1270223872)  
01:22:35.209 --> 01:22:40.867  
And today's the day, we need to make them. So I want the teams is on it.  
Maybe he can.  
656 "Marianne" (3324136448)  
01:22:40.867 --> 01:22:44.089  
Ask him to elaborate about it a little more. I just want to make sure.  
657 "Marianne" (3324136448)  
01:22:44.089 --> 01:22:47.434  
But the numbers we have in here are reflective because if it's.  
658 "Jason Nemes" (1270223872)  
01:22:47.434 --> 01:22:50.246  
Played it by 16Million that's a problem.  
659 "Marianne" (3324136448)  
01:22:50.246 --> 01:22:51.327  
Yeah.  
660 "Jason Nemes" (1270223872)  
01:22:51.327 --> 01:22:56.802  
Becomes do you have the, the request in front of you the recommendation  
in front of you you're muted.  
661 "Marianne" (3324136448)  
01:22:56.802 --> 01:23:00.669

Yeah.

662 "Paul" (2511343872)

01:23:00.669 --> 01:23:05.299

Yes, sir. Okay. Thanks. Yeah, I just sent Marianne.

663 "Paul" (2511343872)

01:23:05.299 --> 01:23:08.749

Email to clarify that, because the statement has written.

664 "Paul" (2511343872)

01:23:08.749 --> 01:23:12.979

In that point, uh, is not correct. Um.

665 "Paul" (2511343872)

01:23:12.979 --> 01:23:16.009

I never considered any federal money when I analyze.

666 "Paul" (2511343872)

01:23:16.009 --> 01:23:21.829

The growth in local tax revenue, going to dark, uh, simply looking at.

667 "Paul" (2511343872)

01:23:21.829 --> 01:23:27.259

The growth in the occupational taxes and the net profits taxes that is all.

668 "Paul" (2511343872)

01:23:27.259 --> 01:23:31.099

You know, comes from the revenue Commission, so it's local tax.

669 "Paul" (2511343872)

01:23:31.099 --> 01:23:35.179

Or has gone up dramatically since merger while live.

670 "Paul" (2511343872)

01:23:35.179 --> 01:23:43.689

Gone down, I never looked at any federal influx and how that affected their budget. So.

671 "Jason Nemes" (1270223872)

01:23:43.689 --> 01:23:51.649

Doctor comes, this information was from the Ken Fleming and his destination, or get committee and D. can you can wait.

672 "Jason Nemes" (1270223872)

01:23:51.649 --> 01:23:55.039

And if you want to as well, but is that statement that's in there you have it.

673 "Jason Nemes" (1270223872)

01:23:55.039 --> 01:23:58.410

In front of you call yeah.

674 "Paul" (2511343872)

01:23:58.410 --> 01:24:02.726

It's the 1 in the 1st column, right? It's a 2nd.

675 "Jason Nemes" (1270223872)

01:24:02.726 --> 01:24:07.162

It's the 2nd, I'll, I'll read it just to make sure we're talking about the exact same thing.

676 "Paul" (2511343872)

01:24:07.162 --> 01:24:08.664

Numbers.

677 "Jason Nemes" (1270223872)

01:24:08.664 --> 01:24:13.759

Number 11, if you have the most recent recommendations.

678 "Jason Nemes" (1270223872)  
01:24:13.759 --> 01:24:18.169  
And so, um, let me read it just to make sure everybody's on the exact same page that we're not.

679 "Jason Nemes" (1270223872)  
01:24:18.169 --> 01:24:22.279  
I'm going from the top, the commission notes that discussions have been on.

680 "Jason Nemes" (1270223872)  
01:24:22.279 --> 01:24:27.409  
Going concerning torque. The commission recognizes the tax income to the agency has risen.

681 "Jason Nemes" (1270223872)  
01:24:27.409 --> 01:24:30.979  
And inflation adjusted 32Million or 38%.

682 "Jason Nemes" (1270223872)  
01:24:30.979 --> 01:24:34.999  
All ridership has decreased by 65 with buses in circulation.

683 "Jason Nemes" (1270223872)  
01:24:34.999 --> 01:24:38.389  
Decreasing by 23% the commission further.

684 "Jason Nemes" (1270223872)  
01:24:38.389 --> 01:24:41.959  
And then back on text, which I don't think Marianne is questioning.

685 "Jason Nemes" (1270223872)  
01:24:41.959 --> 01:24:47.263  
So, what I've read, what needs to change to make that an accurate statement.

686 "Paul" (2511343872)  
01:24:47.263 --> 01:24:55.459  
Those statements are accurate and I came from me based upon metro government data. What I was.

687 "Paul" (2511343872)  
01:24:55.459 --> 01:25:00.259  
Clark was the 1 below that that only made it.

688 "Marianne" (3324136448)  
01:25:08.601 --> 01:25:12.649  
We incorporated that with 11.

689 "Marianne" (3324136448)  
01:25:12.649 --> 01:25:16.814  
So that's not that didn't go any further. Okay.

690 "Paul" (2511343872)  
01:25:16.814 --> 01:25:22.081  
11 is fine. Okay. You.

691 "Jason Nemes" (1270223872)  
01:25:22.081 --> 01:25:24.645  
Maryanne.

692 "Marianne" (3324136448)  
01:25:24.645 --> 01:25:25.563  
To move on. Okay.

693 "Kaplan, David" (902884608)  
01:25:25.563 --> 01:25:27.261  
I think we're moving on now to phase 20.

694 "Jason Nemes" (1270223872)

01:25:27.261 --> 01:25:34.835  
Number 32, Bonnie, I think you were the ones that had a comment.  
695 "Kaplan, David" (902884608)  
01:25:34.835 --> 01:25:39.122  
You from Austin? Yes, sir. I, I, I.  
696 "Harward, Sonya" (2751791104)  
01:25:39.122 --> 01:25:43.369  
Just noticed that there were a whole lot of other language that they  
only.  
697 "Harward, Sonya" (2751791104)  
01:25:43.369 --> 01:25:48.349  
Recommendation was just evaluating.  
698 "Harward, Sonya" (2751791104)  
01:25:51.799 --> 01:26:00.820  
I maybe I think it's kind of necessary to add all that language in there  
and, like, I'm confusing everybody. I think it should be.  
699 "Harward, Sonya" (2751791104)  
01:26:00.820 --> 01:26:05.719  
Explain because folks need to know the disproportionate amount.  
700 "Harward, Sonya" (2751791104)  
01:26:05.719 --> 01:26:10.369  
Of where officers are, and it's they need to be where they.  
701 "Harward, Sonya" (2751791104)  
01:26:10.369 --> 01:26:13.369  
Need to be, but at the same time, I think it needs to be laid out.  
702 "Harward, Sonya" (2751791104)  
01:26:13.369 --> 01:26:18.559  
Exactly numbers that are correct. So I'd like to put that back in other  
than.  
703 "Harward, Sonya" (2751791104)  
01:26:18.559 --> 01:26:23.422  
Just a short comment there, so.  
704 "Jason Nemes" (1270223872)  
01:26:23.422 --> 01:26:26.740  
I think what we agree. Go ahead. If someone was speaking. Yeah.  
705 "Harward, Sonya" (2751791104)  
01:26:26.740 --> 01:26:31.039  
Earlier, I'm a little confused. What is the recommendation? What is the  
change that.  
706 "Harward, Sonya" (2751791104)  
01:26:31.039 --> 01:26:34.195  
Being sought.  
707 "Jason Nemes" (1270223872)  
01:26:34.195 --> 01:26:39.709  
The change is being sought is accurately reflected in that sentence on  
the right on the 2nd column.  
708 "Jason Nemes" (1270223872)  
01:26:39.709 --> 01:26:42.769  
But the context is important for the reader.  
709 "Jason Nemes" (1270223872)  
01:26:42.769 --> 01:26:46.279  
In Frankfurt to see, why are we doing.  
710 "Jason Nemes" (1270223872)  
01:26:46.279 --> 01:26:49.459

If you look at just the just a sentence standing alone.  
711 "Jason Nemes" (1270223872)  
01:26:49.459 --> 01:26:55.459  
It indicates that as long as and the suburban police departments are covering the situation.  
712 "Jason Nemes" (1270223872)  
01:26:55.459 --> 01:26:59.449  
Then that's all we want. That's not what we want when we voted on this.  
713 "Jason Nemes" (1270223872)  
01:26:59.449 --> 01:27:05.209  
Everything was was left alone, except for the last sentence in the, in the 1st call.  
714 "Jason Nemes" (1270223872)  
01:27:05.209 --> 01:27:09.499  
And then the last sentence in the 1st column was replaced with it with the only sentence and.  
715 "Jason Nemes" (1270223872)  
01:27:09.499 --> 01:27:14.809  
2nd column so I think with Bonnie saying, I agree with her. Everything should be left.  
716 "Jason Nemes" (1270223872)  
01:27:14.809 --> 01:27:22.132  
In there on the 1st column, except the last sentence, which is to be replaced with the sentence in the 2nd call.  
717 "Arthur, Jecorey" (1427041536)  
01:27:22.132 --> 01:27:28.399  
I'm happy to add that context if we give additional context.  
718 "Arthur, Jecorey" (1427041536)  
01:27:28.399 --> 01:27:32.119  
To the prime rates, because just to put the context around.  
719 "Arthur, Jecorey" (1427041536)  
01:27:32.119 --> 01:27:36.439  
The population versus policing that excludes the crimes that are.  
720 "Arthur, Jecorey" (1427041536)  
01:27:36.439 --> 01:27:41.667  
Happening it's not the full picture.  
721 "Jason Nemes" (1270223872)  
01:27:41.667 --> 01:27:48.079  
I think we're trying to again, we had that discussion and that didn't come up, but we tried to incorporate that Cory by saying.  
722 "Jason Nemes" (1270223872)  
01:27:48.079 --> 01:27:51.979  
Um, it must be.  
723 "Jason Nemes" (1270223872)  
01:27:51.979 --> 01:27:55.039  
Where is it while the conditioner.  
724 "Jason Nemes" (1270223872)  
01:27:55.039 --> 01:28:01.039  
The policing decisions are difficult and complex so, I don't know. Do you have the numbers that you want to add in there?  
725 "Jason Nemes" (1270223872)  
01:28:01.039 --> 01:28:05.365  
Handy.  
726 "Arthur, Jecorey" (1427041536)

01:28:05.365 --> 01:28:10.219  
There's a crime Matt, and I can export that data and send it over to you  
or combs or whoever.  
727 "Arthur, Jecorey" (1427041536)  
01:28:10.219 --> 01:28:17.587  
If we want to include the, the ratio with population, I just think it's  
important to get full context for lending of context and.  
728 "Jason Nemes" (1270223872)  
01:28:17.587 --> 01:28:21.109  
Obviously, I have no problem with that at all. My, my fear is that.  
729 "Jason Nemes" (1270223872)  
01:28:21.109 --> 01:28:24.739  
If we leave this that license, which is not what we agreed on by the way  
we vote.  
730 "Jason Nemes" (1270223872)  
01:28:24.739 --> 01:28:27.739  
But if if we, if we leave just that last sentence.  
731 "Jason Nemes" (1270223872)  
01:28:27.739 --> 01:28:31.249  
Then the reader can think that as long as.  
732 "Jason Nemes" (1270223872)  
01:28:31.249 --> 01:28:36.289  
Police is covering and we're all good and that's the opposite. The exact  
opposite.  
733 "Jason Nemes" (1270223872)  
01:28:36.289 --> 01:28:40.819  
Of what we're trying to trying to say the context of.  
734 "Jason Nemes" (1270223872)  
01:28:40.819 --> 01:28:44.779  
Police, not being in out in the suburban areas is the 1.  
735 "Harward, Sonya" (2751791104)  
01:28:50.766 --> 01:28:54.259  
What is what is the solution to that? I mean.  
736 "Harward, Sonya" (2751791104)  
01:28:54.259 --> 01:28:58.129  
Is that suggest then that that somehow.  
737 "Harward, Sonya" (2751791104)  
01:28:58.129 --> 01:29:02.266  
The please should displace the suburban place. Of course.  
738 "Jason Nemes" (1270223872)  
01:29:02.266 --> 01:29:05.249  
No, no, not at all. Okay. I agree.  
739 "Harward, Sonya" (2751791104)  
01:29:05.249 --> 01:29:08.689  
But I assume that the point here then was to say.  
740 "Harward, Sonya" (2751791104)  
01:29:08.689 --> 01:29:11.749  
That they need to work together to figure out.  
741 "Harward, Sonya" (2751791104)  
01:29:11.749 --> 01:29:16.339  
What is the inappropriate Manning process or.  
742 "Harward, Sonya" (2751791104)  
01:29:16.339 --> 01:29:21.259  
Yeah, many process to trump to, to assure that people in the.

743 "Harward, Sonya" (2751791104)  
01:29:21.259 --> 01:29:24.859  
Outer areas are getting.

744 "Harward, Sonya" (2751791104)  
01:29:24.859 --> 01:29:31.186  
The additional protection that is maybe not being provided by the suburban police.

745 "Jason Nemes" (1270223872)  
01:29:31.186 --> 01:29:36.199  
That's part of it. That's not that's not the point of this. The point of this is people who are paying taxes.

746 "Jason Nemes" (1270223872)  
01:29:36.199 --> 01:29:40.819  
For aren't getting the appropriate services and then they got to pay a 2nd tax.

747 "Jason Nemes" (1270223872)  
01:29:40.819 --> 01:29:47.869  
For their own police department, and what we're saying is should and we understand the very complex, which is why we're not pushing enforcing.

748 "Jason Nemes" (1270223872)  
01:29:47.869 --> 01:29:51.409  
What we're saying, and I think that our new police chief has already said she wants to do this.

749 "Jason Nemes" (1270223872)  
01:29:51.409 --> 01:29:55.189  
But we're saying that needs to add.

750 "Jason Nemes" (1270223872)  
01:29:55.189 --> 01:29:58.549  
Adequately police the entire community and they need a.

751 "Jason Nemes" (1270223872)  
01:29:58.549 --> 01:30:03.649  
Evaluate what they're doing to see if they can do better with it and have them work with suburban police departments.

752 "Jason Nemes" (1270223872)  
01:30:03.649 --> 01:30:08.659  
But not the suburban police departments shouldn't the plant.

753 "Jason Nemes" (1270223872)  
01:30:08.659 --> 01:30:12.409  
Meeting so we don't want to to say, well, we don't have to go to.

754 "Jason Nemes" (1270223872)  
01:30:12.409 --> 01:30:15.769  
Lyndon, because London is policed already by their own by themselves.

755 "Jason Nemes" (1270223872)  
01:30:15.769 --> 01:30:19.999  
When the people of London are also paying, like, everybody is are also paying the.

756 "Jason Nemes" (1270223872)  
01:30:19.999 --> 01:30:25.422  
For MPD are entitled to services that's the point.

757 "Harward, Sonya" (2751791104)  
01:30:25.422 --> 01:30:31.669  
This this highlighted wording, I think it really is quite a.

758 "Harward, Sonya" (2751791104)  
01:30:31.669 --> 01:30:35.569

Adequate in fact, when we look at this other.  
759 "Harward, Sonya" (2751791104)  
01:30:35.569 --> 01:30:40.639  
Information as an example, I think is actually misleading, because I think it's a lot more complex.  
760 "Harward, Sonya" (2751791104)  
01:30:40.639 --> 01:30:46.189  
And I assume that's what metro counseling.  
761 "Harward, Sonya" (2751791104)  
01:30:46.189 --> 01:30:50.869  
Is referring to a lease in part he can speak for himself, but I think when you.  
762 "Harward, Sonya" (2751791104)  
01:30:50.869 --> 01:30:55.849  
Something out there, 12 or 3 in terms of an element into a very complex situation.  
763 "Harward, Sonya" (2751791104)  
01:30:55.849 --> 01:30:59.149  
Actually, get a skewed perspective.  
764 "Harward, Sonya" (2751791104)  
01:30:59.149 --> 01:31:08.659  
Subject matter are you dealing with but if you look at the language here, it says the commission calls on Metro government working together with suburban police.  
765 "Harward, Sonya" (2751791104)  
01:31:08.659 --> 01:31:13.219  
These are the people who know how it works across the multiple district.  
766 "Harward, Sonya" (2751791104)  
01:31:13.219 --> 01:31:17.209  
To evaluate so that's where you want to.  
767 "Harward, Sonya" (2751791104)  
01:31:17.209 --> 01:31:23.179  
We go you want them to go and let's take a good hard look at this and then give us a recommendation.  
768 "Harward, Sonya" (2751791104)  
01:31:23.179 --> 01:31:29.960  
Oh, how this can be addressed. I don't know how you can say that any clear. I think this is.  
769 "Jason Nemes" (1270223872)  
01:31:29.960 --> 01:31:37.489  
Excellent, the recommendation that is here is not what we voted on the rest of the stuff was supposed to be carried over. That's what we voted on.  
770 "Jason Nemes" (1270223872)  
01:31:37.489 --> 01:31:40.669  
And the recommendation here indicates if I were to read it out.  
771 "Jason Nemes" (1270223872)  
01:31:40.669 --> 01:31:44.809  
The blue and didn't have the discussion. It indicates that as long as.  
772 "Jason Nemes" (1270223872)  
01:31:44.809 --> 01:31:49.789  
Urban police are covering the area, then that area is adequately police. That is the opposite of.  
773 "Harward, Sonya" (2751791104)

01:31:53.934 --> 01:31:59.689  
Don't read it that way at all. Look, here's the, here's the problem here.  
774 "Harward, Sonya" (2751791104)  
01:31:59.689 --> 01:32:05.149  
We had testimony that the metro police department was short.  
775 "Harward, Sonya" (2751791104)  
01:32:05.149 --> 01:32:10.309  
300 something officers, so, I mean, I guess I'm trying to.  
776 "Harward, Sonya" (2751791104)  
01:32:10.309 --> 01:32:16.159  
What what it is, you've made the point that Metro police are not.  
777 "Harward, Sonya" (2751791104)  
01:32:16.159 --> 01:32:19.669  
I guess adequately, I'm not sure what the, how to.  
778 "Harward, Sonya" (2751791104)  
01:32:19.669 --> 01:32:23.659  
What the adjectives should be, or the adverb should be adequately.  
779 "Harward, Sonya" (2751791104)  
01:32:23.659 --> 01:32:26.659  
We can't say what, what's what's in the middle.  
780 "Harward, Sonya" (2751791104)  
01:32:26.659 --> 01:32:30.649  
Column is the is the false the false assumption.  
781 "Harward, Sonya" (2751791104)  
01:32:30.649 --> 01:32:34.249  
Or the false predicate that that police should be.  
782 "Harward, Sonya" (2751791104)  
01:32:34.249 --> 01:32:40.712  
1st, throughout the county, based on installation, and that's clearly  
nobody would support that. No.  
783 "Jason Nemes" (1270223872)  
01:32:40.712 --> 01:32:43.273  
I understand let me finish though.  
784 "Harward, Sonya" (2751791104)  
01:32:43.273 --> 01:32:46.939  
So, if indeed we're going to say that the.  
785 "Harward, Sonya" (2751791104)  
01:32:46.939 --> 01:32:51.769  
Fuller picture is to be is to be shown by talking about the extent to.  
786 "Harward, Sonya" (2751791104)  
01:32:51.769 --> 01:32:55.339  
There's under policing in the suburban area.  
787 "Harward, Sonya" (2751791104)  
01:32:55.339 --> 01:32:58.489  
Is, and that is, let's assume that's a fair point.  
788 "Harward, Sonya" (2751791104)  
01:32:58.489 --> 01:33:04.669  
It needs to be fully balanced by the fact that why is that the case?  
Because the assumption behind.  
789 "Harward, Sonya" (2751791104)  
01:33:04.669 --> 01:33:08.269  
Find the, the statement in the middle.  
790 "Harward, Sonya" (2751791104)  
01:33:08.269 --> 01:33:13.309

Column is that it's done either through malice in competence.  
791 "Harward, Sonya" (2751791104)  
01:33:13.309 --> 01:33:18.709  
Neglect or who the hell knows what the.  
792 "Harward, Sonya" (2751791104)  
01:33:18.709 --> 01:33:22.609  
The data that counsel.  
793 "Harward, Sonya" (2751791104)  
01:33:22.609 --> 01:33:28.519  
Um, Arthur is suggesting we put in here is critical to balance why things  
are as they are.  
794 "Harward, Sonya" (2751791104)  
01:33:28.519 --> 01:33:31.909  
And therefore why the 2 of the.  
795 "Harward, Sonya" (2751791104)  
01:33:31.909 --> 01:33:39.499  
Is to work together to evaluate and decide where we go from here to make  
this better. I agree completely. So, it's got to be it's got it's.  
796 "Harward, Sonya" (2751791104)  
01:33:39.499 --> 01:33:43.429  
Either we like to focus on moving forward with the solution.  
797 "Harward, Sonya" (2751791104)  
01:33:43.429 --> 01:33:46.699  
And if we want to say the basis for the need to do, so.  
798 "Harward, Sonya" (2751791104)  
01:33:46.699 --> 01:33:52.927  
Is the current situation, then the character situation needs to be more  
completely described.  
799 "Jason Nemes" (1270223872)  
01:33:52.927 --> 01:33:59.429  
I agree with I don't have a problem with that in that information. We've  
had this debate. This was the language we voted on. No.  
800 "Harward, Sonya" (2751791104)  
01:33:59.429 --> 01:34:08.713  
I know Jason, we voted on this. Everything we voted on was conceptual. It  
was not final language.  
801 "Jason Nemes" (1270223872)  
01:34:08.713 --> 01:34:11.839  
The only language that we changed was to the last sentence.  
802 "Jason Nemes" (1270223872)  
01:34:11.839 --> 01:34:15.559  
The 1st, 3 or 4 sentences were supposed to come over.  
803 "Jason Nemes" (1270223872)  
01:34:15.559 --> 01:34:19.849  
There were no changes to those. If we needed to add it if we needed to  
add.  
804 "Jason Nemes" (1270223872)  
01:34:19.849 --> 01:34:23.749  
Crime numbers to grab context. That's fine. And that's why we sit in  
here.  
805 "Jason Nemes" (1270223872)  
01:34:23.749 --> 01:34:27.049  
That the police, the decisions are difficult and complex.  
806 "Jason Nemes" (1270223872)

01:34:27.049 --> 01:34:32.869  
If there is no malice, we set that up. Let me let me finish. Let me finish Mike. We said that a number of.

807 "Jason Nemes" (1270223872)  
01:34:32.869 --> 01:34:36.559  
When we discussed this matter, there's no malice and that and we're not trying to.

808 "Jason Nemes" (1270223872)  
01:34:36.559 --> 01:34:42.409  
Of course anything, but this does not reflect what we voted on. It doesn't. And I think it's.

809 "Jason Nemes" (1270223872)  
01:34:42.409 --> 01:34:47.233  
Suggests the opposite I'm confused.

810 "Harward, Sonya" (2751791104)  
01:34:47.233 --> 01:34:51.289  
We several days we said we were going.

811 "Harward, Sonya" (2751791104)  
01:34:51.289 --> 01:34:57.529  
To deal with these items conceptual. So apparently there's a difference of opinion what conceptual means and.

812 "Harward, Sonya" (2751791104)  
01:34:57.529 --> 01:35:04.339  
Process if we employed here, so that means that whatever we.

813 "Harward, Sonya" (2751791104)  
01:35:04.339 --> 01:35:11.569  
Conceptually, agreed to, which suggests to me that there are still some wording issues, and that those adjustments.

814 "Harward, Sonya" (2751791104)  
01:35:11.569 --> 01:35:17.329  
Are still open.

815 "Harward, Sonya" (2751791104)  
01:35:17.329 --> 01:35:20.509  
What, if I may Yep, because we did it.

816 "Harward, Sonya" (2751791104)  
01:35:20.509 --> 01:35:26.269  
Conceptually, and when you do it conceptually, that doesn't say.

817 "Harward, Sonya" (2751791104)  
01:35:26.269 --> 01:35:29.629  
That each word, uh, is necessarily written.

818 "Harward, Sonya" (2751791104)  
01:35:29.629 --> 01:35:33.589  
In stone, as long as it reflects, conceptually.

819 "Harward, Sonya" (2751791104)  
01:35:33.589 --> 01:35:38.899  
So, I, I hear it may have been what you meant in your mind and somebody else.

820 "Harward, Sonya" (2751791104)  
01:35:38.899 --> 01:35:47.479  
But that wasn't what I left here with what I just heard is the way I understood we were undertaking our business here and let me just say last.

821 "Harward, Sonya" (2751791104)  
01:35:47.479 --> 01:35:52.699

That's the point I was making, if you put this kind of information in here.

822 "Harward, Sonya" (2751791104)

01:35:52.699 --> 01:35:56.749

The way this is, is it doesn't get into the complexities of it.

823 "Harward, Sonya" (2751791104)

01:35:56.749 --> 01:36:00.109

It doesn't get into what the real issue.

824 "Harward, Sonya" (2751791104)

01:36:00.109 --> 01:36:05.749

That's why these words working together with suburban police departments to evaluate.

825 "Harward, Sonya" (2751791104)

01:36:05.749 --> 01:36:09.979

And recommend crime prevention services, provide adequate police across.

826 "Harward, Sonya" (2751791104)

01:36:09.979 --> 01:36:16.182

The entire county very important, and I think is conceptually consistent and.

827 "Jason Nemes" (1270223872)

01:36:16.182 --> 01:36:22.369

I agree with that language I want it to be added on to the rest and not completely supplant it. So, here's my suggestion. If we're only going to use.

828 "Jason Nemes" (1270223872)

01:36:22.369 --> 01:36:27.829

That sentence, I want to delete it all together and not make the recommendations and we can handle it later on. I do not want that.

829 "Jason Nemes" (1270223872)

01:36:27.829 --> 01:36:33.229

Sentence to be a standalone. It does the opposite of what I intended to do. So if we're not going to add.

830 "Jason Nemes" (1270223872)

01:36:33.229 --> 01:36:38.089

The rest, which I understand that we were going to do, and I know that, but if.

831 "Harward, Sonya" (2751791104)

01:36:41.827 --> 01:36:45.109

Instead of dropping it, we could vote on which way we want to go.

832 "Harward, Sonya" (2751791104)

01:36:45.109 --> 01:36:48.199

I think the whole matter what we want to address is.

833 "Harward, Sonya" (2751791104)

01:36:48.199 --> 01:36:51.919

We want to say should show how they're.

834 "Harward, Sonya" (2751791104)

01:36:51.919 --> 01:36:58.489

Going to police the whole county as they are paid to do if a community wants to.

835 "Harward, Sonya" (2751791104)

01:36:58.489 --> 01:37:03.109

And on and pay for their own police force that they can't do that. And then.

836 "Harward, Sonya" (2751791104)

01:37:03.109 --> 01:37:07.429  
Since they have extra protection that they paid for, then the.  
837 "Harward, Sonya" (2751791104)  
01:37:07.429 --> 01:37:13.399  
And the suburban police department should get together on how properly  
police the whole county.  
838 "Harward, Sonya" (2751791104)  
01:37:13.399 --> 01:37:20.419  
Considering that, but to pull them out of the areas that are being policed  
is the major issue here.  
839 "Harward, Sonya" (2751791104)  
01:37:24.079 --> 01:37:28.069  
We have what I would call anecdotal.  
840 "Harward, Sonya" (2751791104)  
01:37:28.069 --> 01:37:34.399  
Up to the fact that the police are quote, not leasing them out. In fact,  
we, they are.  
841 "Harward, Sonya" (2751791104)  
01:37:34.399 --> 01:37:38.779  
The issue here is not whether they are, it's the adequacy of their.  
842 "Harward, Sonya" (2751791104)  
01:37:38.779 --> 01:37:43.579  
Policing and the base, and the reason why it is deemed inadequate.  
843 "Harward, Sonya" (2751791104)  
01:37:43.579 --> 01:37:49.879  
Is because there is sufficient, Manny and because, you know, you don't,  
you don't go to to.  
844 "Harward, Sonya" (2751791104)  
01:37:49.879 --> 01:37:53.389  
To to shoot a dog bite when somebody's been.  
845 "Harward, Sonya" (2751791104)  
01:37:53.389 --> 01:37:56.809  
And has an ambulance crash, or when somebody has been shot.  
846 "Harward, Sonya" (2751791104)  
01:37:56.809 --> 01:38:01.219  
And that is the critical issue here. I have no problem.  
847 "Harward, Sonya" (2751791104)  
01:38:01.219 --> 01:38:06.319  
Including the information in the middle column, but if we're going to do  
that, and if that's going to be the.  
848 "Harward, Sonya" (2751791104)  
01:38:06.319 --> 01:38:10.339  
Basis of a recommendation then the recommendation.  
849 "Harward, Sonya" (2751791104)  
01:38:10.339 --> 01:38:14.719  
To be fully describing the, the condition, so.  
850 "Harward, Sonya" (2751791104)  
01:38:14.719 --> 01:38:18.109  
We have time if the date is available to add.  
851 "Harward, Sonya" (2751791104)  
01:38:18.109 --> 01:38:23.209  
The middle column as to what the crime rates are, they're occurring, we  
should do that.  
852 "Harward, Sonya" (2751791104)

01:38:23.209 --> 01:38:28.269  
There's no reason not to do that, unless somebody wants to cook these books.

853 "Jason Nemes" (1270223872)  
01:38:28.269 --> 01:38:30.892  
1st, we don't want to cook the books.

854 "Harward, Sonya" (2751791104)  
01:38:30.892 --> 01:38:33.710  
Move on and get the data, but we can get. Today. We've.

855 "Jason Nemes" (1270223872)  
01:38:33.710 --> 01:38:37.359  
Already voted. Okay. So I don't know why this is just coming up if we wanted to quickly voted on it.

856 "Harward, Sonya" (2751791104)  
01:38:37.359 --> 01:38:41.629  
Because it was again as they before, because nobody understood that that.

857 "Harward, Sonya" (2751791104)  
01:38:41.629 --> 01:38:45.559  
This was a critical element in in a go forward decision. I didn't.

858 "Harward, Sonya" (2751791104)  
01:38:45.559 --> 01:38:49.385  
Can I ask councilman Arthur and you want to include a map.

859 "Kaplan, David" (902884608)  
01:38:49.385 --> 01:38:56.686  
Is that what you ask? Well, we don't we don't have to include the map. I can just add the.

860 "Arthur, Jecorey" (1427041536)  
01:38:56.686 --> 01:39:00.769  
Context to some of the crime data, such as non fatal shootings.

861 "Arthur, Jecorey" (1427041536)  
01:39:00.769 --> 01:39:04.669  
73% of them in 2022 happen in to.

862 "Arthur, Jecorey" (1427041536)  
01:39:04.669 --> 01:39:10.286  
1, 4.

863 "Harward, Sonya" (2751791104)  
01:39:10.286 --> 01:39:17.239  
I think that's information that's vital as well. You know um, I'm seeing a.

864 "Harward, Sonya" (2751791104)  
01:39:17.239 --> 01:39:23.659  
Chicken crumbs that were happening in my areas. So I honestly believe that, you know, adding that.

865 "Harward, Sonya" (2751791104)  
01:39:23.659 --> 01:39:31.669  
Information to this, I don't see a problem with that. I think we're in agreement on and.

866 "Harward, Sonya" (2751791104)  
01:39:31.669 --> 01:39:34.759  
Uh, Arthur's a suggestion.

867 "Harward, Sonya" (2751791104)  
01:39:34.759 --> 01:39:39.379  
But we're not in agreement with is adding back the language that was there.

868 "Harward, Sonya" (2751791104)  
01:39:39.379 --> 01:39:45.109  
Also, we're, we're going to add all the language into the, into the right column. Okay. That's the point here.

869 "Harward, Sonya" (2751791104)  
01:39:45.109 --> 01:39:49.669  
If we, if we're going to, if we're going to put the correct context in this.

870 "Harward, Sonya" (2751791104)  
01:39:49.669 --> 01:39:56.927  
Recommendation will put the data from both both the where the crime is occurring as well as where the police are policing.

871 "Jason Nemes" (1270223872)  
01:39:56.927 --> 01:40:00.199  
And it's not just shootings. It's it's robbery.

872 "Jason Nemes" (1270223872)  
01:40:03.769 --> 01:40:07.699  
The people all over, the county are entitled to policing, even for their.

873 "Jason Nemes" (1270223872)  
01:40:07.699 --> 01:40:11.846  
For their burglaries, it's not just the outcome.

874 "Harward, Sonya" (2751791104)  
01:40:11.846 --> 01:40:18.619  
Exactly, and do we know do we know do we have any data which says what is the response rate inside the, the.

875 "Harward, Sonya" (2751791104)  
01:40:18.619 --> 01:40:22.429  
The USD or other areas of the police for burglaries.

876 "Harward, Sonya" (2751791104)  
01:40:22.429 --> 01:40:27.406  
I can tell you, it's not great.

877 "Jason Nemes" (1270223872)  
01:40:27.406 --> 01:40:29.605  
Okay, because.

878 "Harward, Sonya" (2751791104)  
01:40:29.605 --> 01:40:33.589  
That's not that's not where the action is.

879 "Harward, Sonya" (2751791104)  
01:40:33.589 --> 01:40:38.719  
It's not where the need is is critical. It comes later it's not immediate.

880 "Harward, Sonya" (2751791104)  
01:40:38.719 --> 01:40:46.983  
So, I mean, if we got the data, let's put the data in and we can move on.

881 "Jason Nemes" (1270223872)  
01:40:46.983 --> 01:40:50.185  
Want to be high level, but I guess we'll get it quickly. I just.

882 "Arthur, Jecorey" (1427041536)  
01:40:50.185 --> 01:40:54.169  
Wanted to highlight something culture Jones mentioned about the shortage.

883 "Arthur, Jecorey" (1427041536)  
01:40:54.169 --> 01:40:58.549  
Using that in context with what we just talked about about.

884 "Arthur, Jecorey" (1427041536)

01:40:58.549 --> 01:41:02.749  
The level of the seriousness of the crimes is important because of the shortage.

885 "Arthur, Jecorey" (1427041536)  
01:41:02.749 --> 01:41:07.249  
Then responding to burglaries and then responding to the traffic accidents is.

886 "Arthur, Jecorey" (1427041536)  
01:41:07.249 --> 01:41:10.789  
Not going to have the same level of response compared to the.

887 "Arthur, Jecorey" (1427041536)  
01:41:10.789 --> 01:41:16.730  
The shootings and that's why I mentioned the shootings.

888 "Harward, Sonya" (2751791104)  
01:41:16.730 --> 01:41:24.259  
Mr. chair if I could weigh in real quick 1st of all. I gotta be honest. I'm trying to figure out where to chime in here. I'm not sure.

889 "Harward, Sonya" (2751791104)  
01:41:24.259 --> 01:41:28.219  
Precisely, what we're disagreeing on yet. Uh.

890 "Harward, Sonya" (2751791104)  
01:41:28.219 --> 01:41:32.029  
I'm a little fuzzy right now. Um.

891 "Harward, Sonya" (2751791104)  
01:41:32.029 --> 01:41:35.599  
As far as just a round out, some of the debate on.

892 "Harward, Sonya" (2751791104)  
01:41:35.599 --> 01:41:39.349  
What councilman Arthur saying, and I know he looks at the.

893 "Harward, Sonya" (2751791104)  
01:41:39.349 --> 01:41:44.509  
Data, very, very closely. I'll give you a few examples and then, uh.

894 "Harward, Sonya" (2751791104)  
01:41:44.509 --> 01:41:49.039  
You know, if we were to get what a chairman Jones is.

895 "Harward, Sonya" (2751791104)  
01:41:49.039 --> 01:41:54.259  
Indicating Jody does have that emergency services does have and they categorize.

896 "Harward, Sonya" (2751791104)  
01:41:54.259 --> 01:41:58.369  
By they have certain levels of emergency shootings being a.

897 "Harward, Sonya" (2751791104)  
01:41:58.369 --> 01:42:03.079  
Priority 1, all the way down to extremely low priority. No property.

898 "Harward, Sonya" (2751791104)  
01:42:03.079 --> 01:42:07.669  
Which no personal damage type emergence or type calls right? So we have some of that.

899 "Harward, Sonya" (2751791104)  
01:42:07.669 --> 01:42:15.199  
Information, we will just need to pull that the data is probably going to be a little funky because.

900 "Harward, Sonya" (2751791104)

01:42:15.199 --> 01:42:18.889  
For example, during covid, uh, and when I say.  
901 "Harward, Sonya" (2751791104)  
01:42:21.979 --> 01:42:25.669  
In my district, uh, there was a complete cease.  
902 "Harward, Sonya" (2751791104)  
01:42:25.669 --> 01:42:28.819  
For all property, crime, response rate, period.  
903 "Harward, Sonya" (2751791104)  
01:42:28.819 --> 01:42:33.469  
They took the police department told you to fill out a report on line and they didn't even come.  
904 "Harward, Sonya" (2751791104)  
01:42:33.469 --> 01:42:37.819  
So, there's actually no recording of a response at all.  
905 "Harward, Sonya" (2751791104)  
01:42:37.819 --> 01:42:41.299  
Because they just stopped responding in totality.  
906 "Harward, Sonya" (2751791104)  
01:42:41.299 --> 01:42:45.439  
Um, so I am.  
907 "Harward, Sonya" (2751791104)  
01:42:45.439 --> 01:42:49.969  
I actually and again coming back to where I, I'm not sure what where we're doing.  
908 "Harward, Sonya" (2751791104)  
01:42:49.969 --> 01:42:53.839  
Disagreeing at this point, um, I don't see disagree.  
909 "Harward, Sonya" (2751791104)  
01:42:53.839 --> 01:42:59.059  
In the totality of the analysis, which includes.  
910 "Harward, Sonya" (2751791104)  
01:42:59.059 --> 01:43:04.669  
Reflecting what the 1 column does, which is there's a, a 10.  
911 "Harward, Sonya" (2751791104)  
01:43:04.669 --> 01:43:09.019  
The shift in police per capita between the.  
912 "Harward, Sonya" (2751791104)  
01:43:09.019 --> 01:43:13.549  
Highest density district for the lowest density division. Excuse me? Division.  
913 "Harward, Sonya" (2751791104)  
01:43:13.549 --> 01:43:19.429  
District and also reflecting crime rates right and threat and and.  
914 "Harward, Sonya" (2751791104)  
01:43:19.429 --> 01:43:23.779  
Saying that the analysis should include that. So I think it's all.  
915 "Harward, Sonya" (2751791104)  
01:43:23.779 --> 01:43:26.899  
And, you know, frankly, for me.  
916 "Harward, Sonya" (2751791104)  
01:43:26.899 --> 01:43:33.529  
The net result is going to be that the administration through the chief, which I believe.

917 "Harward, Sonya" (2751791104)  
01:43:33.529 --> 01:43:38.179  
She's already begun is going to finish her review of.

918 "Harward, Sonya" (2751791104)  
01:43:38.179 --> 01:43:44.089  
The strength of the police department, we've got to combine that with and partner with the suburban.

919 "Harward, Sonya" (2751791104)  
01:43:44.089 --> 01:43:47.479  
Who have started providing services and.

920 "Harward, Sonya" (2751791104)  
01:43:47.479 --> 01:43:52.819  
Understand how that works and we have to include as counsel and our.

921 "Harward, Sonya" (2751791104)  
01:43:52.819 --> 01:43:56.479  
Indicated right some of the other services that that.

922 "Harward, Sonya" (2751791104)  
01:43:56.479 --> 01:44:03.559  
Surround public safety, because it's not just L MPD. There's other agencies that sort of interact with this.

923 "Harward, Sonya" (2751791104)  
01:44:03.559 --> 01:44:07.399  
So, you know, maybe somebody can clarify where.

924 "Harward, Sonya" (2751791104)  
01:44:07.399 --> 01:44:10.699  
The actual disagreement is on the language or.

925 "Harward, Sonya" (2751791104)  
01:44:10.699 --> 01:44:15.199  
We might not be able to resolve it today. Let's take a step back redraft. It.

926 "Harward, Sonya" (2751791104)  
01:44:15.199 --> 01:44:19.249  
And then vote on it, but, you know, I'm not.

927 "Harward, Sonya" (2751791104)  
01:44:19.249 --> 01:44:23.059  
Clear on a path forward. I'm also not clear on where the major.

928 "Harward, Sonya" (2751791104)  
01:44:23.059 --> 01:44:30.703  
Is here at this point, I think you articulated very clearly and.

929 "Jason Nemes" (1270223872)  
01:44:30.703 --> 01:44:35.299  
We can't go back and re, drafted. Today's the final date we voted on this weeks ago. I wish we had this.

930 "Jason Nemes" (1270223872)  
01:44:35.299 --> 01:44:38.359  
Information then that's the problem if we would go back and.

931 "Jason Nemes" (1270223872)  
01:44:38.359 --> 01:44:43.549  
So, we don't get a bunch of cram data that we could agree. Adequately encompasses what we want to compass.

932 "Jason Nemes" (1270223872)  
01:44:43.549 --> 01:44:50.743  
That's 1 thing, but it's now the last day we voted on this week's ago that's the problem.

933 "Harward, Sonya" (2751791104)  
01:44:50.743 --> 01:44:55.219  
Part of the problems that process too, because I have a different understanding of what we're doing here.

934 "Harward, Sonya" (2751791104)  
01:44:59.269 --> 01:45:03.199  
I think it's important the context if you put all the information.

935 "Harward, Sonya" (2751791104)  
01:45:03.199 --> 01:45:07.759  
There I think it, for me, it would be sufficient. Otherwise you take out.

936 "Harward, Sonya" (2751791104)  
01:45:07.759 --> 01:45:11.209  
That other information, because it would be it'll skew.

937 "Harward, Sonya" (2751791104)  
01:45:11.209 --> 01:45:14.389  
Oh, the context quite Frank. Well.

938 "Harward, Sonya" (2751791104)  
01:45:14.389 --> 01:45:21.109  
Sorry, I didn't mean to cut you off. Sorry I'm fine. Let me just say something Tony and here's the way I look at this.

939 "Harward, Sonya" (2751791104)  
01:45:21.109 --> 01:45:26.689  
This is not and this is not a production issue.

940 "Harward, Sonya" (2751791104)  
01:45:26.689 --> 01:45:31.669  
For sure, and it it isn't even an issue in which we, we really disagree.

941 "Harward, Sonya" (2751791104)  
01:45:31.669 --> 01:45:36.079  
We're all on the same page. There's a problem with.

942 "Harward, Sonya" (2751791104)  
01:45:36.079 --> 01:45:39.439  
Crime and there's a problem with police with the adequacy of policing.

943 "Harward, Sonya" (2751791104)  
01:45:39.439 --> 01:45:45.049  
In the county, the only thing that that that the point of contention is.

944 "Harward, Sonya" (2751791104)  
01:45:45.049 --> 01:45:48.169  
Whether or not the recommendation.

945 "Harward, Sonya" (2751791104)  
01:45:48.169 --> 01:45:54.079  
To the legislature is going to properly reflect the reasons.

946 "Harward, Sonya" (2751791104)  
01:45:54.079 --> 01:45:59.119  
Why we are concerned and the basis on.

947 "Harward, Sonya" (2751791104)  
01:45:59.119 --> 01:46:04.909  
Which we're suggesting that some action be taken again locally.

948 "Harward, Sonya" (2751791104)  
01:46:04.909 --> 01:46:08.629  
Not even by the legislature by the way, but to the extent that the legislature.

949 "Harward, Sonya" (2751791104)  
01:46:08.629 --> 01:46:12.289  
Interested and wants to provide some guidance Thank you.

950 "Harward, Sonya" (2751791104)  
01:46:12.289 --> 01:46:16.399  
So that being the case, we should have no.

951 "Harward, Sonya" (2751791104)  
01:46:16.399 --> 01:46:21.229  
Disagreement now to make certain that the legislature has.

952 "Harward, Sonya" (2751791104)  
01:46:21.229 --> 01:46:25.429  
The information that would be relevant for them to act and certainly.

953 "Harward, Sonya" (2751791104)  
01:46:25.429 --> 01:46:28.549  
Information that that Metro government should have to have.

954 "Harward, Sonya" (2751791104)  
01:46:28.549 --> 01:46:32.389  
Fact, we're expressing the concerns of the citizens of.

955 "Harward, Sonya" (2751791104)  
01:46:32.389 --> 01:46:41.826  
Of this county, not merely the members of this commission and look at  
this in that context. I might take a.

956 "Harward, Sonya" (2751791104)  
01:46:41.826 --> 01:46:46.249  
Very seriously and I think that we should all bear that in mind.

957 "Harward, Sonya" (2751791104)  
01:46:46.249 --> 01:46:51.379  
And it doesn't matter where you live, you have the same concern.

958 "Harward, Sonya" (2751791104)  
01:46:51.379 --> 01:46:58.069  
About crime and protection of citizens that anybody else does and we  
should make sure we reflect that in a recommendation.

959 "Harward, Sonya" (2751791104)  
01:46:58.069 --> 01:47:02.209  
That comes out of this commission, otherwise it really calls into  
question.

960 "Harward, Sonya" (2751791104)  
01:47:02.209 --> 01:47:06.520  
Why we're here and what our objectives are.

961 "Jason Nemes" (1270223872)  
01:47:06.520 --> 01:47:10.069  
Not a single person disagrees what you just said, not a single person.

962 "Jason Nemes" (1270223872)  
01:47:10.069 --> 01:47:14.419  
That's the problem. The problem now is it's the last day.

963 "Jason Nemes" (1270223872)  
01:47:14.419 --> 01:47:17.629  
This was voted on weeks ago. Why didn't we.

964 "Jason Nemes" (1270223872)  
01:47:17.629 --> 01:47:21.739  
Say this then, so then we can look at the so then we can look at.

965 "Jason Nemes" (1270223872)  
01:47:21.739 --> 01:47:25.339  
So so if the Cory comes up with 7 things.

966 "Jason Nemes" (1270223872)  
01:47:25.339 --> 01:47:28.729

And we agree with all 7 of them. That's great. If it's assuming he's going to.

967 "Jason Nemes" (1270223872)  
01:47:28.729 --> 01:47:34.459  
Those numbers, but what if we think 8910 and 11 should also be added? That's why it should have been done.

968 "Jason Nemes" (1270223872)  
01:47:34.459 --> 01:47:40.601  
Weeks ago nobody agrees that the context should be in there if we're going to provide context, nobody disagrees with. That's what I think.

969 "Kaplan, David" (902884608)  
01:47:40.601 --> 01:47:43.004  
To get it, let's see.

970 "Harward, Sonya" (2751791104)  
01:47:43.004 --> 01:47:46.369  
This is the, this gets back to the other the other question.

971 "Harward, Sonya" (2751791104)  
01:47:46.369 --> 01:47:50.629  
And that is, you know, we all many of us raise these questions before.

972 "Harward, Sonya" (2751791104)  
01:47:50.629 --> 01:47:55.609  
Or I raised them before I talked about Where's the crime incidents? And I said, he say to doctor.

973 "Harward, Sonya" (2751791104)  
01:47:55.609 --> 01:47:59.179  
Like that, and therefore, but when you got to the point where we're saying fine.

974 "Harward, Sonya" (2751791104)  
01:47:59.179 --> 01:48:02.809  
If I understood that this was going to be.

975 "Harward, Sonya" (2751791104)  
01:48:02.809 --> 01:48:07.759  
Be critical to the recommendation coming out, as opposed to.

976 "Harward, Sonya" (2751791104)  
01:48:07.759 --> 01:48:13.039  
Information that informed the recommendation, then it would never gotten to the.

977 "Harward, Sonya" (2751791104)  
01:48:13.039 --> 01:48:18.243  
The point to got to, or at least the debate what about a hell of a lot more vigorous than it was?

978 "Jason Nemes" (1270223872)  
01:48:18.243 --> 01:48:21.366  
Okay, I don't know this gets back to the question of the of the of the.

979 "Harward, Sonya" (2751791104)  
01:48:21.366 --> 01:48:27.889  
Notion of what what our business was here and I don't believe anybody understood and certainly those of us many of us didn't.

980 "Harward, Sonya" (2751791104)  
01:48:27.889 --> 01:48:32.269  
That voting for things conceptually meant we were locked into the.

981 "Harward, Sonya" (2751791104)  
01:48:32.269 --> 01:48:37.099  
Language, because if that's the case, if that's the case, then I.

982 "Harward, Sonya" (2751791104)  
01:48:37.099 --> 01:48:44.779  
Amendment in the right in the far right column should be set period. We can both.

983 "Arthur, Jecorey" (1427041536)  
01:48:48.378 --> 01:48:51.409  
Question, so I have I have 3 questions 1.

984 "Arthur, Jecorey" (1427041536)  
01:48:51.409 --> 01:48:54.559  
What is the sponsor of this language?

985 "Arthur, Jecorey" (1427041536)  
01:48:54.559 --> 01:48:58.609  
Be okay, with being consistent with the way that we characterize it.

986 "Arthur, Jecorey" (1427041536)  
01:48:58.609 --> 01:49:02.839  
We add the language and, you know, the fuller column it mentions at the top.

987 "Arthur, Jecorey" (1427041536)  
01:49:02.839 --> 01:49:07.399  
The services are inadequate, then later on after the data is given.

988 "Arthur, Jecorey" (1427041536)  
01:49:07.399 --> 01:49:12.199  
It says there are areas that are simply not receiving per police services that their tax dollars.

989 "Arthur, Jecorey" (1427041536)  
01:49:12.199 --> 01:49:15.259  
Pay for so 1 says it's inadequate. 1 says they're not going.

990 "Arthur, Jecorey" (1427041536)  
01:49:15.259 --> 01:49:22.140  
Police services at all. Can we just stick to agree that the services are inadequate? That's my 1st question. What do you.

991 "Jason Nemes" (1270223872)  
01:49:22.140 --> 01:49:25.502  
What language do you suggest in the stripe? Cory?

992 "Arthur, Jecorey" (1427041536)  
01:49:25.502 --> 01:49:30.799  
So, instead of after we say difficult and complex, it must be acknowledged that there are wide.

993 "Arthur, Jecorey" (1427041536)  
01:49:30.799 --> 01:49:35.059  
Of the county that are simply not receiving public services at their tax dollars paid for it.

994 "Arthur, Jecorey" (1427041536)  
01:49:35.059 --> 01:49:41.629  
It's not accurate. Could we get rid of that part? Because we already said they're inaccurate at the top. Now we're saying they don't.

995 "Arthur, Jecorey" (1427041536)  
01:49:41.629 --> 01:49:46.622  
Get them at all. So could we just stick with their inadequate? Is that okay? So.

996 "Jason Nemes" (1270223872)  
01:49:46.622 --> 01:49:49.669  
Okay, I think that's fine. So, and then you want to.

997 "Arthur, Jecorey" (1427041536)

01:49:54.298 --> 01:49:57.349  
So, instead of ending with saying, they.  
998 "Arthur, Jecorey" (1427041536)  
01:49:57.349 --> 01:50:01.639  
Police services we go with while the commission understands policing decisions are difficult.  
999 "Arthur, Jecorey" (1427041536)  
01:50:01.639 --> 01:50:08.959  
Complex for example, and then there, we can have the place holders for the proportionality.  
1000 "Arthur, Jecorey" (1427041536)  
01:50:08.959 --> 01:50:12.409  
Where the crimes are, you know, that I want to include shootings and.  
1001 "Arthur, Jecorey" (1427041536)  
01:50:12.409 --> 01:50:16.249  
It's also her robberies and burglaries. What else do we want to include?  
1002 "Arthur, Jecorey" (1427041536)  
01:50:16.249 --> 01:50:20.059  
Because the current data is public, all we would need to do is put a placeholder.  
1003 "Arthur, Jecorey" (1427041536)  
01:50:20.059 --> 01:50:28.312  
Now, I can punch out the percentages or doctor clinics can punch out the percentages and then we can add it in there before we submit the final report.  
1004 "Jason Nemes" (1270223872)  
01:50:28.312 --> 01:50:33.379  
That's fine with me. And then and then, can we, can we put a, is there is there a page.  
1005 "Jason Nemes" (1270223872)  
01:50:33.379 --> 01:50:39.414  
That metro Metro has with the crown data that we can actually put that citation in here.  
1006 "Arthur, Jecorey" (1427041536)  
01:50:39.414 --> 01:50:42.515  
Absolutely data. Okay.  
1007 "Jason Nemes" (1270223872)  
01:50:42.515 --> 01:50:45.075  
That handles my.  
1008 "Arthur, Jecorey" (1427041536)  
01:50:45.075 --> 01:50:48.229  
Okay, I just want to make sure we do it. So I want shootings and how.  
1009 "Arthur, Jecorey" (1427041536)  
01:50:48.229 --> 01:50:52.155  
Besides, I heard burglaries. What else do we want in there? Just.  
1010 "Jason Nemes" (1270223872)  
01:50:52.155 --> 01:50:56.089  
Violent crime and and that's generally, but.  
1011 "Jason Nemes" (1270223872)  
01:50:59.149 --> 01:51:03.409  
The, the citation, I think the violent crime that you're talking about is fine is good enough. And then if.  
1012 "Jason Nemes" (1270223872)  
01:51:03.409 --> 01:51:06.799

Get that on robberies and then, and then referred to.  
1013 "Jason Nemes" (1270223872)  
01:51:06.799 --> 01:51:11.513  
The citation where people can go and look at the rest of it.  
1014 "Arthur, Jecorey" (1427041536)  
01:51:11.513 --> 01:51:22.252  
Yes, okay. So, just to be clear, because I have all the raw data in front of me shooting homicides, burglaries and Roberts. Is there anything else anyone wants to add?  
1015 "Harward, Sonya" (2751791104)  
01:51:22.252 --> 01:51:29.089  
Yeah, I think that Cory, it's Tony. That sounds good unless I don't have the categories in front of me but, I mean.  
1016 "Harward, Sonya" (2751791104)  
01:51:29.089 --> 01:51:33.679  
Violent crime, property, crime, so any any of the category.  
1017 "Harward, Sonya" (2751791104)  
01:51:33.679 --> 01:51:43.908  
The following violent crime, property crime, put them in and I think we're good unless you way too many. Or does it get? These are too interpretive.  
1018 "Arthur, Jecorey" (1427041536)  
01:51:43.908 --> 01:51:48.799  
So, the raw data is pretty clear about what the prime is, and it's all listed out and I'm pulling from.  
1019 "Arthur, Jecorey" (1427041536)  
01:51:48.799 --> 01:51:52.729  
2022 if that's okay and just that year. Yeah. Do you want me to.  
1020 "Arthur, Jecorey" (1427041536)  
01:51:52.729 --> 01:52:00.793  
And that the columns to punch out the percentages, do you want me to do it and submit it to everybody? Or what what do you mean when you say percentages.  
1021 "Arthur, Jecorey" (1427041536)  
01:52:00.793 --> 01:52:04.789  
So, you see how we have numbers of how many.  
1022 "Arthur, Jecorey" (1427041536)  
01:52:04.789 --> 01:52:12.019  
Officers right. Those ratios are essentially trying to say is disproportionate.  
1023 "Arthur, Jecorey" (1427041536)  
01:52:12.019 --> 01:52:15.619  
Instead of putting their X amount of robberies, X, amount of homicide.  
1024 "Arthur, Jecorey" (1427041536)  
01:52:15.619 --> 01:52:19.340  
I was just going to do percentages with the divisions.  
1025 "Arthur, Jecorey" (1427041536)  
01:52:19.340 --> 01:52:23.030  
In a simpler way, like the divisions up top use.  
1026 "Arthur, Jecorey" (1427041536)  
01:52:23.030 --> 01:52:29.651  
So just use a percentage and so we're not looking at the totals because they can be confused for folks to check out.  
1027 "Harward, Sonya" (2751791104)

01:52:29.651 --> 01:52:32.780  
Okay, so you're saying the percentage of of all burglaries.  
1028 "Harward, Sonya" (2751791104)  
01:52:32.780 --> 01:52:38.671  
In the county or this broken out this way. Bye. Bye. Bye police division.  
1029 "Arthur, Jecorey" (1427041536)  
01:52:38.671 --> 01:52:42.260  
Using the percentages to to suggest that most of them are.  
1030 "Arthur, Jecorey" (1427041536)  
01:52:42.260 --> 01:52:46.760  
In those areas, because we're talking about the whole county, so again,  
division 1.  
1031 "Arthur, Jecorey" (1427041536)  
01:52:46.760 --> 01:52:52.100  
2 and 473% of the non fatal shootings last year in 2022.  
1032 "Arthur, Jecorey" (1427041536)  
01:52:52.100 --> 01:52:56.150  
We're in just those 3 divisions so that shows you that there weren't as  
many.  
1033 "Jason Nemes" (1270223872)  
01:52:59.890 --> 01:53:04.850  
I think that's important information and whatever you want to add is fine  
with me if we're going to have that.  
1034 "Jason Nemes" (1270223872)  
01:53:04.850 --> 01:53:08.000  
Citation, so whoever the reader is, can go and look at the rest of the  
data.  
1035 "Jason Nemes" (1270223872)  
01:53:13.970 --> 01:53:18.590  
And so to make sure to make sure I understand the recommendation is this,  
they read it all.  
1036 "Jason Nemes" (1270223872)  
01:53:18.590 --> 01:53:24.920  
The commission technologist, so we're not going to change anything  
except, but we're going to delete the language after the.  
1037 "Jason Nemes" (1270223872)  
01:53:24.920 --> 01:53:32.000  
Complex we're deleting it must be acknowledged that there are wires that  
kind of are simply not receiving police services.  
1038 "Jason Nemes" (1270223872)  
01:53:32.000 --> 01:53:38.330  
Paper that's deleted after the word complex, delete that and you're going  
to add in information.  
1039 "Jason Nemes" (1270223872)  
01:53:38.330 --> 01:53:43.640  
And we've just discussed about the, the crown data and so forth and so  
on. Right? And then.  
1040 "Jason Nemes" (1270223872)  
01:53:43.640 --> 01:53:48.846  
And then we're back on text, come with acknowledges, blah, blah, blah.  
1041 "Arthur, Jecorey" (1427041536)  
01:53:48.846 --> 01:53:51.890  
Yeah, and it might make sense to get rid of the word while as well.  
1042 "Arthur, Jecorey" (1427041536)

01:53:51.890 --> 01:53:57.290  
So, we go straight into the commission, understands police and decisions are difficult and complex for example.  
1043 "Arthur, Jecorey" (1427041536)  
01:53:57.290 --> 01:54:03.188  
And that's what we talk about the disproportionality, the crime and then we pick up afterwards.  
1044 "Jason Nemes" (1270223872)  
01:54:03.188 --> 01:54:07.640  
Okay, I'm fine with that. Change.  
1045 "Jason Nemes" (1270223872)  
01:54:07.640 --> 01:54:10.870  
Those changes.  
1046 "ken fleming" (3378042880)  
01:54:10.870 --> 01:54:16.386  
Yeah, I'm good with that too. Uh.  
1047 "Arthur, Jecorey" (1427041536)  
01:54:16.386 --> 01:54:18.791  
And everybody else smooth with that and somebody.  
1048 "Harward, Sonya" (2751791104)  
01:54:18.791 --> 01:54:22.520  
Read the entire statement, then.  
1049 "Harward, Sonya" (2751791104)  
01:54:22.520 --> 01:54:26.360  
And let's make sure we understand we're reading from the from the.  
1050 "Harward, Sonya" (2751791104)  
01:54:26.360 --> 01:54:29.900  
The proposal column, if you will and the idea is that.  
1051 "Harward, Sonya" (2751791104)  
01:54:29.900 --> 01:54:35.210  
That the language is now, being read will not be moved over to the far right column.  
1052 "Harward, Sonya" (2751791104)  
01:54:35.210 --> 01:54:39.188  
And does anything in the far right column remain.  
1053 "Jason Nemes" (1270223872)  
01:54:39.188 --> 01:54:42.392  
Yes, that whole sentence remains okay for.  
1054 "Harward, Sonya" (2751791104)  
01:54:42.392 --> 01:54:44.913  
Inserting on top of that. Okay. Wait a minute.  
1055 "Jason Nemes" (1270223872)  
01:54:44.913 --> 01:54:48.590  
Try to read it at all. Please see if we can it's, um.  
1056 "Jason Nemes" (1270223872)  
01:54:51.920 --> 01:54:58.520  
Okay, all right the commission acknowledges that local metro police department services are not adequately provided across the county.  
1057 "Jason Nemes" (1270223872)  
01:54:58.520 --> 01:55:01.940  
For example, there is 1 officer police officer for every.  
1058 "Jason Nemes" (1270223872)  
01:55:01.940 --> 01:55:05.480  
2008 or 87 residents in division 8, Eastern Jefferson.

1059 "Jason Nemes" (1270223872)  
01:55:05.480 --> 01:55:10.280  
1 police officer for every 1000 page 1 residents in division 3,  
Southwestern Jefferson.

1060 "Jason Nemes" (1270223872)  
01:55:10.280 --> 01:55:15.380  
And 1 officer for every 37,400 division, 1, downtown, West Jefferson,  
period.

1061 "Jason Nemes" (1270223872)  
01:55:15.380 --> 01:55:20.180  
The commission understands that policing decisions are difficult and  
complex period.

1062 "Jason Nemes" (1270223872)  
01:55:20.180 --> 01:55:29.935  
Corey is going to have, for example, and then corey's information about  
the crime correct? That's where you can put that. So.

1063 "Arthur, Jecorey" (1427041536)  
01:55:29.935 --> 01:55:32.528  
I'll include the citation as well. That's right.

1064 "Jason Nemes" (1270223872)  
01:55:32.528 --> 01:55:38.240  
Then we're going to say the commission acknowledge.

1065 "Jason Nemes" (1270223872)  
01:55:38.240 --> 01:55:45.470  
That many of these under certain areas have contracted with other police  
departments, or with all duty police officers to provide police.

1066 "Jason Nemes" (1270223872)  
01:55:45.470 --> 01:55:49.940  
And I think in keeping with the spirit of the course.

1067 "Jason Nemes" (1270223872)  
01:55:49.940 --> 01:55:54.080  
Foundation is to have a period after that, and where we would delete  
their tax dollars.

1068 "Jason Nemes" (1270223872)  
01:55:54.080 --> 01:55:59.960  
Be providing back on text other underserved areas, have created an  
additional police department.

1069 "Jason Nemes" (1270223872)  
01:55:59.960 --> 01:56:03.920  
To provide policing services period again, within the.

1070 "Jason Nemes" (1270223872)  
01:56:03.920 --> 01:56:08.240  
Period of the recommendation we're going to delete the tax dollars should  
already be.

1071 "Jason Nemes" (1270223872)  
01:56:08.240 --> 01:56:12.800  
Then so the other.

1072 "Jason Nemes" (1270223872)  
01:56:12.800 --> 01:56:16.520  
Back on that others are under certain areas have created additional  
police department.

1073 "Jason Nemes" (1270223872)  
01:56:16.520 --> 01:56:21.470

Replicating services, period, the commission calls on Metro government to working together with some.

1074 "Jason Nemes" (1270223872)

01:56:21.470 --> 01:56:26.960

Burden police departments to evaluate and recommend crime prevention services to provide adequate policing across the entire.

1075 "Jason Nemes" (1270223872)

01:56:26.960 --> 01:56:30.170

Is that what.

1076 "Jason Nemes" (1270223872)

01:56:30.170 --> 01:56:36.492

Wait wait.

1077 "Harward, Sonya" (2751791104)

01:56:36.492 --> 01:56:42.620

Big elephant in the room. The big elephant in the room is not just the.

1078 "Harward, Sonya" (2751791104)

01:56:42.620 --> 01:56:48.110

Distribution allocation of resources.

1079 "Harward, Sonya" (2751791104)

01:56:48.110 --> 01:56:53.570

I E police, but the big elephant in.

1080 "Harward, Sonya" (2751791104)

01:56:53.570 --> 01:57:00.590

Is what is the adequate amount of funding to achieve what.

1081 "Harward, Sonya" (2751791104)

01:57:00.590 --> 01:57:04.280

Where, and I think that's in a central.

1082 "Harward, Sonya" (2751791104)

01:57:04.280 --> 01:57:10.160

Because if you start with something that's inadequately funded, you're going to still end up.

1083 "Harward, Sonya" (2751791104)

01:57:10.160 --> 01:57:18.883

With inadequacy, no matter what you do. So I'm, I'm not sure if this gets to it.

1084 "Jason Nemes" (1270223872)

01:57:18.883 --> 01:57:21.929

So 1 of my concerns.

1085 "Harward, Sonya" (2751791104)

01:57:21.929 --> 01:57:29.870

In this whole thing in this whole process is trying to achieve balance that we take something.

1086 "Harward, Sonya" (2751791104)

01:57:29.870 --> 01:57:35.450

From 1 place of need demonstrated need and we shifted.

1087 "Harward, Sonya" (2751791104)

01:57:35.450 --> 01:57:38.450

To another place demonstrated need.

1088 "Harward, Sonya" (2751791104)

01:57:38.450 --> 01:57:43.280

And what have we done? So, the question is.

1089 "Harward, Sonya" (2751791104)

01:57:43.280 --> 01:57:46.820

And I've said this over and over again when when.

1090 "Harward, Sonya" (2751791104)  
01:57:46.820 --> 01:57:53.780  
Or is it a win lose or what is this? And I don't think we can avoid in any of this.

1091 "Harward, Sonya" (2751791104)  
01:57:53.780 --> 01:57:57.950  
Uh, not just funding we just talked about 300.

1092 "Harward, Sonya" (2751791104)  
01:57:57.950 --> 01:58:03.560  
In terms of Metro, um, ability to even provide services.

1093 "Harward, Sonya" (2751791104)  
01:58:03.560 --> 01:58:08.420  
And have those components are necessarily and provide it goes beyond funding. So there's a lot of it.

1094 "Harward, Sonya" (2751791104)  
01:58:08.420 --> 01:58:14.690  
This is very complex stuff is what I'm saying, this is very complex stuff and what's evolved.

1095 "Harward, Sonya" (2751791104)  
01:58:14.690 --> 01:58:21.860  
Uh, is reacting to responding to strategically and tactically to what was available.

1096 "Harward, Sonya" (2751791104)  
01:58:21.860 --> 01:58:26.240  
To deal with the perceive, our real needs are.

1097 "Harward, Sonya" (2751791104)  
01:58:26.240 --> 01:58:32.240  
So, I'm just saying I hear all of this, but I'm not sure it really.

1098 "Harward, Sonya" (2751791104)  
01:58:32.240 --> 01:58:37.610  
Goes beyond just that 1 statement we talking about context.

1099 "Harward, Sonya" (2751791104)  
01:58:37.610 --> 01:58:42.650  
All of that to evaluate that and to look at all.

1100 "Harward, Sonya" (2751791104)  
01:58:42.650 --> 01:58:48.230  
Specs as to how to deal with any inadequacies really deals with.

1101 "Harward, Sonya" (2751791104)  
01:58:48.230 --> 01:58:54.650  
Subject matter in my view, and I'm not knocking the statistical stuff and all of that because that figures in.

1102 "Harward, Sonya" (2751791104)  
01:58:54.650 --> 01:58:59.690  
I just don't think it really creates the full context.

1103 "Harward, Sonya" (2751791104)  
01:58:59.690 --> 01:59:04.790  
Sorry, are you suggesting that funding be added as 1 of the things that.

1104 "Harward, Sonya" (2751791104)  
01:59:04.790 --> 01:59:11.630  
Evaluate the the reason why I hesitate to respond is that it takes a thought process to get your head around it.

1105 "Harward, Sonya" (2751791104)  
01:59:11.630 --> 01:59:16.520

All of that, and I'm not sure I can get my head around all of that. What I just said.

1106 "Harward, Sonya" (2751791104)

01:59:16.520 --> 01:59:20.900

And, of course, that's been 1 of my raises all the.

1107 "Harward, Sonya" (2751791104)

01:59:20.900 --> 01:59:23.900

That's why I have a critique.

1108 "Harward, Sonya" (2751791104)

01:59:23.900 --> 01:59:27.380

Process and that, and not as a.

1109 "Harward, Sonya" (2751791104)

01:59:27.380 --> 01:59:33.050

And not in a shot at any 1, you know, but I think the process.

1110 "Harward, Sonya" (2751791104)

01:59:33.050 --> 01:59:38.540

Sometimes limits your ability, you know, you set a time frame, you take on this big animal.

1111 "Harward, Sonya" (2751791104)

01:59:38.540 --> 01:59:42.710

And then you have deficiencies and how.

1112 "Harward, Sonya" (2751791104)

01:59:42.710 --> 01:59:47.690

How you have information based on which you make really good decisions.

1113 "Harward, Sonya" (2751791104)

01:59:47.690 --> 01:59:51.770

And everyone comes in with there's a problem and they'll receive.

1114 "Harward, Sonya" (2751791104)

01:59:51.770 --> 01:59:54.770

You know how to solve it. So, all I'm saying is.

1115 "Harward, Sonya" (2751791104)

01:59:54.770 --> 01:59:58.190

At the end of the day, we.

1116 "Harward, Sonya" (2751791104)

01:59:58.190 --> 02:00:01.520

Design when when solution.

1117 "Harward, Sonya" (2751791104)

02:00:01.520 --> 02:00:05.870

And I just wanted to remind you that. I'm not sure that that.

1118 "Harward, Sonya" (2751791104)

02:00:05.870 --> 02:00:09.020

But I think this general statement over here.

1119 "Harward, Sonya" (2751791104)

02:00:09.020 --> 02:00:14.270

I think it actually does I'm talking about the, the.

1120 "Harward, Sonya" (2751791104)

02:00:14.270 --> 02:00:19.550

The right column, um, I think it does a great job and that does not.

1121 "Harward, Sonya" (2751791104)

02:00:19.550 --> 02:00:25.190

What, uh, councilman author is speaking.

1122 "Harward, Sonya" (2751791104)

02:00:25.190 --> 02:00:32.150

Of the earliest suggestion as well. Let me put it all in there. That's fine. But that's the key.

1123 "Harward, Sonya" (2751791104)

02:00:32.150 --> 02:00:35.510

That's the that's the major statement, right?

1124 "Harward, Sonya" (2751791104)

02:00:40.640 --> 02:00:43.640

Well, it it seems to me that maybe, um.

1125 "Harward, Sonya" (2751791104)

02:00:43.640 --> 02:00:49.070

I had 22 thoughts 1 is maybe funding needs to be added here, but.

1126 "Harward, Sonya" (2751791104)

02:00:49.070 --> 02:00:53.090

Beyond that I think that that councilman.

1127 "Harward, Sonya" (2751791104)

02:00:53.090 --> 02:00:58.370

Information should include as well, the number of.

1128 "Harward, Sonya" (2751791104)

02:00:58.370 --> 02:01:06.740

Uh, that we are done that the forces down Mr.

1129 "Harward, Sonya" (2751791104)

02:01:06.740 --> 02:01:12.740

Uh, it's, I think what we.

1130 "Harward, Sonya" (2751791104)

02:01:12.740 --> 02:01:17.930

Spoke about last time was it's really hard to say what that number is.

The number is.

1131 "Harward, Sonya" (2751791104)

02:01:17.930 --> 02:01:24.290

Not, I'd love to put a number in there because we've been running out of the.

1132 "Harward, Sonya" (2751791104)

02:01:24.290 --> 02:01:29.420

That we're down 300, we don't know because we don't have the report done and it's so outdated.

1133 "Harward, Sonya" (2751791104)

02:01:29.420 --> 02:01:33.830

How would you suggest that we deal with that particular question? We, we.

1134 "Harward, Sonya" (2751791104)

02:01:33.830 --> 02:01:38.180

Do what the recommendation is right? Which is that.

1135 "Harward, Sonya" (2751791104)

02:01:38.180 --> 02:01:43.880

Has to complete a study, evaluate it look at what the strength of the force needs to be evaluating.

1136 "Harward, Sonya" (2751791104)

02:01:43.880 --> 02:01:50.810

The variables that I think we brought up here, right in crime rates as the police department.

1137 "Harward, Sonya" (2751791104)

02:01:50.810 --> 02:01:54.620

Taken a position as to what number it is down by, or has the.

1138 "Harward, Sonya" (2751791104)

02:01:54.620 --> 02:01:58.070

Metro government taking a position, whether it's accurate or not.  
1139 "Harward, Sonya" (2751791104)  
02:01:58.070 --> 02:02:01.940  
The position right now is it's 300, but that's predicated on.  
1140 "Harward, Sonya" (2751791104)  
02:02:01.940 --> 02:02:08.720  
An assumption that they know, is that dated? Well, then all we can do is  
what we have, you know, if that's the number that they.  
1141 "Harward, Sonya" (2751791104)  
02:02:08.720 --> 02:02:12.200  
They're, they're operating under assumedly. It would.  
1142 "Harward, Sonya" (2751791104)  
02:02:12.200 --> 02:02:15.650  
Be changed when they get the data, but at the moment, if that's what we  
got.  
1143 "Harward, Sonya" (2751791104)  
02:02:15.650 --> 02:02:25.158  
I don't think we can just sort of assume that we don't know how much  
we're down and maybe we're even up, which is what would be left the  
assumption when might conclude from that. So I think it's a.  
1144 "Jason Nemes" (1270223872)  
02:02:25.158 --> 02:02:29.840  
I think it put down what we know. Yeah. Let's put it in there. It's  
immaterial point I think, but it's.  
1145 "Jason Nemes" (1270223872)  
02:02:29.840 --> 02:02:35.120  
Put it in there, 300 fine when they do the study of.  
1146 "Jason Nemes" (1270223872)  
02:02:38.420 --> 02:02:44.210  
And then I think we should add that adequate policing and funding across  
the entire county. That's probably where.  
1147 "Jason Nemes" (1270223872)  
02:02:44.210 --> 02:02:49.250  
General suggestion might fit. Okay.  
1148 "Jason Nemes" (1270223872)  
02:02:49.250 --> 02:02:53.360  
Are you getting that information over to us? Okay.  
1149 "Jason Nemes" (1270223872)  
02:02:53.360 --> 02:03:01.490  
Anything else on 30 to Earl on 30.  
1150 "Jason Nemes" (1270223872)  
02:03:01.490 --> 02:03:07.820  
Manny around 34.  
1151 "Jason Nemes" (1270223872)  
02:03:07.820 --> 02:03:11.870  
And we added we add this on, you know, um.  
1152 "Jason Nemes" (1270223872)  
02:03:11.870 --> 02:03:15.140  
gerald's request we added to additional appointments.  
1153 "Jason Nemes" (1270223872)  
02:03:15.140 --> 02:03:21.978  
From the National Association of the border of the of real nice.  
1154 "Harward, Sonya" (2751791104)  
02:03:21.978 --> 02:03:26.020

Station real estate brokers. Louisville, right?  
1155 "Jason Nemes" (1270223872)  
02:03:26.020 --> 02:03:29.540  
Associates broker's local border yeah.  
1156 "Jason Nemes" (1270223872)  
02:03:29.540 --> 02:03:33.530  
Thank you so, just wanted to make sure I flag that. Thank you.  
1157 "Jason Nemes" (1270223872)  
02:03:33.530 --> 02:03:50.759  
Thank you and I think that's it.  
1158 "Harward, Sonya" (2751791104)  
02:03:50.759 --> 02:03:59.090  
Mr. chairman does that mean that our job is done today? Um.  
1159 "Harward, Sonya" (2751791104)  
02:03:59.090 --> 02:04:02.810  
Have you all discussed the the, um.  
1160 "Harward, Sonya" (2751791104)  
02:04:02.810 --> 02:04:10.220  
Sort of what the report looks like. Oh.  
1161 "Harward, Sonya" (2751791104)  
02:04:10.220 --> 02:04:15.800  
I sent to Brian a kind of an introduction. Did you did you want.  
1162 "Harward, Sonya" (2751791104)  
02:04:19.400 --> 02:04:23.870  
Um, I guess I just like and Brian and Jason, and I have not.  
1163 "Harward, Sonya" (2751791104)  
02:04:23.870 --> 02:04:29.750  
A chance to talk about this either, but but I think we need to have  
something which says, you know, who we are, what we've done.  
1164 "Harward, Sonya" (2751791104)  
02:04:29.750 --> 02:04:33.920  
And then here's the report and that's what.  
1165 "Harward, Sonya" (2751791104)  
02:04:33.920 --> 02:04:38.420  
I think you have been provided a copy of if you can just take a look at  
it.  
1166 "Harward, Sonya" (2751791104)  
02:04:38.420 --> 02:04:41.630  
And if we're sort of generally good with that approach, at least.  
1167 "Harward, Sonya" (2751791104)  
02:04:41.630 --> 02:04:44.780  
We sort of know what the out, what the thing will look like.  
1168 "Harward, Sonya" (2751791104)  
02:04:44.780 --> 02:04:49.100  
But the kind of the final package might look like, at least, shouldn't we  
put it in it?  
1169 "Harward, Sonya" (2751791104)  
02:04:49.100 --> 02:04:55.400  
Disclaimer in there as to it's not all encompassing. What's not all.  
1170 "Harward, Sonya" (2751791104)  
02:04:55.400 --> 02:05:02.060  
This report, how would that not all encompassing of what? That's the  
point.  
1171 "Harward, Sonya" (2751791104)

02:05:02.060 --> 02:05:07.850  
I keep making this point, I'm saying it over and over again. I don't think we've.

1172 "Harward, Sonya" (2751791104)  
02:05:07.850 --> 02:05:10.880  
Allow, and I don't describe this any and.

1173 "Harward, Sonya" (2751791104)  
02:05:10.880 --> 02:05:16.250  
But I don't think there's sufficient time or sufficient, uh, in depth.

1174 "Harward, Sonya" (2751791104)  
02:05:16.250 --> 02:05:20.510  
Research data, et cetera evaluations that we've.

1175 "Harward, Sonya" (2751791104)  
02:05:20.510 --> 02:05:28.550  
I think it takes a lot more time to do this kind of work and not that we, some good things have not happened. I think there are some things that I think clearly.

1176 "Harward, Sonya" (2751791104)  
02:05:28.550 --> 02:05:31.700  
Called for action, but I think there are.

1177 "Harward, Sonya" (2751791104)  
02:05:31.700 --> 02:05:35.990  
The things that are so complex, you know, at least in my dealing with this.

1178 "Harward, Sonya" (2751791104)  
02:05:35.990 --> 02:05:43.040  
Uh, smacks me as being, um, less than thorough. Well, then, are you.

1179 "Harward, Sonya" (2751791104)  
02:05:43.040 --> 02:05:47.930  
Testing then that, that that a recommendation, or at least, um.

1180 "Harward, Sonya" (2751791104)  
02:05:47.930 --> 02:05:52.610  
Something to be said in the message to the general assembly.

1181 "Harward, Sonya" (2751791104)  
02:05:52.610 --> 02:05:57.470  
That that that what did they could provide more.

1182 "Harward, Sonya" (2751791104)  
02:05:57.470 --> 02:06:01.910  
Analysis that they should provide more time that something's required greater and greater.

1183 "Harward, Sonya" (2751791104)  
02:06:01.910 --> 02:06:08.690  
Something that says something like that, that this is not an end all. I think it's going to take this real complex.

1184 "Harward, Sonya" (2751791104)  
02:06:08.690 --> 02:06:12.800  
Issues here, at least in my experience, uh, in some of these.

1185 "Harward, Sonya" (2751791104)  
02:06:12.800 --> 02:06:15.860  
Well, I think, I mean, I obviously agree with you.

1186 "Harward, Sonya" (2751791104)  
02:06:15.860 --> 02:06:21.080  
On that, I guess my, my concern is, how do we express that? Yeah. And.

1187 "Harward, Sonya" (2751791104)

02:06:21.080 --> 02:06:24.530  
What are we saying that we want to happen?  
1188 "Harward, Sonya" (2751791104)  
02:06:27.860 --> 02:06:31.280  
We asking that, that the legislature.  
1189 "Harward, Sonya" (2751791104)  
02:06:31.280 --> 02:06:34.490  
Have hearings on that, are we asking that they.  
1190 "Harward, Sonya" (2751791104)  
02:06:34.490 --> 02:06:39.140  
I'm I'm almost afraid to even say that oh, I would draw my.  
1191 "Harward, Sonya" (2751791104)  
02:06:42.470 --> 02:06:46.610  
I think everybody is in the process.  
1192 "Harward, Sonya" (2751791104)  
02:06:46.610 --> 02:06:53.480  
The time that people committed, but this is complex stuff. You know, it's  
not the 1st time I've been around this ball.  
1193 "Harward, Sonya" (2751791104)  
02:06:53.480 --> 02:06:57.380  
This is complex stuff. Yeah.  
1194 "Harward, Sonya" (2751791104)  
02:06:57.380 --> 02:07:04.310  
I think that bothers you most senator in that regard, is that, I mean, as  
complex as it as it is, has been.  
1195 "Harward, Sonya" (2751791104)  
02:07:04.310 --> 02:07:08.360  
And as I think as much effort is that permission has put into it.  
1196 "Harward, Sonya" (2751791104)  
02:07:08.360 --> 02:07:13.370  
You know, we started, we started behind, we started late because we  
didn't have.  
1197 "Harward, Sonya" (2751791104)  
02:07:13.370 --> 02:07:17.540  
The support that we needed from the beginning, and it just it just.  
1198 "Harward, Sonya" (2751791104)  
02:07:17.540 --> 02:07:21.860  
Unfortunate, that's the case. Well, but but because of that.  
1199 "Harward, Sonya" (2751791104)  
02:07:21.860 --> 02:07:27.320  
That laid the playing field, it made it even more of an issue and.  
1200 "Harward, Sonya" (2751791104)  
02:07:27.320 --> 02:07:32.750  
And that's why I say, I don't put this in any individuals foot, you know,  
but.  
1201 "julie raque adams" (4264177920)  
02:07:32.750 --> 02:07:36.814  
Mr. chairman very concerning to me. Yes.  
1202 "Harward, Sonya" (2751791104)  
02:07:36.814 --> 02:07:41.256  
Yes, I agree with Senator Neil, I think that this.  
1203 "julie raque adams" (4264177920)  
02:07:41.256 --> 02:07:49.670

This is really a critical piece that and maybe maybe we just say something based.

1204 "julie raque adams" (4264177920)  
02:07:49.670 --> 02:07:54.020  
Um, you know, that this is, this is just the 1st.

1205 "julie raque adams" (4264177920)  
02:07:54.020 --> 02:07:57.350  
That this commission recognizes.

1206 "julie raque adams" (4264177920)  
02:07:57.350 --> 02:08:00.530  
That we have further work to do.

1207 "julie raque adams" (4264177920)  
02:08:00.530 --> 02:08:04.610  
And we look forward to, you know, um.

1208 "julie raque adams" (4264177920)  
02:08:04.610 --> 02:08:09.170  
You know, convening with the appropriate stakeholders the mayor's office.

1209 "julie raque adams" (4264177920)  
02:08:09.170 --> 02:08:13.430  
And the metro Council, and the general assembly to continue the conversation where.

1210 "julie raque adams" (4264177920)  
02:08:13.430 --> 02:08:19.040  
Appropriate, but, you know, something of that effect but I do, I think that there needs to be a sentiment made.

1211 "julie raque adams" (4264177920)  
02:08:19.040 --> 02:08:22.840  
This is just the 1st step in the process.

1212 "Harward, Sonya" (2751791104)  
02:08:22.840 --> 02:08:27.320  
Well, maybe the 2nd step in the process, because we already initiated.

1213 "Harward, Sonya" (2751791104)  
02:08:27.320 --> 02:08:31.970  
Legislation that took steps without input from the local to even get to this.

1214 "Harward, Sonya" (2751791104)  
02:08:31.970 --> 02:08:38.300  
And that also gives me concern. I think we ought to listen very carefully to the local.

1215 "Harward, Sonya" (2751791104)  
02:08:38.300 --> 02:08:41.330  
To just to a stakeholder who perhaps.

1216 "Harward, Sonya" (2751791104)  
02:08:41.330 --> 02:08:44.450  
Occupies a seat of power opposition.

1217 "Harward, Sonya" (2751791104)  
02:08:44.450 --> 02:08:48.620  
And I don't point that in any individual, but I do it.

1218 "Harward, Sonya" (2751791104)  
02:08:48.620 --> 02:08:54.290  
Concerns me that despite our efforts, because of the truncation of.

1219 "Harward, Sonya" (2751791104)  
02:08:58.580 --> 02:09:05.030

You know, we've operated on some really restrained circumstances. I'm concerned.

1220 "Harward, Sonya" (2751791104)

02:09:05.030 --> 02:09:11.570

About various other issues some of this stuff I looked at and I said, oh, wow, that's great. But some of this, I'm, I'm.

1221 "Harward, Sonya" (2751791104)

02:09:11.570 --> 02:09:15.980

Concern about when we take things to Frankfurt to.

1222 "Harward, Sonya" (2751791104)

02:09:15.980 --> 02:09:20.930

Uh, determine how things are going to happen on the local level and, you know.

1223 "Harward, Sonya" (2751791104)

02:09:20.930 --> 02:09:29.900

It's a very political environment we all know that I go back to this and, I mean, no malice when I say it's a reality and I'm very concerned.

1224 "Harward, Sonya" (2751791104)

02:09:29.900 --> 02:09:34.070

About that when we don't have all that other stuff behind it.

1225 "Harward, Sonya" (2751791104)

02:09:34.070 --> 02:09:40.610

And we go running off in Frankfurt, there's a lot of legislation, I think, in Frankfurt that we promulgated.

1226 "Harward, Sonya" (2751791104)

02:09:40.610 --> 02:09:44.000

We would wish we all back at least.

1227 "Harward, Sonya" (2751791104)

02:09:47.060 --> 02:09:50.270

Um, give me well, I won't give examples, so I won't be.

1228 "Harward, Sonya" (2751791104)

02:09:50.270 --> 02:09:57.320

Point I think I've express myself adequately. Thank you. And thank you for your comments and I'm always ready to.

1229 "Harward, Sonya" (2751791104)

02:09:57.320 --> 02:10:01.338

Engaging for the compensation about anything.

1230 "Jason Nemes" (1270223872)

02:10:01.338 --> 02:10:08.060

I think may be ready with his recommendations. Are you ready?

1231 "Arthur, Jecorey" (1427041536)

02:10:08.060 --> 02:10:12.920

Yeah, I just wanted to let it be known. I sent the root cause for the public health.

1232 "Arthur, Jecorey" (1427041536)

02:10:12.920 --> 02:10:17.420

Instead of going through that report, because they're updating it for 2023.

1233 "Arthur, Jecorey" (1427041536)

02:10:17.420 --> 02:10:21.950

If we could just list public health on the list that's on page 21.

1234 "Arthur, Jecorey" (1427041536)

02:10:21.950 --> 02:10:27.500

Recommendation 33, it already lists crime, education incentivize and.

1235 "Arthur, Jecorey" (1427041536)  
02:10:27.500 --> 02:10:31.580  
Home ownership and attracting retaining businesses to metro areas if we can just add.

1236 "Arthur, Jecorey" (1427041536)  
02:10:31.580 --> 02:10:37.878  
Public health to their list, it would get the intent because they send out these recommendations to the state every few years.

1237 "Jason Nemes" (1270223872)  
02:10:37.878 --> 02:10:41.060  
What that word which.

1238 "Jason Nemes" (1270223872)  
02:10:41.060 --> 02:10:47.579  
Includes addressing issues of prime education incentivizing a home ownership. Comma. What like, what do you want.

1239 "Arthur, Jecorey" (1427041536)  
02:10:47.579 --> 02:10:51.740  
It could just say issues of crime, public health educate, just add it to.

1240 "Arthur, Jecorey" (1427041536)  
02:10:51.740 --> 02:10:55.640  
That list okay again, the health of.

1241 "Arthur, Jecorey" (1427041536)  
02:10:55.640 --> 02:11:02.811  
And it puts out the health equity report every few years they have recommendations for the state. So that was really the intent behind that recommendation.

1242 "Jason Nemes" (1270223872)  
02:11:02.811 --> 02:11:03.928  
Okay, so people say.

1243 "Harward, Sonya" (2751791104)  
02:11:03.928 --> 02:11:06.674  
1, that is again what page and what number.

1244 "Arthur, Jecorey" (1427041536)  
02:11:06.674 --> 02:11:12.593  
33.

1245 "Jason Nemes" (1270223872)  
02:11:12.593 --> 02:11:20.510  
So, the change would be make sure I get the I have this right Corey, looking up let's start on the 4th line from the bottom.

1246 "Jason Nemes" (1270223872)  
02:11:20.510 --> 02:11:24.260  
Starts Louisville, which includes addressing issues of crime education.

1247 "Jason Nemes" (1270223872)  
02:11:24.260 --> 02:11:29.120  
Incentivizing homeownership, public health and let's change that around.

1248 "Jason Nemes" (1270223872)  
02:11:29.120 --> 02:11:35.510  
Crime education, public health, incentivizing home ownership and attracting and retaining businesses for our metro areas.

1249 "Jason Nemes" (1270223872)  
02:11:35.510 --> 02:11:41.360  
Okay, so okay. Are you ready with your the Chrome number of stuff?

1250 "Jason Nemes" (1270223872)  
02:11:46.160 --> 02:11:50.180

You're on, you're on mute.

1251 "Arthur, Jecorey" (1427041536)

02:11:54.135 --> 02:11:57.890

No, it, it might be faster for Paul to do it because it's thousands of.

1252 "Arthur, Jecorey" (1427041536)

02:11:57.890 --> 02:12:01.490

Pieces of raw data and my computer keeps freezing so I can send it to.

1253 "Arthur, Jecorey" (1427041536)

02:12:01.490 --> 02:12:05.543

Well, if you want me to, or I can keep trying to punch it, let me.

1254 "Jason Nemes" (1270223872)

02:12:05.543 --> 02:12:12.110

Let me ask the commissioners if they would if they would be okay with if

Corey gets that information to.

1255 "Jason Nemes" (1270223872)

02:12:12.110 --> 02:12:16.130

To me, or to Corey you and Paul get it to early to me and if there's no objections.

1256 "Jason Nemes" (1270223872)

02:12:16.130 --> 02:12:23.810

From earlier me, then we just we add that information in there. We'll have the citation to the place that people can go look at. Is that okay? With the.

1257 "Jason Nemes" (1270223872)

02:12:27.740 --> 02:12:32.960

Any objections okay.

1258 "Jason Nemes" (1270223872)

02:12:32.960 --> 02:12:38.330

So, if you could get that to Earl Paul and me, and then Earl.

1259 "Jason Nemes" (1270223872)

02:12:38.330 --> 02:12:42.380

You want to me to go through all the.

1260 "Jason Nemes" (1270223872)

02:12:42.380 --> 02:12:46.760

They're very minor, you know, a couple, you know, take away.

1261 "Jason Nemes" (1270223872)

02:12:46.760 --> 02:12:52.106

A couple typos, that kind of thing with you yeah. Um.

1262 "Harward, Sonya" (2751791104)

02:12:52.106 --> 02:12:56.510

Let me ask a question, maybe it's can we go off the record is such a thing. Um.

1263 "Harward, Sonya" (2751791104)

02:12:56.510 --> 02:12:59.930

The, um, the 15th.

1264 "Harward, Sonya" (2751791104)

02:12:59.930 --> 02:13:03.560

Sometimes in Frankfurt, they've stopped the.

1265 "Harward, Sonya" (2751791104)

02:13:03.560 --> 02:13:07.400

Block I've heard about that anyway. I guess they can't do.

1266 "Harward, Sonya" (2751791104)

02:13:07.400 --> 02:13:11.210

Any more okay, so, um, I guess Mike.

1267 "Harward, Sonya" (2751791104)  
02:13:11.210 --> 02:13:16.790  
Question is, what are we understanding about the, the we took midnight.  
1268 "Jason Nemes" (1270223872)  
02:13:21.255 --> 02:13:27.200  
I, I don't know, let me suggested senators name is Neil Adams.  
1269 "Jason Nemes" (1270223872)  
02:13:27.200 --> 02:13:31.490  
Representatives even sending Fleming that.  
1270 "Jason Nemes" (1270223872)  
02:13:31.490 --> 02:13:36.500  
But the 15th was the end of the week, so for Monday.  
1271 "Jason Nemes" (1270223872)  
02:13:36.500 --> 02:13:40.010  
Maybe we should do it today.  
1272 "Jason Nemes" (1270223872)  
02:13:40.010 --> 02:13:44.330  
I mean, that's what the rule says. That's what we need to do. I think  
we're really close to it.  
1273 "Jason Nemes" (1270223872)  
02:13:44.330 --> 02:13:48.320  
Other than that 1 suggestion really it's like deleting the.  
1274 "Jason Nemes" (1270223872)  
02:13:48.320 --> 02:13:53.412  
You know.  
1275 "Harward, Sonya" (2751791104)  
02:13:53.412 --> 02:13:56.990  
Do you want to just stay here in chamber somewhere in conference room?  
1276 "Harward, Sonya" (2751791104)  
02:13:56.990 --> 02:14:02.960  
Is that I have my computer, but let's let's make.  
1277 "Harward, Sonya" (2751791104)  
02:14:02.960 --> 02:14:10.820  
An effort then to finish things up at least manually and then I can get  
to my computer. I can finish it up the other thing though, I guess I.  
1278 "Harward, Sonya" (2751791104)  
02:14:10.820 --> 02:14:14.750  
Want to understand is corey's question about.  
1279 "Harward, Sonya" (2751791104)  
02:14:14.750 --> 02:14:21.200  
The data do you all have an EPA on when that might be you and Paul.  
1280 "Harward, Sonya" (2751791104)  
02:14:21.200 --> 02:14:26.055  
Whether that's going to be in the next half hour or what or much later  
than this.  
1281 "Arthur, Jecorey" (1427041536)  
02:14:26.055 --> 02:14:30.680  
I just text bar, maybe you could give us an estimate. Um, just again,  
it's all raw data.  
1282 "Arthur, Jecorey" (1427041536)  
02:14:30.680 --> 02:14:33.680  
And I just have 2 columns, the prime type and then the.  
1283 "Arthur, Jecorey" (1427041536)  
02:14:33.680 --> 02:14:38.215

Division, and I'm just trying to convert everything into percentages, so oh.

1284 "Paul" (2511343872)

02:14:38.215 --> 02:14:44.077

Oh, if it's as simple as that, I'll turn it around right away. Thank you.

1285 "Jason Nemes" (1270223872)

02:14:44.077 --> 02:14:49.820

Okay, so Here's my suggestion and, and this is any commissioner Tom, and obviously.

1286 "Jason Nemes" (1270223872)

02:14:49.820 --> 02:14:54.920

I think our, I think our work as the commission is done, except for the information that.

1287 "Jason Nemes" (1270223872)

02:14:54.920 --> 02:15:01.280

We're talking about the cory's getting us the rest of the stuff. I think we can just go ahead and adjourn. Earl.

1288 "Jason Nemes" (1270223872)

02:15:01.280 --> 02:15:11.870

We'll do exactly what everybody's agreed to today on the type of typographical error and so forth and so on, um, that we've already went all through and then we'll just submit it and.

1289 "Jason Nemes" (1270223872)

02:15:11.870 --> 02:15:17.143

Copy everybody does that satisfy everyone or do we need to make it.

1290 "Harward, Sonya" (2751791104)

02:15:17.143 --> 02:15:24.224

It does mean, I think it's just a technical thing. It's not a substantive change. If you really stop and think about it.

1291 "Jason Nemes" (1270223872)

02:15:24.224 --> 02:15:31.964

That's right. Joe. The only substantive thing is the information we just discussed on the numbers on the criminal, um.

1292 "Harward, Sonya" (2751791104)

02:15:37.183 --> 02:15:41.939

Technical piece to support the basic thing.

1293 "Jason Nemes" (1270223872)

02:15:41.939 --> 02:15:46.205

Okay, and I just want to join in with Senator Adams and.

1294 "Pamela Stevenson" (3284382208)

02:15:46.205 --> 02:15:52.460

Senator Neil, to make sure that whatever language you put in there that this is not a report to take action.

1295 "Pamela Stevenson" (3284382208)

02:15:52.460 --> 02:15:55.640

I make new legislation is actually a.

1296 "Pamela Stevenson" (3284382208)

02:15:55.640 --> 02:15:59.420

For to investigate and create and that's my.

1297 "Pamela Stevenson" (3284382208)

02:16:02.960 --> 02:16:06.079

We need to do legislation and change things.

1298 "Harward, Sonya" (2751791104)

02:16:14.409 --> 02:16:20.292

Frank Frank for the, uh, unusual environment say the lease.  
1299 "Jason Nemes" (1270223872)  
02:16:20.292 --> 02:16:27.087  
Julie did say, she absolutely did say. I agree with Jerome. We should  
make have some caveats in there.  
1300 "Jason Nemes" (1270223872)  
02:16:27.087 --> 02:16:32.300  
Yeah, yeah, yeah. Sorry. Yeah, I think she said.  
1301 "Jason Nemes" (1270223872)  
02:16:32.300 --> 02:16:38.180  
We'll come back to some more information. There's a lot of things we  
didn't look into that I want to look into, but with respect to some of  
the things like.  
1302 "Jason Nemes" (1270223872)  
02:16:38.180 --> 02:16:44.270  
Um, I mean, we can just go through and pick that was the top 1. that was  
a.  
1303 "Jason Nemes" (1270223872)  
02:16:44.270 --> 02:16:49.010  
Recommendation to, you know, the stuff I tend to act on that I don't want  
to be.  
1304 "Jason Nemes" (1270223872)  
02:16:49.010 --> 02:16:55.888  
I don't want anybody to think. That's just some kind of a thought  
process. We're asking Frankfurt to act on those things.  
1305 "Harward, Sonya" (2751791104)  
02:16:55.888 --> 02:17:00.440  
Well, and that's the problem. The problem is what we do about it.  
1306 "Harward, Sonya" (2751791104)  
02:17:00.440 --> 02:17:04.550  
I just think at the end of the day, we're going to have to operate on a  
basis.  
1307 "Harward, Sonya" (2751791104)  
02:17:04.550 --> 02:17:12.470  
Of trust and integrity, and I keep interjecting this point about a win  
win. I think that's really our guide and doing this kind of.  
1308 "Harward, Sonya" (2751791104)  
02:17:12.470 --> 02:17:16.850  
Work, we don't want losers in this work, and we should strive to.  
1309 "Harward, Sonya" (2751791104)  
02:17:16.850 --> 02:17:24.680  
To achieve that if we do anything less than we are actually undermining  
our responsibility to the process I've already.  
1310 "Harward, Sonya" (2751791104)  
02:17:24.680 --> 02:17:28.010  
I want it to the other issues I have, but I think, you know, we.  
1311 "Harward, Sonya" (2751791104)  
02:17:28.010 --> 02:17:31.250  
Move here, it's going forward and, you know, we take it.  
1312 "Harward, Sonya" (2751791104)  
02:17:31.250 --> 02:17:35.136  
And do the best we can with it with integrity.  
1313 "Jason Nemes" (1270223872)  
02:17:35.136 --> 02:17:41.090

And I just want to make sure his integrity goes. I want everybody to know my intention. I'm going to take these recommendations.

1314 "Jason Nemes" (1270223872)

02:17:41.090 --> 02:17:46.490

Drive the bill, so if you if anybody says these were just thought experiments.

1315 "Jason Nemes" (1270223872)

02:17:46.490 --> 02:17:50.613

We all agreed not to move forward. That is not true. I want to make that clear right now.

1316 "Harward, Sonya" (2751791104)

02:17:50.613 --> 02:17:53.870

I'm thinking about this mission is commissioned to make.

1317 "Harward, Sonya" (2751791104)

02:17:53.870 --> 02:17:57.410

Recommendations with any individual, or what happens in Frank.

1318 "Harward, Sonya" (2751791104)

02:17:57.410 --> 02:18:03.020

Happens in Frankfurt, this the commission is pretty much done with its recommendations with the exception of.

1319 "Harward, Sonya" (2751791104)

02:18:03.020 --> 02:18:06.710

So, corey's figures in the 2.

1320 "Harward, Sonya" (2751791104)

02:18:06.710 --> 02:18:09.770

Um, chairman getting together and.

1321 "Harward, Sonya" (2751791104)

02:18:15.620 --> 02:18:18.950

We'll pick her up. Well, let me see, let me just.

1322 "Harward, Sonya" (2751791104)

02:18:18.950 --> 02:18:23.480

Tell you that's true. Whatever happens in Frankfurt, but it affects everybody.

1323 "Harward, Sonya" (2751791104)

02:18:23.480 --> 02:18:27.740

Again, I'm saying with integrity means there has to be winners.

1324 "Harward, Sonya" (2751791104)

02:18:27.740 --> 02:18:32.060

All around to the extent that we can make that happen if we're not doing that.

1325 "Harward, Sonya" (2751791104)

02:18:32.060 --> 02:18:37.670

Then we really have all in short of are.

1326 "Harward, Sonya" (2751791104)

02:18:37.670 --> 02:18:42.230

Responsibility and I trust my colleagues will operate on that base. So we'll see.

1327 "Harward, Sonya" (2751791104)

02:18:42.230 --> 02:18:49.370

I like working with my colleagues. Okay. I just observed.

1328 "Harward, Sonya" (2751791104)

02:18:49.370 --> 02:18:52.790

That there are many observations I.

1329 "Harward, Sonya" (2751791104)

02:18:52.790 --> 02:18:56.300  
Yes, or conclusions in this report that don't call for.  
1330 "Harward, Sonya" (2751791104)  
02:18:56.300 --> 02:19:01.580  
Legislation that something's directed back to the.  
1331 "Harward, Sonya" (2751791104)  
02:19:06.020 --> 02:19:10.400  
Right. I'm assuming that that only the things that where the.  
1332 "Harward, Sonya" (2751791104)  
02:19:10.400 --> 02:19:13.670  
The mission is actually recommending that the general assembly.  
1333 "Harward, Sonya" (2751791104)  
02:19:13.670 --> 02:19:18.195  
The action would be the basis of legislation.  
1334 "Jason Nemes" (1270223872)  
02:19:18.195 --> 02:19:22.710  
Of course, as far as the commission is concerned, I want to point out 1  
other thing when we did. Well.  
1335 "Harward, Sonya" (2751791104)  
02:19:22.710 --> 02:19:28.250  
He did merger that was done on the ground and what happened in.  
1336 "Harward, Sonya" (2751791104)  
02:19:28.250 --> 02:19:33.980  
Frankfurt was a reflection of what happened on the ground. In other  
words, they adopted what was submitted to the.  
1337 "Harward, Sonya" (2751791104)  
02:19:33.980 --> 02:19:38.210  
Except for the technical considerations, what's happening here?  
1338 "Harward, Sonya" (2751791104)  
02:19:38.210 --> 02:19:43.520  
In part is that we're saying, here's what we think and now we are.  
1339 "Harward, Sonya" (2751791104)  
02:19:43.520 --> 02:19:50.180  
Deferring this to Frankfurt to create the creature that's a different  
process than when.  
1340 "Harward, Sonya" (2751791104)  
02:19:54.470 --> 02:19:58.280  
Political on the ground down here, but guess what? It's political on the  
ground.  
1341 "Harward, Sonya" (2751791104)  
02:19:58.280 --> 02:20:02.720  
Up there, and most of the people up there have nothing to do just like  
they did when we.  
1342 "Harward, Sonya" (2751791104)  
02:20:02.720 --> 02:20:05.840  
Did merger with Jefferson County they have nothing to do with.  
1343 "Harward, Sonya" (2751791104)  
02:20:05.840 --> 02:20:11.960  
Privacy County, so what that means is there's a disproportionate amount  
of leverage of those.  
1344 "Harward, Sonya" (2751791104)  
02:20:11.960 --> 02:20:16.970  
Who are related to Jeff and Kelly, including myself in terms of what?  
That.

1345 "Harward, Sonya" (2751791104)  
02:20:16.970 --> 02:20:21.680  
Come will look like, and that should always be a concern, because not everyone.

1346 "Harward, Sonya" (2751791104)  
02:20:21.680 --> 02:20:30.380  
Degrees it's a messy process. We all know that, but I'm trusting that. My, my colleagues who have worked on a number of occasions, you know, they all people I.

1347 "Harward, Sonya" (2751791104)  
02:20:33.590 --> 02:20:37.850  
Uh, going forward, I think we can get that done on this. We all part of this.

1348 "Harward, Sonya" (2751791104)  
02:20:37.850 --> 02:20:42.320  
So, I'm cautioning is what I'm saying, because sometimes we.

1349 "Harward, Sonya" (2751791104)  
02:20:42.320 --> 02:20:48.020  
Can have good ideas and we feel vested in them, but, you know, it might create.

1350 "julie raque adams" (4264177920)  
02:20:53.371 --> 02:20:57.150  
Mr. Mr. chairman cannot say something to.

1351 "Harward, Sonya" (2751791104)  
02:20:57.150 --> 02:21:01.071  
Yes, please, um, you know.

1352 "julie raque adams" (4264177920)  
02:21:01.071 --> 02:21:07.730  
Feel like this process has been as, um, collaborative and conducive as.

1353 "julie raque adams" (4264177920)  
02:21:07.730 --> 02:21:10.910  
Possible given the time frame in which.

1354 "julie raque adams" (4264177920)  
02:21:10.910 --> 02:21:14.990  
Um, the legislation allowed us.

1355 "julie raque adams" (4264177920)  
02:21:14.990 --> 02:21:18.350  
But I do take a little umbrage at the.

1356 "julie raque adams" (4264177920)  
02:21:18.350 --> 02:21:27.050  
Continued use of the term political, because I don't feel like this is political. I feel like this is an overview.

1357 "julie raque adams" (4264177920)  
02:21:27.050 --> 02:21:31.280  
How merger is working? Is it working for some? Is it.

1358 "julie raque adams" (4264177920)  
02:21:31.280 --> 02:21:35.090  
For all, let's try to put the pieces together, so we can have them more.

1359 "julie raque adams" (4264177920)  
02:21:35.090 --> 02:21:38.390  
Efficient government I haven't heard any 1.

1360 "julie raque adams" (4264177920)  
02:21:38.390 --> 02:21:42.320  
Say anything disparaging about our new mayor in fact.

1361 "julie raque adams" (4264177920)  
02:21:42.320 --> 02:21:46.160  
Everybody has said we have high hopes that he is going.

1362 "julie raque adams" (4264177920)  
02:21:46.160 --> 02:21:50.840  
To be looking at new processes too. So I, I just I don't want to leave.

1363 "julie raque adams" (4264177920)  
02:21:50.840 --> 02:21:59.960  
On a, on a note, a sour note, because I really believe that this has been a positive experience and I'm looking forward to.

1364 "julie raque adams" (4264177920)  
02:21:59.960 --> 02:22:07.400  
Working with the mayor to make things even better and so I just I wonder, I wonder if I do feel as good as I do.

1365 "julie raque adams" (4264177920)  
02:22:07.400 --> 02:22:11.293  
About the product that we have put forward.

1366 "Harward, Sonya" (2751791104)  
02:22:11.293 --> 02:22:17.840  
Concerned there's a concert characterization of a sour note. I guess that refers to.

1367 "Harward, Sonya" (2751791104)  
02:22:17.840 --> 02:22:23.630  
Statements I may have made here. I certainly didn't end for them to sound.

1368 "Harward, Sonya" (2751791104)  
02:22:23.630 --> 02:22:29.390  
They were just words of caution and words of reality. So.

1369 "Harward, Sonya" (2751791104)  
02:22:29.390 --> 02:22:34.760  
You know, maybe I'm misinterpreting what I just heard, but I think that what we have to do is.

1370 "Harward, Sonya" (2751791104)  
02:22:34.760 --> 02:22:40.250  
Be cautious because there's a lot of impact in the outcome and I'm.

1371 "Harward, Sonya" (2751791104)  
02:22:40.250 --> 02:22:45.110  
Concerned that we do not have losers in this process. That's all I am.

1372 "Harward, Sonya" (2751791104)  
02:22:45.110 --> 02:22:49.670  
Say, and we all have said the time is short and the legislator.

1373 "Harward, Sonya" (2751791104)  
02:22:49.670 --> 02:22:54.740  
You did that and not by purpose I don't think. And we also know that.

1374 "Harward, Sonya" (2751791104)  
02:22:57.890 --> 02:23:01.760  
What's done? Pretty much arbitrarily we can get into that.

1375 "Harward, Sonya" (2751791104)  
02:23:01.760 --> 02:23:09.200  
Discussion too, but I'm hopeful that we can work together with integrity not to end up with.

1376 "Harward, Sonya" (2751791104)  
02:23:09.200 --> 02:23:12.563  
Nothing sorry about that. I'm willing to.

1377 "Jason Nemes" (1270223872)  
02:23:12.563 --> 02:23:15.590  
So, I guess I'll call you I think our work is done.

1378 "Jason Nemes" (1270223872)  
02:23:15.590 --> 02:23:20.900  
On the commission as a global, I'll call you, we'll go over these changes  
and then once we get them from the.

1379 "Jason Nemes" (1270223872)  
02:23:20.900 --> 02:23:24.170  
Then we'll incorporate that and then will send it on the.

1380 "Jason Nemes" (1270223872)  
02:23:24.170 --> 02:23:27.350  
See, is that right? Yes. Yes.

1381 "Jason Nemes" (1270223872)  
02:23:27.350 --> 02:23:31.040  
So, I guess we're ready to conclude. I just want to say, at least.

1382 "Jason Nemes" (1270223872)  
02:23:31.040 --> 02:23:35.000  
My own behalf, but I want to thank my colleagues on the.

1383 "Jason Nemes" (1270223872)  
02:23:35.000 --> 02:23:40.130  
For the work, the effort they've made and pulling together this whole  
process and.

1384 "Jason Nemes" (1270223872)  
02:23:40.130 --> 02:23:43.520  
Creating this final report, it has not been.

1385 "Jason Nemes" (1270223872)  
02:23:43.520 --> 02:23:46.670  
Easy in all respects I do believe that.

1386 "Jason Nemes" (1270223872)  
02:23:46.670 --> 02:23:51.530  
Everybody operated at least in with integrity and.

1387 "Jason Nemes" (1270223872)  
02:23:51.530 --> 02:23:56.090  
With the best intentions as they side I do think that at the end.

1388 "Jason Nemes" (1270223872)  
02:23:56.090 --> 02:23:59.270  
We wound up in a better place, and I think we began.

1389 "Jason Nemes" (1270223872)  
02:23:59.270 --> 02:24:03.920  
Through the process of collaboration, and I think.

1390 "Jason Nemes" (1270223872)  
02:24:03.920 --> 02:24:06.980  
Accepting the good faith of each other so.

1391 "Jason Nemes" (1270223872)  
02:24:06.980 --> 02:24:12.020  
Um, move to John and, uh.

1392 "Jason Nemes" (1270223872)  
02:24:12.020 --> 02:24:32.020  
You all next time.
