

Mapping Options

The “option board” below is a tool to help you brainstorm ideas. Write an action step or goal you are looking to work on in the center box. Then, in the eight boxes along the outside, come up with different approaches and choices you have to take action. Rank your options in the top left corner and if you will be working on multiple actions, write a realistic date you can get started in the bottom right corner of each box. Have fun! There’s never just one way to get a job done!
