1. Introduction

Every business entity making payments of \$600 or more to natural persons other than employees (non-employee compensation payments) for services performed within Louisville Metro, Kentucky is required to maintain records of such payments and to report such payments to the Louisville Metro Revenue Commission (LMRC). Louisville Metro includes the area within the boundaries of Jefferson County, Kentucky.

1.1. Electronic Filing Requirements

Any business entity required to report more than 25 reports (payee records) on behalf of themselves or their clients must submit the records electronically ([LMCO §110.07](#)). Failure to submit a timely file may result in penalties [LMCO §110.99 L \(Penalty\)](#).

Include only payee records pertinent to Louisville Metro, Jefferson County, KY in your electronic file.

This guide provides the details on how to meet the electronic filing specification. The guide will be updated annually to reflect any changes to the e-file process. It is the taxpayer's responsibility to review the specifications prior to filing each year.

2.2. Yearly Summary

2.2.1. Tax Year 2020

- 1099-NEC and 1099-MISC will both be accepted by the LMRC in electronic format.
- **1099-NEC Use:**
 - **For 2020 Tax Year:** If filing nonemployee compensation use the **1099-NEC form**.
- **1099-MISC Use:**
 - **Prior Tax Years:** If filing nonemployee compensation for tax years **prior to 2020** use the **1099-MISC form**.
 - **For 2020 Tax Year:** use this form for rents, royalties, or other payments to be submitted to the Louisville Metro Revenue Commission.

2.2.2. Tax Year 2021

- Updated LMRC specifications to match Publication 1220. These updates should not impact files submitted to LMRC.

2.2.3. Tax Year 2022

- Added ability to import a spreadsheet into the eMINTS keying method.

3. Acceptable Format

There are two methods that meet the electronic filing requirement: the Metro Integrated Tax System (eMINTS) bulk upload method using these specifications and eMINTS keying 1099 data method. CD submission does not meet the electronic filing requirement and will not be accepted.

3.1. eMINTS Bulk Upload Method

The preferred method of submitting 1099s is the bulk upload functionality in eMINTS. You must have a logon with our online portal to upload. For instruction on how to create a logon, see [eMINTS FAQs](#).

Submissions must follow the specifications outlined in the eMINTS bulk upload method of this document.

3.2. eMINTS Keying Data Method with optional Import Feature

Within eMINTS, 1099 information may be manually keyed or imported from an excel spreadsheet template. You must have a logon with our online portal to use this method. For instruction on how to create a logon, see [eMINTS FAQs](#).

3.2.1. eMINTS Keying Data Method

We recommend directly keying only if you have a small number of records to key. The recipient section along with box 1 for nonemployee wages must be completed.

3.2.2. Using Template Import Feature

If you do not have software that will create a bulk file per our specifications which must include the wages and taxes applicable to LMRC, importing the data from a template will be the best option to meet the electronic filing requirements. The template used must follow the specifications outlined in the section 6 Template Import Feature File Format of this document to work successfully.

4. Deadline

The deadline for filing 1099s is **February 28th** of the year following the close of the calendar year in which the non-employee compensation was paid.

5. eMINTS Bulk Upload File Format

The file format for submitting your Form 1099 is based on the federal format laid out in [IRS Publication 1220](#). Review both the IRS specification and LMRC specification to ensure submissions are formatted properly.

Standard ASCII code is required for all files. A text file with .txt file extension is the only format that will be accepted. LMRC does not accept any zip files, self-extracting zip files or compressed files. The maximum file size LMRC will accept is 20 MB. If your file is larger than LMRC maximum file size, create and transmit separate files.

5.1. File Requirements

Three of the six possible record types in IRS Publication 1220 are **REQUIRED** and will be validated. The other three record types are optional and will not be validated.

Record Type	LMRC	IRS
T (Transmitter) Record	Required, Validated	Required
A (Issuer) Record	Required, Validated	Required
B (Payee) Record	Required, Validated	Required
C (Summary of Payee B) Record	Optional	Required
F (End of Transmission) Record	Optional	Required
K (Summary of State(s) totals for (CF/SF)) Record	Optional	Optional

5.2. Record Specifications

The 1099 data submitted to the LMRC must include only those contractors/payees that earned income while working in Louisville Metro, KY (Jefferson County). The file must follow the specifications published by the IRS in Publication 1220 and this specification.

- Each Record must be a fixed length of 750 positions.
- For all fields marked “Required”, the transmitter must provide the information described under description and remarks.
- For those fields not marked “Required”, the transmitter must allow for the field but may be instructed to enter blanks or zeros in the indicated field positions.
- All alpha characters entered must be in upper-case, except e-mail addresses which may be case sensitive.
- Do not use punctuation in the name and address fields.
- Pay special attention to the LMRC description and remarks. **Red text indicates LMRC filing specific details including why a file may be rejected.**

5.3. LMRC Specific Fields

The federal format defines field position 663-722 in B(Payee) record as “Special Data Entries” for state or local government entities. LMRC will use field position 685-696 for additional data in both the 1099-NEC and 1099-MISC forms. Values in field position 663-684 may remain as they will be ignored by the LMRC. The special data entries field is required if the amount of compensation earned in Louisville Metro, Kentucky is different from the Nonemployee Compensation reported in the Payee Record.

Leave the special data entries field blank if not reporting a different amount of compensation earned in Louisville Metro. If this field does not include the amount earned in Louisville Metro per the LMRC Specifications listed below, the amount earned in Louisville Metro will be equal to the total of the Nonemployee Compensation reported in the Payee Record. (100% of total compensation was earned in Louisville Metro, KY). For 1099-NEC it would be Field Position 55-66, payment amount 1 in the Payee Record. For 1099-MISC, prior to 2020 it would be Field Position 235-246, payment amount G in the Payee Record.

5.4. Record and Field Format Details

One substitute Form 1099-K may be sent to the recipient aggregating the multiple Forms 1099-K. 8. FAQs

Should I include income paid to entities for work outside of Louisville?

No. If you include work for income earned outside of Louisville, based on our file specifications, we will consider 100% of the amount earned within Louisville Metro.

What if I have never submitted my 1099s electronically?

You will need to create a logon through our online portal, eMINTS. Instructions for this can be found on our website at <https://louisvilleky.gov/government/revenue-commission/emints-access#signup>

Can I submit an exact copy of what I file to the IRS or Kentucky DOR?

It depends. You should submit 1099s only for contractors/payees who earned their income in Louisville Metro, KY (Jefferson County). If all the payees you are reporting worked in Louisville 100% of the time, you may submit a copy of the file you sent to the IRS. In addition, you can also indicate the specific amount earned in the Louisville Metro area if it differs from the total compensation. See Louisville Metro Compensation field in the payee record for more details.

Can I submit records for 1099s issued below \$600?

Yes. LMRC will accept the data we receive if the income was earned in Louisville Metro, Kentucky.
