

**Minutes
Public Hearing
of the
Louisville Metro Air Pollution Control Board**

October 21, 2015

A public hearing of the Louisville Metro Air Pollution Control Board was called to order on October 21, 2015, at 9:59 a.m. in the Board Room of the Louisville Metro Air Pollution Control District, 850 Barret Avenue, Louisville, Kentucky by the Chairman, Dr. Robert Powell.

General Statement, Rules and Purpose

The Chairman read the opening announcements, rules and purpose of the public hearing, which was to review draft amendments to five District regulations.

- 1. Regulation 1.15** *Version of Federal Regulations Adopted and Incorporated by Reference, Version 17.*
- 2. Regulation 2.09** *Causes for Permit Modification, Revocation, or Suspension, Version 3.*
- 3. Regulation 5.02** *Adoption and Incorporation by Reference of National Emission Standards for Air Pollutants, Version 20.*
- 4. Regulation 6.45** *Standards of Performance of Existing Solid Waste Landfills.*
- 5. Regulation 7.02** *Adoption of Federal New Source Performance Standards, Version 17.*

Ms. Rachael Hamilton, Assistant Director, said the District was required to periodically update Regulations 1.15, 5.02, and 7.02, to incorporate the most recent federal regulations by reference. The purpose for this action is to adopt and to incorporate by reference (IBR) the most up-to-date New Source Performance Standards (NSPS), National Emissions Standards for Hazardous Air Pollutants (NESHAP), and other parts of Title 40 Code of Federal regulations (CFR) that have been promulgated by the Environmental Protection Agency (EPA) through July 1, 2015.

Ms. Hamilton said the proposed amendment of Regulation 2.09 is in response to a 2013 rulemaking where an additional type of authorization to operate, Registered Stationary Sources, was added to Part 2 of the District's regulations. The large scope of the rulemaking led to references in Regulation 2.09 not being updated prior to the final rulemaking. These proposed amendments serve to correct and clarify these minor oversights.

The purpose of Regulation 6.45 is to repeal this regulation because it has been superseded by the federal new source performance standard (NSPS) 40 CFR Part 60 Subpart WWW.

Statements

No statements were made.

Adjourn

The public hearing adjourned at 10:07 a.m.
