

Lawn Care for Cleaner Air and Grow More Mow Less Programs

Quarterly Report: 07/20/2016

Prepared by: Bradley Coomes, Environmental Coordinator

We would like to begin this quarterly report with some very good news. Our overall rebate numbers through July 15th are up 12% from this time last year. This increase is due, in no small part, to the significant increase in the number of Lawn Care for Cleaner Air Professional rebates we have processed. So far this year we have issued thirteen Pro rebates and while that may not sound like a lot, it represents a 62% increase from this time last year. One must also take into account that we issued a total number of seven Pro rebates in all of 2015 and three in 2014. With a little over five months left in 2016, we could very well triple or even quadruple our LCCA Pro numbers from last year.

The dramatic increase in LCCA Pro rebates are almost assuredly due to the changes made to the program leading up to this season. We made major changes to the program that simplified the process for participants. In previous years, participants were forced to recycle old gas-powered equipment and purchase their new equipment from one of our participating retailers to receive a rebate. We removed those provisions and also simplified the paperwork for the program, making it the same as the paperwork involved in the regular LCCA Residential program.

While overall rebate numbers are up from this time last year, we are hoping that trend continues through the rest of 2016. In addition to running ads with our regular partners (The Courier Journal, Leo, and Louisville Public Media) we have also advertised with the Voice Tribune and Louisville Magazine. We have also extended our efforts to include placing hundreds of LCCA brochures in many locations around town (libraries, lawn/garden centers, health food/grocery stores, coffee shops, department stores, hardware and battery stores, etc.). Finally, we have had short blurbs about the program included in several neighborhood and council district newsletters. We are exploring the idea of a limited advertising campaign in the fall, but that decision will not be made until the numbers are reexamined in mid-August. Until then we will continue to look for new and original way to get the word out.

As stated in the last quarterly report, two of our main goals this year have been to regain traction that we lost in the neighborhoods we historically have had the most success, while at the same time, breaking into parts of Jefferson County that have eluded us in the past (particularly the far eastern parts of the county). So far this year, we have seen an uptick in rebates in 40205 (historically our best performing zip code) from last year, but it's too early to know for sure if we are reaching either of these goals.

In Grow More Mow Less news, the program's Facebook page remains extremely popular (one of the most visited in all of Louisville Metro). We have posted on the page more often this year and as a result, reached more people than ever before. We have not done as many public events to promote the program this year due to a more concerted effort to raise LCCA rebate totals to levels pre 2015, but that hasn't seemed to diminish GMML's popularity.

On the following pages you'll find our rebate totals since the last report on April 20th. We are very happy to report that it has been a busy time for LCCA and we hope to be able to say the same in the next quarterly report.
