

**Do you want or need to
improve your credit score?**

Credit as an Asset

can help you build your path to financial stability.

Bank On Louisville's **Credit as an Asset** is a FREE workshop for people who want to gain new information and tools to build or rebuild a good credit history.

This workshop will help you think about your relationship with credit, why credit is so important, and plan how you will make financial products work for you to increase your financial stability now, and build your financial security long-term.

Monday, December 7, 2015
5-7 pm

Urban Government Center
810 Barret Avenue, Louisville, KY 40204

Call 502-574-5156 to register.

Bank On Louisville could not have launched this workbook without the help of several key partners.

Credit Builders Alliance led development of workbook content. Credit Builders Alliance is a non-profit organization that creates innovative solutions to help community-based nonprofits serving low- and moderate-income individuals improve their capacity to help their clients build credit and financial access in order to increase their financial capability and stability.

CBA serves as a unique and vital bridge between its 400 nonprofit member organizations and the major credit bureaus. CBA's core services — CBA Reporter and CBA Access — provide nonprofits with both the ability and critical technical assistance necessary to report loan data to credit bureaus, and to pull low-cost client credit reports for the purposes of financial education, outcome tracking, and underwriting. In addition to these core services—which are essential to helping individuals and families build credit histories and scores—CBA offers nonprofit practitioners hands-on credit building trainings, innovative tools, and forums for sharing with and learning from each other.

The Corporation for Enterprise Development also supported the development of this workbook through a generous Assets and Opportunity Network technical assistance grant.
