SAMPLE SITE PLAN

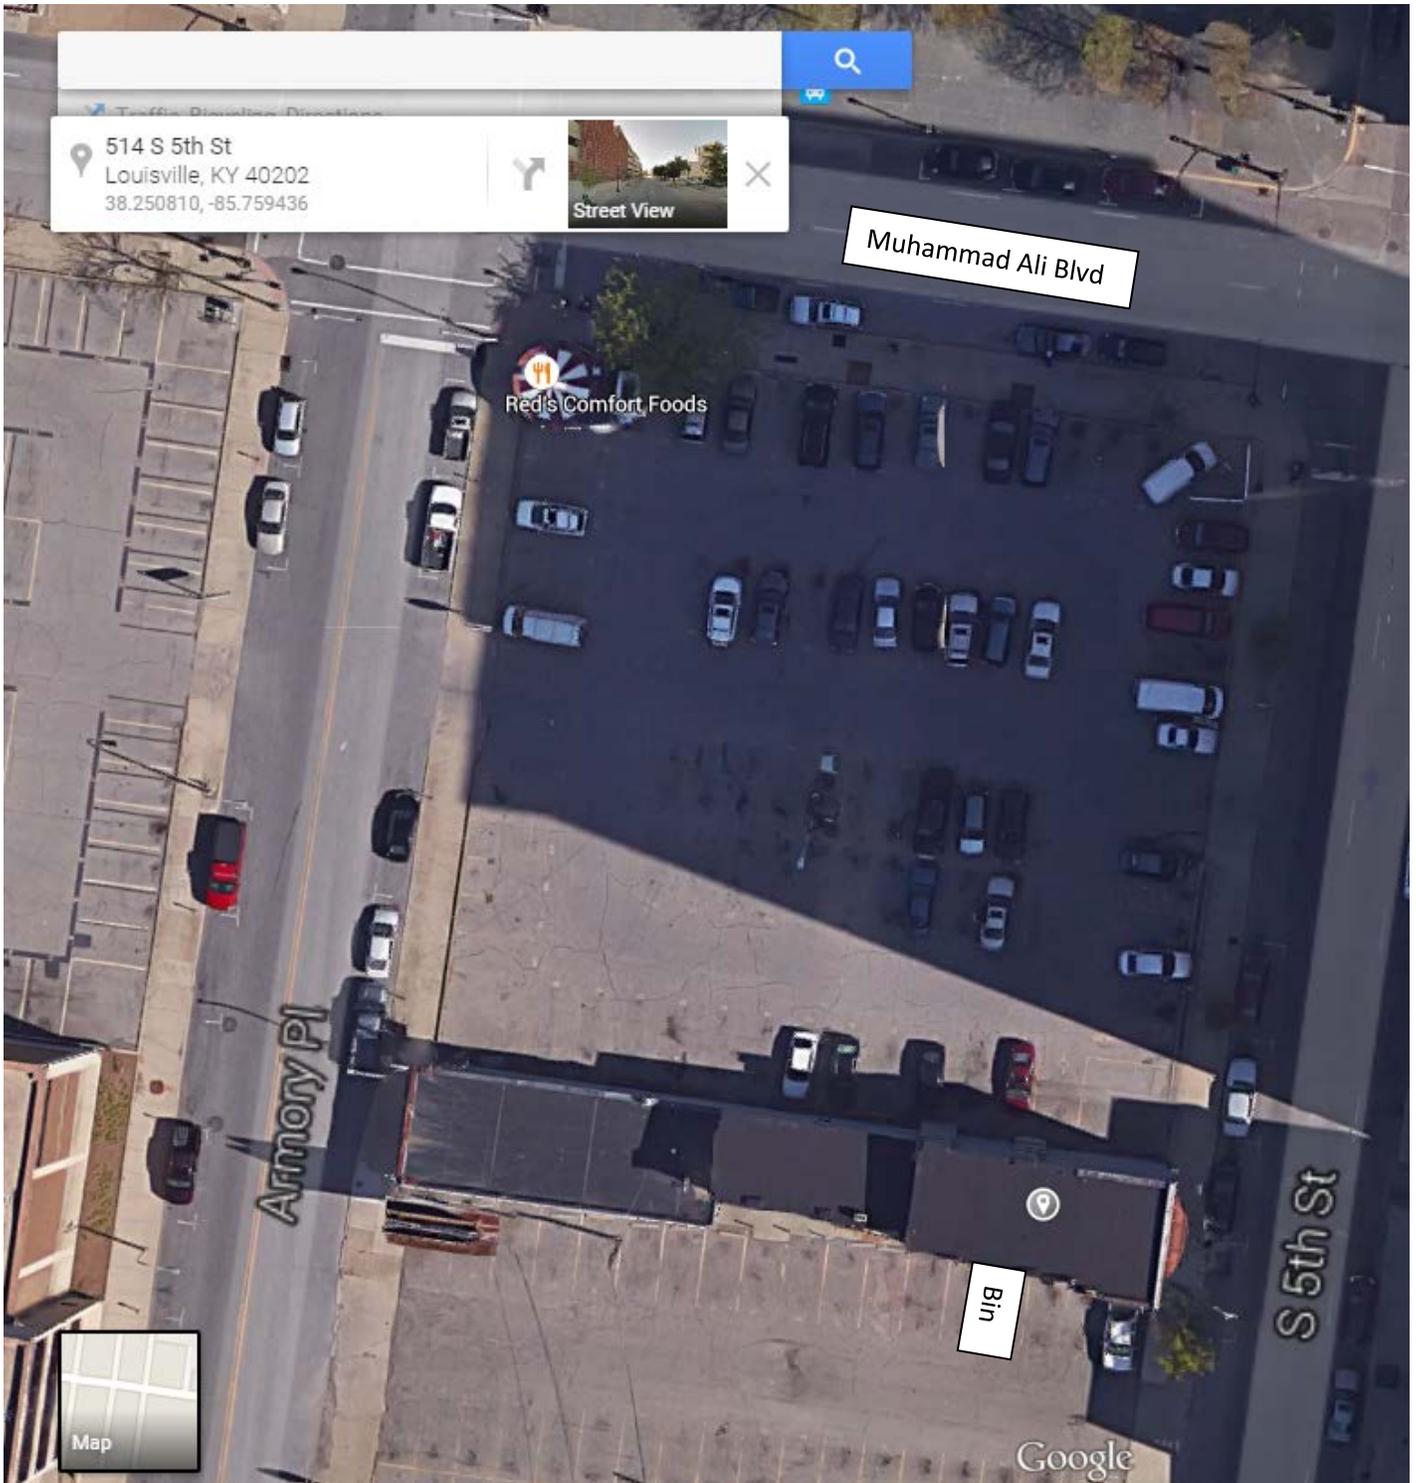

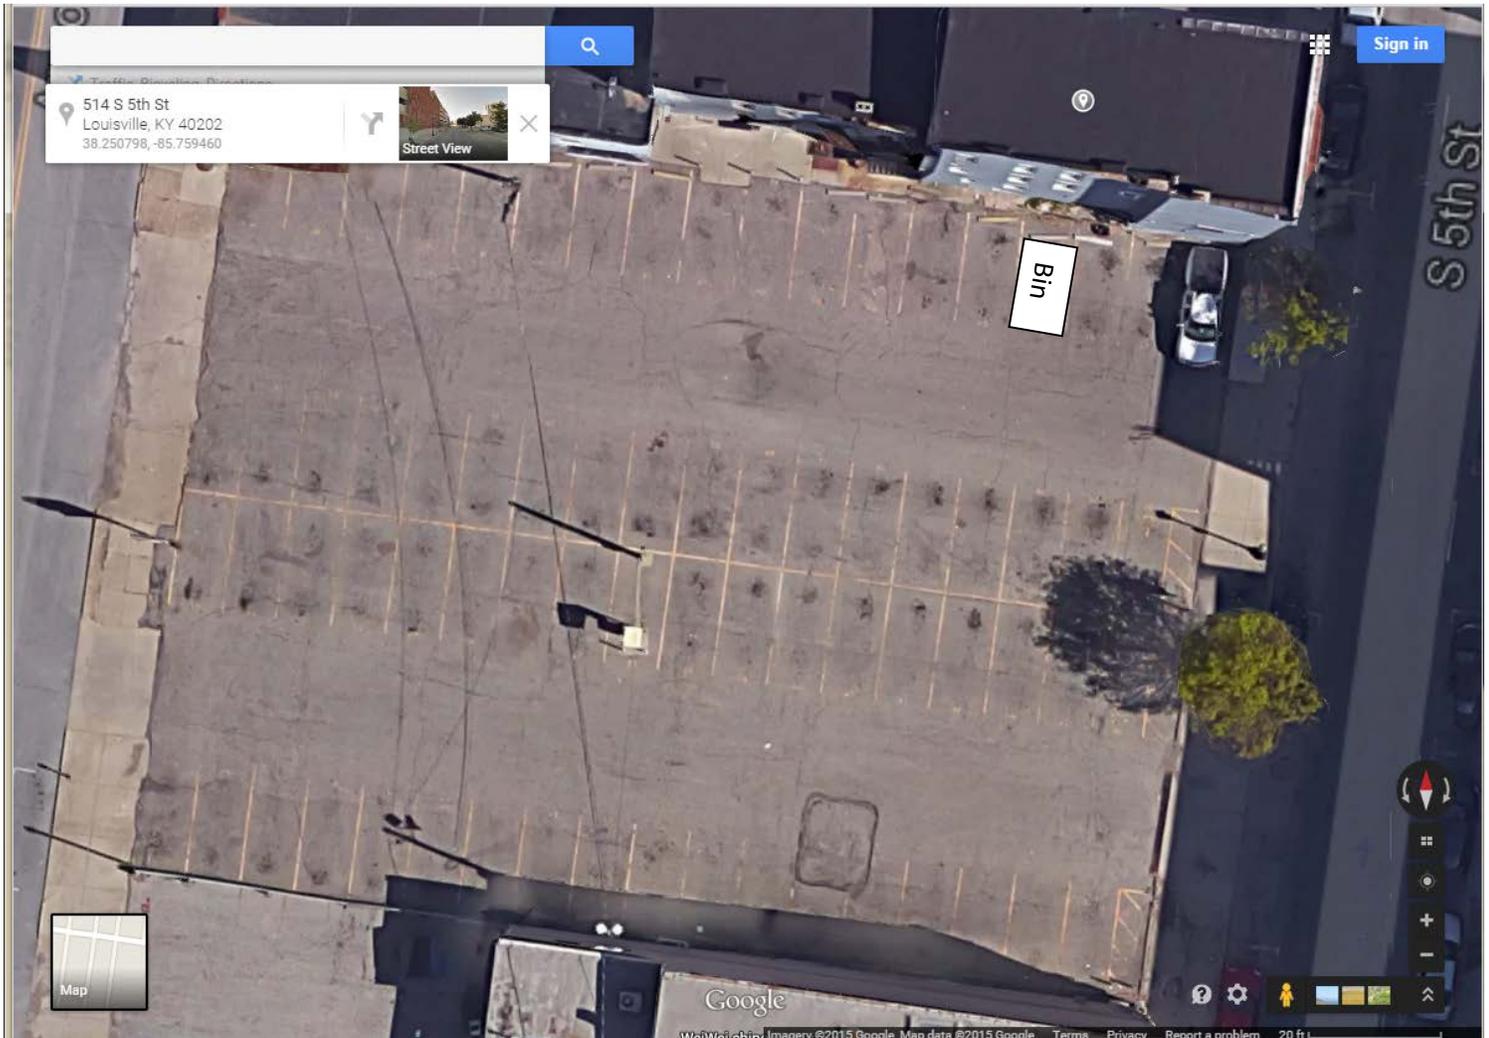

1. Computer Generated
2. Address and street/s are clearly labeled
3. Bin location is clearly labeled

1. Closer view of entire parking lot
2. Using the Land Development Code Chapter 9 (Found online here: http://louisvilleky.gov/government/planning-design/land-development-code) determine the correct definition for the site using table 9.1.2A.
3. List the minimum/ maximum and total number of spaces available. The exact numbers must be calculated in addition to listing the table definition.

   Example: Using the above image and 5000sq ft. of gross floor area
   Use Category: Non-Retail Commercial – Restaurants: Sit down with or without drive through. Minimum: 1 space for each 250 sq ft of gross floor area in traditional form districts. Maximum: 1 space for each 50 sq ft of gross floor space.
   Numbers: Minimum: 20 Maximum: 100 Actual Number Available: 72.
