# LMPHW COVID-19 Unified Command

## Prioritization for Distribution of PPE

### TIER #1

1. Long Term Care Facilities with **confirmed cases**
2. Hospitals with the greatest number of **confirmed cases**
3. EMS and first responders – who are being asked to transport **confirmed cases**
4. Healthcare workers carrying out support to Long Term Care Facilities with **confirmed cases**

### TIER #2

5. Healthcare facilities with **confirmed cases**
6. Congregate locations with **confirmed cases** (Shelter, Jail, Dormitory, etc.)
7. Healthcare facilities treating suspect cases (FHC, Park Duvalle, Coroners' Office, etc.)
8. Other EMS – who are being asked to transport suspect cases
9. Quarantine / Isolation Facilities run as part of incident
10. First Responders interacting with symptomatic suspect cases (LMPD, Fire, Corrections)

### TIER #3

11. Quarantine / Isolation Facilities run by other jurisdictions
12. Skilled Nursing Facilities
13. Other healthcare facilities
14. Outpatient facilities

### TIER #4

15. Homeless Shelter and other congregate locations such as jails, dorms, etc.
16. Families of **confirmed cases** who are at home

### OTHER CONSIDERATIONS

- Recommend fill orders for up to 7 days (with assurance of no gap between current order and new order)
- Amount - Methodology for quantities of PPE allocated (Recommendation based on facility size, number of Healthcare workers, number of confirmed or suspected cases – or # patients needing to be assessed X # PPE changes necessary X number of days being filled (7))
- Differentiation of prioritization for N95 masks - Recommend the locations that perform aerosol generating procedures have highest priority (7 day limit)
