Louisville Metro Public Health and Wellness
6 Year Strategic Plan

FY13 - FY19
Dear LMPHW Team:

Partnerships between LMPHW, the healthcare community, and Metro citizens are necessary elements of health and wellness improvement initiatives. The overarching objective of the LMPHW Strategic Plan is to bring public health, healthcare providers, and the community together in ways that promote health and wellness in Louisville Metro contributing to the Mayor’s objective of “advancing quality of place” and “creating plans for a vibrant future.” This strategic plan is constructed around the below listed LMPHW priorities.

1) Create a culture of health and wellness in Metro Louisville
2) Focus on social determinants of health and equity
3) Strengthen public-private partnerships
4) Increase connection between public health and clinical medicine
5) Reduce the prevalence of behavioral related disease
6) Utilize an outcomes driven approach to program and policy development

As many of you are aware, LMPHW began performance improvement planning last year. The department took a bottom up approach asking program managers to set and submit goals for each of their areas of responsibility to the division directors. Directors then used those submissions to form their own broader or high ranking goals. These plans form the basis for the short term goals cited in this strategic plan.

Like many other Metro Departments, the department hasn’t had a strong tradition of being “data driven.” We are currently undergoing many changes to provide a framework and create baseline data that will enable us to set appropriate long term goals that support our broad objectives. The LMPHW Office of Policy, Planning, and Evaluation will lead the development of a “results framework” for LMPHW programs. The results framework will support efforts to strengthen the planning and evaluation of our public health programs and set long term strategic goals. The long term goals of this strategic plan will not be added until the Office of Policy, Planning, and Evaluation has been able to work with each area of LMPHW using the results framework model to form meaningful goals.

The Senior Leadership team and I look forward to working together with you toward meeting the above listed objectives. Thank you for your efforts and passion toward improving the population health of our community.

Sincerely,

LaQuandra Nesbitt, MD, MPH
Director

Overview of Sections

Vision for Louisville
The future state Louisville Metro Government envisions for our city, for the residents of Louisville, and for all who visit.

Mission
Why the department exists within Metro and for the community.

Core Services/Programs
What a department provides to residents to fulfill its mission and meet the 5 strategic objectives of Louisville Metro Government: Deliver excellent city services; Solve systemic budget issues; Take job creation to the next level; Invest in Our People and Neighborhoods, Advance “Quality of Place”; Create plans for a vibrant future.

Objectives
While each department strives to achieve the 5 strategic objectives for Louisville Metro Government, each department has functional objectives or high-level accomplishments it strives to achieve to fulfill its mission.

Goals
Departments should include applicable Louisville Metro Government strategic goals as their own, as well as develop department specific short (1-2yr), and long (3-6yr) term strategic goals.

Short term goals (and midterm if feasible) should be Specific, Measureable, Attainable, Realistic, and Time-Framed (SMART) statements about what the department will accomplish within the next 1-2 years to meet its mission, achieve its objectives and support the strategic objectives of the city to help realize the vision for Louisville Metro Government. Mid- and long term goals may be more broad and less “SMART”.

The numbers to the right of each goal indicate which of the five Louisville Metro Government strategic objectives the goal supports. The “Lead” column refers to who has ownership over the goal, however various individuals may lead supporting initiatives to the goal. The “Why” column describes why the goal is important to the department and the residents of Louisville.

The “Initiatives” column lists at a high-level, the specific projects a department will undertake (initiate and/or execute) over the next 1-2 years to help achieve their short and, as appropriate, mid-term goals; individual initiatives are not required, unless clearly known, for mid and long term goals.

The “How” column under mid- and long term goals, explains initial ways in which the department envisions making progress towards the goal.
Louisville Metro Planning Cycle & Calendar
The new fiscal year planning cycle for Louisville Metro Government puts all Departments on the same strategic planning cycle, sequenced to guide budget and operational planning.

**Purpose and Vision of Louisville Metro Government**

Louisville Metro Government is the catalyst for creating a world-class city that provides its citizens with safe and vibrant neighborhoods, great jobs, a strong system of education and innovation, and a high quality of life.

*“Louisville is a city of lifelong learning and great jobs, wellness, and compassion”*

**Louisville Metro Government Objectives**
*These five objectives are the ultimate outcomes the Fischer Administration is working hard to achieve.*

1. **Deliver Excellent City Services.** We strive to be the best city government in America and will use a robust measurement system to drive employee performance and track our results.

2. **Solve Systemic Budget Issues.** We will resolve the structural budget imbalance that limits our city and its growth. Our expenses cannot continue to outpace revenue growth.

3. **Take Job Creation To The Next Level.** We will create a culture of innovation that fosters the growth of 21st Century jobs, focusing on our strategic economic development strengths—lifelong wellness and aging care, value-added logistics, advanced manufacturing, and the food and beverage industry. We will champion a business-friendly entrepreneurial environment that recognizes education is the foundation for job creation. We will work with our schools, colleges and universities to deliver a 21st century workforce.

4. **Invest In Our People And Neighborhoods, Advance “Quality Of Place”.** We will build on Louisville’s unique and creative people and history, embracing all citizens and our growing international population, by improving public transportation, the arts, and our parks. We will ensure a safe, inclusive, clean and green city -- a city that looks toward the future by capitalizing on our diverse population, our geography, and the Ohio River.

5. **Create Plans For A Vibrant Future.** We will develop and begin implementation of a 25-year vision for the city, including targeted neighborhood revitalization. The vision will detail how the city will look, feel and flow in the short, mid, and long term.
Department Mission and Vision

The **mission** of LMPHW is to promote health and wellness; prevent disease, illness, and injury; and protect the health and safety of Metro Louisville residents and visitors.

The **vision** of LMPHW is to create a healthy Metro Louisville by decreasing disease and death, eliminating disparities in health and healthcare, and giving everyone the chance to live a healthy life.

Core Services/Programs

*What the department provides to residents to fulfill its mission and help meet Louisville Metro Government’s 5 strategic objectives.*

 Clinical Services
   Assuring the provision of high quality clinical services to the underserved and those who face significant barriers to healthcare. Developing and maintaining public-private partnerships to enhance the public health and healthcare infrastructure.

 Community and Population Health
   Educating the public on the intersection of health and other sectors such as education, economic development, housing, public safety, transportation, and community development and planning. Implementing programs and interventions that have been proven to work.

 Environmental Health and Emergency Preparedness
   Fostering an environment free of environmental health risks and hazards. Ensuring adherence to community hygiene standards that decrease risk for communicable/infectious disease.

 Communications and Community Relations
   Building community capacity to identify and address risks to health and well-being.

 Policy, Planning and Evaluation
   Assessing the health impact of all policies implemented at the federal, state, and local level. Evaluating the effectiveness of public health policies, programs, practices, and making changes that are data driven.

 Health Equity
   Advancing community knowledge of social determinants of health and health equity.
Objectives

The functional objectives/ high-level accomplishments the department strives to achieve through its efforts or work.

1) Create a culture of health and wellness in Metro Louisville
2) Focus on social determinants of health and equity
3) Strengthen public-private partnerships
4) Increase connection between public health and clinical medicine
5) Reduce the prevalence of behavioral related disease
6) Utilize an outcomes driven approach to program and policy development
Core Functions of Public Health

- Assurance
  - Enforce
  - Develop
  - Link to Provide
  - Mobilize Community
  - Diagnose
  - Evaluate
  - Monitor
  - Assure
  - Competent Workforce
  - System Management
  - Results Framework
  - Annual Performance Planning

Policy Development
- Mayor's Hometown Movement
- Leadership Team
- Health Impact Assessments

| 1    | Promote smoking cessation through increasing classes, training, and the number of smoke-free multi-unit housing units and Section 8 owned property available in Metro Louisville by the amount stated in initiatives by end of FY 14. | 1,5 | 5 | Lung cancer is the second leading cause of death in Louisville Metro. Tobacco free living promotes healthy living and helps reduce diseases of the lung and cancer related deaths.  
- Increase the number of teens trained in tobacco advocacy by 75%.  
- Double the number of Cooper Clayton classes in zip codes with the highest smoking rates.  
- Provide training that includes risks of second hand smoke exposure and referrals for cessation to 80% of all JCPS Head Start/Early Head Start Family Service workers.  
- FY 13 -14 increase the number of smoke-free multi-unit housing units and Section 8 owned property available in Metro Louisville by 20%.  
- Create a baseline measure for increasing the number of smoking cessation attempts. |
| 2    | Increase number of train the trainer health education programs by the amounts stated in the initiatives to build community capacity for promoting and protecting health and well-being by FY 13. | 1,2,5 | 4 | Train the trainer programs maximize the reach of health promotion work by training professional and lay people to deliver evidence-based information and programs.  
- Recruit 41 Y-DPP participants from faith organizations  
- Train 3 Cooper Clayton facilitators who host sessions in faith-based institutions  
- Host 2 presentations by Senior Medicare Patrol and Tobacco program representatives in Diabetes Self-Management classes.  
- Increase the number of participants in diabetes self-management education programs (defined as evidence-based programs, including DSMP, Y-DPP, DSME/T) |
| 3    | Increase health data availability and improve access for internal and external stakeholders by end of FY 13. | 6 | 1,5 | Providing timely and accurate information regarding the distribution and determinants of health related events assists in decision making regarding health outcomes for the Louisville Metro community.  
- Ensure 75% of key LMPHW program level indicators are available to staff through SharePoint and/or the LMPHW web site.  
- Post data on the SharePoint and/or the LMPHW web site within 1 week after analysis is completed.  
- Publish two data briefs/fact sheets annually (excludes biannual health status report).  
- Process internal/external data requests within 3 business days. |

Louisville Metro Planning Cycle

The new fiscal year planning cycle for Louisville Metro Government puts all Departments on the same strategic planning cycle, sequenced to guide budget and operational planning.

1. **Mayor's Strategic Plan** (vision, objectives, strategies & goals)
   - **August – September**

2. **Department Strategic Plans** (mission, services, goals, & initiatives)
   - **October – December**

3. **Budget Alignment** (Financial)
   - **January – May**

4. **Resource Alignment** (Human and Capital)

5. **Key enablers for success** (e.g., projects, initiatives)
   - **June – July**

6. **Implementation & Execution**

7. **Continuous Performance Tracking & Review** (e.g., LouieStat, bi-monthly reviews)
