Human Resources
6 Year Strategic Plan

FY13-FY19
Dear Human Resources Department:

As you are probably aware, Louisville Metro Government is taking a long, hard look at the future and the roles that our many departments will play in creating the vibrant, prosperous, energetic future that we all want for our community. In 2012, we were asked to craft a set of goals for Metro Human Resources, a series of targeted achievements that we would pursue over the next two years, and a more progressive set of goals to be attained over the next two to six years. Many of you were a part of this process, helping Metro HR assess our strengths and weaknesses, defining those areas where success appears certain and others where greater challenges may loom.

Many of the goals we have set for ourselves reflect the changes we see coming in the months and years ahead. Healthcare reform, more sophisticated technologies and continued economic uncertainty will dramatically impact the job we do at Metro HR. Other goals will involve simply improving the job that we already do so well by finding more efficient, productive and proactive ways to serve the people who serve our community. All of the goals, however, have been carefully crafted to work in conjunction with the Mayor’s vision and objectives for the city.

The purpose of establishing these goals goes beyond simply having a road map for the coming years. These goals will become an integral part of our budgeting process, guiding us in our planning and providing a clear way to determine the resources we will need to create the future we envision. This document is not so much a static “wish list” than it is the physical representation of a dynamic and ongoing process that will shape and be shaped by each of us in the months to come.

I want to thank all of you who had a hand, both directly and indirectly, in this process. I can assure you that this is not the end, but the very beginning of an exciting future for Metro HR. I look forward to experiencing it with you.

Sincerely,

Kellie Watson
Director

Vision for Louisville
The future state Louisville Metro Government envisions for our city, for the residents of Louisville, and for all who visit.

Mission
Why the department exists within Metro and for the community.

Core Services/Programs
What a department provides to residents to fulfill its mission and meet the 5 strategic objectives of Louisville Metro Government: Deliver excellent city services; Solve systemic budget issues; Take job creation to the next level; Invest in Our People and Neighborhoods, Advance “Quality of Place”; Create plans for a vibrant future.

Objectives
Louisville Metro Government objectives are the five strategic outcomes the Fischer Administration is driving towards. While every department strives to achieve the 5 objectives for Louisville Metro Government, each has its own functional objectives or high-level accomplishments it strives to achieve to fulfill its mission.

Goals
Departments should include applicable Louisville Metro Government strategic goals as their own, as well as develop department specific short (1-2yr), mid (2-4yr) and long(4-6yr) term strategic goals.

Short term goals (and midterm if feasible) should be Specific, Measureable, Attainable, Realistic, and Time-Framed (SMART) statements about what the department will accomplish within the next 1-2 years to meet its mission, achieve its objectives and support the strategic objectives of the city to help realize the vision for Louisville Metro Government. Mid- and long term goals may be more broad and less “SMART”.

The numbers to the right of each goal indicate which of the five Louisville Metro Government strategic objectives the goal supports. The “Lead” column refers to who has ownership over the goal, however various individuals may lead supporting initiatives to the goal. The “Why” column describes why the goal is important to the department and the residents of Louisville.

The “Initiatives” column lists at a high-level, the specific projects a department will undertake (initiate and/or execute) over the next 1-2 years to help achieve their short and, as appropriate, mid-term goals; individual initiatives are not required, unless clearly known, for mid and long term goals.

The “How” column under mid- and long term goals, explains initial ways in which the department envisions making progress towards the goal.

Louisville Metro Planning Cycle & Calendar
The new fiscal year planning cycle for Louisville Metro Government puts all Departments on the same strategic planning cycle, sequenced to guide budget and operational planning.
Purpose and Vision of Louisville Metro Government

Louisville Metro Government is the catalyst for creating a world-class city that provides its citizens with safe and vibrant neighborhoods, great jobs, a strong system of education and innovation, and a high quality of life.

“Louisville is a city of lifelong learning and great jobs, wellness, and compassion”

Louisville Metro Government Objectives

These five objectives are the ultimate outcomes the Fischer Administration is working hard to achieve.

1. Deliver Excellent City Services. We strive to be the best city government in America and will use a robust measurement system to track our results.

2. Solve Systemic Budget Issues. We will resolve the structural budget imbalance that limits our city and its growth. Our expenses cannot continue to outpace revenue growth.

3. Take Job Creation To The Next Level. We will create a culture of innovation that fosters the growth of 21st Century jobs, focusing on our strategic economic development strengths—lifelong wellness and aging care, value-added logistics, advanced manufacturing, and the food and beverage industry. We will champion a business-friendly entrepreneurial environment that recognizes education is the foundation for job creation. We will work with our schools, colleges and universities to deliver a 21st century workforce.

4. Invest In Our People And Neighborhoods, Advance “Quality Of Place”. We will build on Louisville’s unique and creative people and history, embracing all citizens and our growing international population, by improving public transportation, the arts, and our parks. We will ensure a safe, inclusive, clean and green city -- a city that looks toward the future by capitalizing on our diverse population, our geography, and the Ohio River.

5. Create Plans For A Vibrant Future. We will develop and begin implementation of a 25-year vision for the city, including targeted neighborhood revitalization. The vision will detail how the city will look, feel and flow in the short, mid, and long term.
Department Mission Statement

The mission of the human resources department is to support the goals and challenges of Louisville Metro Government by providing services that promote a work environment that is characterized by fair treatment of staff, open communications, safety, personal accountability, trust and mutual respect. We will seek and provide solutions to workplace issues that support and optimize the operating principles of the organization.
