INDEPENDENT AUDITOR'S REPORT

Honorable Greg Fischer, Mayor,
Members of the Louisville Metro Council and
Board of Directors
Louisville, Kentucky

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of the Louisville and Jefferson County Riverport Authority (the "Authority"), a component unit of Louisville/Jefferson County Metro Government, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Authority, as of June 30, 2015, and the changes in its financial position and its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the Authority restated its July 1, 2014 net position, liabilities, and deferred outflows of resources for the adoption of GASB Statement No. 68, Accounting and Financial Reporting for Pensions, and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (Unaudited) on pages 3 through 6 and the schedule of the Authority's proportionate share of the net pension liability and schedule of the Authority's contributions for the County Employees' Retirement System – Non-Hazardous on pages 23 and 24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated [REDACTED], 2015 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Authority's internal control over financial reporting and compliance.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)
June 30, 2015

Management's Discussion and Analysis ("MD&A") of the Louisville and Jefferson County Riverport Authority's (the "Authority") financial performance provides an overview of the Authority's financial activities for the fiscal years ending June 30, 2015 and 2014. Please read it in conjunction with the Authority's basic consolidated financial statements, which begin on page 7.

The Authority is a component unit of the Louisville/Jefferson County Metro Government ("Metro Government"). The Authority's MD&A should be read in conjunction with the MD&A of Metro Government. For a description of the Authority's activities, see Note 1 of the Notes to Consolidated Financial Statements on page 11.

Using this Annual Report

This annual report consists of a series of financial statements. The Consolidated Statement of Net Position (page 7 and 8) and Consolidated Statement of Revenues, Expenses and Change in Net Position (page 9) provide information about the activities of the Authority as a whole and present a longer-term view of the Authority's finances. These statements include all assets, liabilities, [deferred outflows and inflows of resources](#), and revenues and expenses of the Authority using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. The Consolidated Statement of Cash Flows (page 10) provide information relating to the Authority's cash receipts and disbursements during the fiscal years.

The 2014 condensed financial information included in MD&A does not include the impact of GASB 68/71 implementation.

Statements of Net Position

At June 30, 2015, the Authority's total assets and deferred outflows of resources were \$31,561,301, a decrease of \$342,186 from prior year total assets and deferred outflows of resources of \$31,903,487. This decrease was due primarily to a decrease in capital assets of \$486,100 from annual depreciation and amortization, a net increase in cash and investments of \$200,233, and a decrease in land held for sale of \$107,436.

At June 30, 2015, the Authority's total liabilities and deferred inflows of resources were \$892,513, an increase of \$531,009 from the prior year total liabilities and deferred inflows of resources of \$361,504. The increase was due primarily to recognition of the GASB 68 pension liability of \$517,000.

Condensed Consolidated Statement of Net Position are included in Table 1.

Statement of Revenues, Expenses and Changes in Net Position

Operating revenues were \$1,488,898 in 2015, an increase of \$933,953 from \$554,945 in 2014. This increase was due primarily to two land sales during the year and the recognition of grant revenue. Operating expenses were \$1,853,564 in 2015 compared to \$1,412,961 in 2014, an increase of \$440,603. This increase was due primarily to the cost of land sales expense for the two land sales during the year. Non-operating revenues for 2015 were virtually the same as 2014.

June 30, 2015

Capital Assets and Debt Administration

At June 30, 2015, the Authority had \$17,925,121 in capital assets, most of which was building and facilities related to its port operations. A decline of \$486,100 from the capital asset balance of \$18,411,221 at June 30, 2014 resulted from annual depreciation and amortization (see Note 4 for additional capital asset detail). A summary of capital assets is included in Table 3.

Buildings and equipment	9,823	10,309
	<u>\$ 17,925</u>	<u>\$ 18,411</u>

Future Economic Factors

The Authority's fiscal year 2015 budget has been influenced by the following major factors:

- Land sales are expected to remain at historic expected levels of one land sale per year.
- Positive cash flow from port operations will continue.
- Expenditures for capital assets and real estate held-for-sale will be funded internally.
- Expenditures for real estate held-for-sale are expected to increase during Phase V development.

Contacting the Authority's Financial Management

This financial report is designed to provide Board members, taxpayers, creditors and elected public officials with a general overview of the Authority's finances and to show the Authority's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Authority's president at:

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity: The Louisville and Jefferson County Riverport Authority (the “Authority”), was created by joint action of the City of Louisville (the “City”) and Jefferson County Fiscal Court (the “County”), under Chapter 65 of the Kentucky Revised Statutes (“KRS”), to establish a riverport industrial complex. On January 6, 2003, the City and County merged to form the Louisville/Jefferson County Metro Government (“Metro Government”). Since the Authority’s inception, its activity has consisted of acquiring land, developing and marketing a portion of the land for industrial sites, establishing a foreign trade zone, constructing a riverport complex with rail and truck-served dock facilities, and engaging and overseeing a contract operator of the complex.

These consolidated financial statements include the accounts of the Authority and two subsidiary non-profit corporations, Metro Louisville Properties I, Inc. (“MLPI”) and Metro Louisville Properties II, Inc. (“MLPII”). The purpose of MLPI and MLPII is to acquire, by merger or acquisition, a portion of properties owned by the former City and the former County, respectively, as well as other commercial or industrial properties determined in the future. MLPI and MLPII have had no significant activity. Significant intercompany accounts and transactions have been eliminated for financial statement presentation. In fiscal year 2003, the Authority also registered the assumed name “Louisville Metro Properties” for future use.

The Authority is governed by a Board of Directors appointed by the Mayor of Metro Government. Each of the six Board Members serves a three-year term. Contributed capital has been provided through discretionary contributions from the former County Government, the Commonwealth of Kentucky and the private sector. Although the Authority is an independent agency, it is considered a component unit of Metro Government. The Authority’s consolidated financial statements are included in Metro Government’s Comprehensive Annual Financial Report.

Basic Financial Statements: The basic consolidated financial statements of the Authority report information on all the activities of the Authority. The activities of the Authority are reported as an enterprise fund and are dependent upon land sales, fees and charges for services.

Statement of Net Position: The Statement of Net Position reports assets acquired and liabilities incurred by the Authority. The difference between assets and liabilities as reported on the statement of net position is considered “net position” and is categorized into two classifications: Invested in capital assets and Unrestricted.

The Authority’s policy is to apply restricted resources first when an expense is incurred for which both restricted and unrestricted net assets are available.

Statement of Revenues, Expenses and Changes in Net Position: The Statement of Revenues, Expenses and Changes in Net Position reports sources of operating revenue for the Authority as well as operating expenses incurred during the year. Non-operating revenues and expenses are reported separately on this statement. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the Authority are land sales, fees and charges for services. Operating expenses for the Authority include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

(Continued)

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 June 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Statement of Cash Flows: The Statement of Cash Flows reports the flow of cash and cash equivalents for the year. Only transactions that affect the Authority's cash accounts are reported in the statement of cash flows. The Statement of Cash Flows is classified into four categories: operating activities, non-capital financing activities, capital and related financing activities and investing activities. Operating activities include all cash flows related to operating income or loss. Non-capital financing activities include borrowing and repayments of debt not clearly attributable to capital purposes. Capital and related financing activities include the acquisition of capital assets, proceeds from issuance of long-term debt and payments of principal and interest. Investing activities include cash inflows of interest, loan collections, proceeds from sale of investments and changes in fair value of investments subject to fair value reporting and cash outflows for loans made to others and the purchase of investments.

Measurement Focus, Basis of Accounting and Financial Statement Presentation: Since the Authority reports its activities in an enterprise fund, which is a proprietary fund type, the basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when liabilities are incurred, regardless of the timing of related cash flows. An enterprise fund is used to report an activity for which a fee is charged to external users for goods or services.

New Financial Reporting Standards: In 2015, the Authority adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*—an amendment of GASB Statement No. 68. These Statements require the Authority to record the excess of the total pension liability over the fiduciary net position of the pension plan as a net pension liability on the Statement of Net Position. The change in accounting for pensions, as discussed in Note 5, resulted in the following restatement at July 1, 2014:

	<u>Beginning Balance</u>	<u>As Restated</u>	<u>GASB 68 Adjustment</u>
Statement of Net Position:			
Net pension liability	-	580,215	580,215
Deferred outflows	-	46,215	46,215
Statement of Revenues, Expenses and Changes in Net Position:			
Net position	31,541,983	534,000	31,007,983

Cash and Cash Equivalents: The Authority considers demand deposits and investments with original maturities of three months or less to be cash equivalents.

Investments: The Authority's investments include certificates of deposit and U.S. Treasury Bills. The Authority reports its investments at fair value based on quoted market prices.

Real Estate Held-for-Sale: Real estate held-for-sale is stated at cost, which does not exceed its fair value. The costs include land costs, improvement costs and other capitalizable costs associated with the development of the real estate held-for-sale.

(Continued)

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 June 30, 2015

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets: Capital assets, which include land and improvements, buildings and facilities and other capital assets, are stated at cost. Capital assets are defined as assets with an individual cost of more than \$5,000. Land improvements include major improvements made to land and certain other capitalizable costs associated with the development of the port operating facilities. Other capital assets include vehicles and furniture and fixtures.

The capital assets, excluding land, are depreciated using the straight-line method over their estimated useful lives with the following life expectancies:

<u>Assets</u>	<u>Years</u>
Land and improvements	Not depreciable
Buildings and facilities	5-50
Other capital assets	5-50

Impairment of Long-Lived Assets: Management of the Authority reviews for the impairment of long-lived assets whenever events or changes in circumstances indicate that there is a significant, unexpected decline in the service utility of an asset. An impairment loss would be recognized in the event the magnitude of the decline in service utility is significant and unexpected. There were no impairments of long-lived assets reported by management during 2015.

Unearned Revenue: The Authority reports unearned revenue for payments made to the Authority to reserve the option to purchase real estate. If the option holder purchases the real estate, the amount paid for the option is applied towards the purchase and recognized as operating revenue. If the option to purchase is not exercised, this amount is recognized as other income in the year the option expires.

The Authority also reports unearned revenue for grants received from state governments to fund future construction and capital asset-improvement projects. These funds will be recognized as revenues in the year in which they are expended.

Net Pension Liability: The Authority has recorded a net pension liability reflecting the difference between the total pension liabilities and the fiduciary net positions of the County Employees Retirement System plan. For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System plan and additions to /deductions from the County Employees Retirement System plan fiduciary net position have been determined on the same basis as they are reported by the County Employees Retirement System plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position: Net position of the Authority is classified into two categories, which include investment in capital assets and unrestricted net assets. Investment in capital assets is any acquisition, construction or improvement of capital assets of the Authority less any debt, which includes the outstanding balances of any bonds, mortgages, notes or other borrowings directly related to the capital asset. Unrestricted net assets are the portion that is neither restricted nor net investment in capital assets.

~~Net Pension Liability: The Authority has recorded a net pension liability reflecting the difference between the total pension liabilities and the fiduciary net positions of the County Employees Retirement System plan. For purposes of measuring the net pension liability, deferred outflows and inflows of resources~~

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

~~related to pensions, and pension expense, information about the fiduciary net position of the County Employees Retirement System plan and additions to /deductions from the County Employees Retirement System plan fiduciary net position have been determined on the same basis as they are reported by the County Employees Retirement System plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.~~

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Inflows of Resources and Deferred Outflows of Resources: Deferred outflows of resources represent a consumption of net position that applies to a future period(s). Deferred inflows of resources represent an acquisition of net position that applies to a future period(s). These amounts will not be recognized as expense or revenue until the applicable period. The Authority's activities are related to recognition of changes in its defined benefit plan's net pension liability that will be amortized in future periods.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The Authority is required, pursuant to KRS 65.065, to prepare an annual budget. According to the policy adopted by the Authority, the budget must be prepared and submitted for approval by the Board in sufficient time to meet requirements of all funding sources. This has historically been during March of each year. Requests for additional operating funds, if necessary, are subject to the same approval process. Budgetary reallocation of funds (i.e. changes in category of expense, but not in total expense) requires approval of the Board of Directors if the reallocation exceeds \$1,500.

NOTE 3 – CASH DEPOSITS AND INVESTMENTS

Deposits: Although no formal policy exists to control custodial risk of deposits and bank balances, including certificates of deposit, at June 30, 2015, deposits were either insured by the Federal Deposit Insurance Corporation (up to \$250,000) or collateralized by U.S. Government Securities held by a designee financial institution in the Authority's name. Cash deposits at June 30, 2015 were \$1,152,160. The certificates of deposit balances at June 30, 2015 were \$4,777,380.

Investments: The Authority's investment policies comply with the requirements of the KRS, which allow investments in direct obligations of the U.S. Government or obligations guaranteed by the U.S. Government, a U.S. Government agency or any corporation of the U.S. Government. There were no such investments as of June 30, 2015.

Interest Rate Risk: The Authority's investment policy generally limits investments to one year with slightly longer maturities acceptable if funds are not likely to be needed within one year.

(Continued)

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 June 30, 2015

NOTE 5 – PORT FACILITY OPERATING AGREEMENT

The Authority entered into an agreement for operation of its port facilities effective September 1, 2009 with an initial term of five years. Effective September 1, 2014, the Authority entered into the third amendment to this agreement, which expires August 31, 2017. As with the previous versions of the agreement and related amendments, the port operator is to make payments to the Authority based upon port throughput. These payments are subject to annual minimum guarantees, which are approximated as follows:

Fiscal Year Ended June 30,	
2016	\$ 517,000
2017	600,000
2018	<u>100,000</u>
Total	<u>\$ 1,217,000</u>

Rental income from port services received during fiscal year ending June 30, 2015 was \$100,000.

Comment [NS1]: Why is this so low relative to minimums? Is this rent different than the minimums?

NOTE 6 – OPERATING LEASE COMMITMENTS

~~The Authority's lease for office space expired on March 31, 2013.~~ Effective April 1, 2013, the Authority entered into a new lease which will expire March 31, 2018 with lease payments of approximately \$3,300 per month. Rent expense under these leases was approximately \$40,000 for the year ended June 30, 2015.

Minimum annual lease payments are due as follows:

Fiscal Year Ended June 30,	
2016	\$ 39,930
2017	39,930
2018	<u>29,948</u>
Total	<u>\$ 109,808</u>

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING - CERS

General Information about the Pension Plan: All full-time and eligible part-time employees of the Authority participate in the County Employees Retirement System (the CERS), a cost-sharing, multiple-employer defined benefit pension plan administered by the Kentucky Retirement System (KRS), an agency of the Commonwealth. Under the provisions of Kentucky Revised Statute Section 78.520. The Board of Trustees (the Board) of KRS administers the CERS, Kentucky Employee Retirement System, and State Police Retirement System. Although the assets of the systems are invested as a whole, each system's assets are used only for the payment of benefits to members of that plan, and a pro rata share of administrative costs. More specifically, within the CERS, the Authority's employees participate in the Non-Hazardous portion of the Plan. The plan provides for retirement, disability and death benefits to plan members. Retirement benefits may also be extended to beneficiaries of plan members under certain circumstances.

Under the provisions of Kentucky Revised Statute Section 61.701, the Board of KRS also administers the Kentucky Retirement Systems Insurance Fund. The statutes provide for a single insurance fund to provide group hospital and medical benefits to retirees drawing a benefit from the three pension funds administered by KRS. The assets of the insurance fund are invested as a whole.

The CERS issues a publicly available financial report that includes financial statements and required supplementary information for the CERS. The report may be obtained by writing to Kentucky Retirement System, Perimeter Park West, 1260 Louisville Road, Frankfort, Kentucky 40601, or it may be found at the KRS website at www.kyret.ky.gov.

Basis of Accounting: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of CERS and additions to/deductions from CERS's fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Benefits Provided: The information below summarizes the major retirement benefit provisions of CERS-Non-Hazardous. It is not intended to be, nor should it be interpreted as, a complete statement of all benefit provisions:

Members whose participation began before 8/1/2004:

Age and Service Requirement: Age 65 with at least one month of Non-Hazardous duty service credit, or at any age with 27 or more years of service credit.

Benefit: If a member has at least 48 months of service, the monthly benefit is 2.20% times final average compensation times years of service depending on participation and retirement dates. Final compensation is calculated by taking the average of the highest five (5) fiscal years of salary. If the number of months of service credit during the five (5) year period is less than forty-eight (48), one (1) or more additional fiscal years shall be used. If a member has less than 48 months of service, the monthly benefit is the actuarial equivalent of two times the member's contributions with interest.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING - CERS (Continued)

Members whose participation began on or after 8/1/2004, but before 9/1/2008:

Age and Service Requirement: Age 65 with at least one month of Non-Hazardous duty service credit, or at any age with 27 or more years of service credit.

Benefit: If a member has at least 48 months of service, the monthly benefit is 2.00% multiplied by final average compensation, multiplied by years of service. Final compensation is calculated by taking the average of the highest five (5) fiscal years of salary. If the number of months of service credit during the five (5) year period is less than forty-eight (48), one (1) or more additional fiscal years shall be used. If a member has less than 48 months of service, the monthly benefit is the actuarial equivalent of two times the member's contributions with interest.

Members whose participation began on or after 9/1/2008 but before 1/1/2014:

Age and Service Requirement: Age 65 with 60 months of Non-Hazardous duty service credit, or age 57 if age plus service equals at least 87.

Benefit: The monthly benefit is the following benefit factor based on service credit at retirement plus 2.00% for each year of service greater than 30 years, multiplied by final average compensation, multiplied by years of service.

<u>Service Credit</u>	<u>Benefit Factor</u>
10 years or less	1.10%
10+ - 20 years	1.30%
20+ - 26 years	1.50%
26+ - 30 years	1.75%

Final compensation is calculated by taking the average of the last (not highest) five (5) complete fiscal years of salary. Each fiscal year used to determine final compensation must contain twelve (12) months of service credit.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

~~**NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING – CERS (Continued)**~~

Members whose participation began on or after 1/1/2014:

Age and Service Requirement: Age 65 with 60 months of Non-Hazardous duty service credit, or age 57 if age plus service equals at least 87.

Benefit: Each year that a member is an active contributing member to the System, the member contributes 5% of creditable compensation, and the member's employer contributes 4.00% of creditable compensation, which is a portion of the total employer contribution, into a hypothetical account. The hypothetical account will earn interest annually on both the member's and employer's contribution at a minimum rate of 4%. If the System's geometric average net investment return for the previous five years exceeds 4%, then the hypothetical account will be credited with an additional amount of interest equal to 75% of the amount of the return which exceeds 4%. All interest credits will be applied to the hypothetical account balance on June 30 based on the account balance as of June 30 of the previous year. Upon retirement the hypothetical account which includes member contributions, employer contributions and interest credits can be withdrawn from the System as a lump sum or annuitized into a single life annuity option.

~~**NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING - CERS (Continued)**~~

Contributions: The Authority was required to contribute at an actuarially determined rate determined by Statute. Per Kentucky Revised Statute Section 78.545(33) normal contribution and past service contribution rates shall be determined by the KRS Board on the basis of an annual valuation last preceding July 1 of a new biennium. The KRS Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contribution rates are necessary to satisfy requirements determined in accordance with actuarial bases adopted by the KRS Board.

For the fiscal years ended June 30, 2015 and 2014, participating employers contributed 17.67% and 18.89% as set by KRS, respectively, of each Non-Hazardous employee's creditable compensation. These percentages are inclusive of both pension and insurance payments for employers. Administrative costs of KRS are financed through employer contributions and investments earnings.

The Authority met 100% of the contribution funding requirement for the fiscal years ended June 30, 2015, 2014, and 2013, which were \$64,462, \$63,538 and \$75,502, respectively.

Members whose participation began before 9/1/2008:

Non-Hazardous contributions equal 5% of all creditable compensation.

Interest paid on the members' accounts is currently 2.5%; and per statute shall not be less than 2.0%. Members are entitled to a full refund of contributions with interest.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

~~NOTE 7 - DEFINED BENEFIT PENSION PLAN - COST SHARING - CERS (Continued)~~

Members whose participation on or after 1/1/2014

Non-Hazardous contribution equal to 6% of all creditable compensation, with 5% being credited to the member's account and 1% deposited to the KRS 401(h) Account.

Members are entitled to a full refund of contributions and interest on the member's portion of the hypothetical account, however, the 1% contributed to the insurance fund is non-refundable.

Total Pension Liability: The total pension liability ("TPL") was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.5 percent
Salary increases	4.5 percent, average, including inflation
Investment rate of return	7.75 percent, net of pension plan investment expense, including inflation

The rates of mortality for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired members and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other members. The Group Annuity Mortality Table set forward 5 years is used for the period after disability retirement. The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2005 - June 30, 2008.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING - CERS (Continued)

Discount rate assumptions:

- (a) **Discount rate:** The discount rate used to measure the total pension liability was 7.75%.
- (b) **Projected cash flows:** The projection of cash flows used to determine the discount rate assumed the local employers and plan members would contribute the statutorily determined contribution rate of projected compensation over the remaining 29 year amortization period of the unfunded actuarial accrued liability. The statutorily determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period.
- (c) **Long term rate of return:** The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years for the System. The most recent analysis prepared as of June 30, 2008, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, 2009. Several factors are considered in evaluating the long-term rate of return assumption including long term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 June 30, 2015

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING – CERS (Continued)

- (d) **Municipal bond rate:** The discount rate determination does not use a municipal bond rate.
- (e) **Periods of projected benefit payments:** Projected future benefit payments for all current plan members were projected through 2116. The long-term assumed investment rate of return was applied to all periods of projected future benefit payments to determine the total pension liability.
- (f) **Assumed Asset Allocation:** The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Formatted: Font: 8 pt

Formatted: Font: 8 pt

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	30.00%	8.45%
International equity	22.00%	8.85%
Emerging market equity	5.00%	10.50%
Private equity	7.00%	11.25%
Real estate	5.00%	7.00%
Core U.S. fixed income	10.00%	5.25%
High-Yield U.S. fixed income	5.00%	7.25%
Non-U.S. fixed income	5.00%	5.50%
Commodities	5.00%	7.75%
Treasury Inflation Protected Securities	5.00%	5.00%
Cash	1.00%	3.25%
Total	<u>100.00%</u>	

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING – CERS (Continued)

The long-term expected rate of return on pension plan assets was established by the KRS Board of Trustees at 7.75% based on a blending of the factors described above.

- (g) **Sensitivity Analysis:** This paragraph requires disclosure of the sensitivity of the net pension liability to changes in the discount rate. The following presents the Authority's allocated portion of the net pension liability ("NPL") of the System, calculated using the discount rate of 7.75 percent, as well as what Authority's allocated portion of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent) or one percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Authority's net position liability - Non-Hazardous	\$ 372,688	\$ 517,000	\$ 680,338

Employer's portion of the collective Net Pension Liability: The Authority's proportionate share of the net pension liability, as indicated in the prior table, is \$517,000, or approximately .016%. The liability was distributed based on 2014 actual employer contributions to the plan.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2015

~~**NOTE 7 - DEFINED BENEFIT PENSION PLAN - COST SHARING - CERS (Continued)**~~

Measurement date: June 30, 2014 is the actuarial valuation date upon which the total pension liability is based. No update procedures were used to determine the total pension liability. An expected total pension liability is determined as of July 1, 2013 using standard roll back techniques. The roll back calculation subtracts the annual normal cost (also called the service costs), adds the actual benefit payments and refunds for the plan year and then applies the expected investment rate of return for the year. The procedure was used to determine the total pension liability as of July 1, 2013, is shown in the GASB 67 report for CERS submitted on November 17, 2014.

Changes in assumptions and benefit terms: There were no changes in assumptions or benefit terms since the prior measurement date.

Changes since measurement date: There were no changes between the measurement date of the collective net pension liability and the employer's reporting date.

Pension expense: The Authority recognized ~~negative~~ pension expense of ~~\$41,000,363~~ related to the CERS during 2015. ~~The negative pension expense is the result of the net impact of changes in the net pension liability, deferred inflows and deferred outflows during the year ended June 30, 2015.~~

Deferred Outflows and Deferred Inflows: Since certain expense items are amortized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce pension expense they are labeled as deferred inflows. If they will increase pension expense they are labeled deferred outflows. As noted in the previous section, the amortization of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are amortized over the average remaining service life of the active and inactive System members at the beginning of the fiscal year. Investment gains and losses are amortized over a fixed five year period.

The ~~table below~~ provides ~~a~~ summary of the ~~deferred inflows and outflows as~~ of the Measurement Date.

LOUISVILLE AND JEFFERSON COUNTY RIVERPORT AUTHORITY
A COMPONENT UNIT OF LOUISVILLE/JEFFERSON COUNTY METRO GOVERNMENT
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 June 30, 2015

NOTE 7 – DEFINED BENEFIT PENSION PLAN – COST SHARING - CERS (Continued)

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual investment earnings on plan investments	\$ -	\$ 58,000
Contributions subsequent to the measurement date	46,363	-
Total	\$ 46,363	\$ 58,000

Deferred outflows of resources resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ending June 30, 2016. Deferred inflows of resources resulting from the differences between projected and actual investment earnings on Plan investments are amortized over a 5 year period.

Pension plan fiduciary net position: Detailed information about the pension plans' fiduciary net position is available in the separately issued pension plan financial reports.

Board of Directors
Louisville, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Louisville and Jefferson County Riverport Authority, a component of Louisville/Jefferson County Metro Government (the "Authority") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Authority's basic consolidated financial statements, and have issued our report thereon dated [REDACTED], 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Authority's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by Those Charged With Governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
