

Barret and Castlewood Roadway Safety Improvement Project

The purpose of this project is to improve safety and comfort for all roadway users including people who are walking, bicycling, driving and using transit.

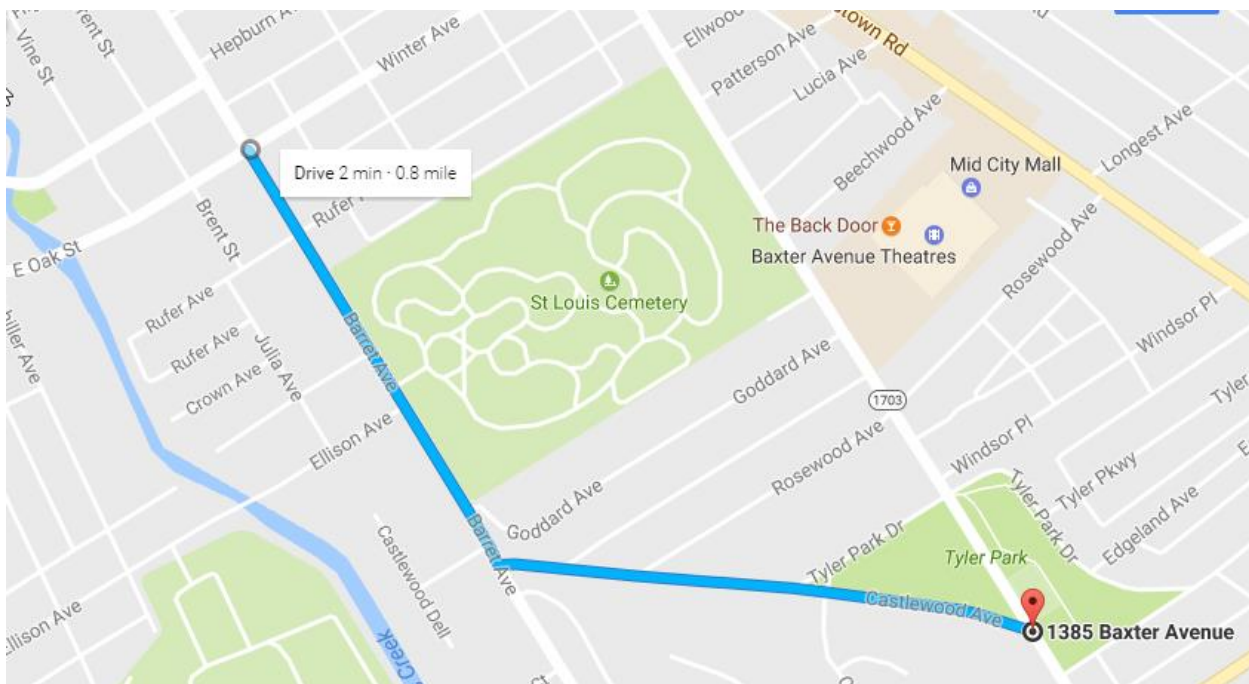

The project scope includes improvements along the below routes:

- Barret Ave between Winter Ave and Castlewood Ave
- Castlewood Ave between Barret Ave and Baxter Ave

Project safety improvements include:

- Replacing four 9' wide lanes along Barret Ave with two 10' travel lanes and a 7' full time parking along the west side of the street.
- Addition of a left turn lane at Barret Ave and Ellison Ave
- Addition of a shared use path along the east side of Barret Ave from Rufer Ave to Castlewood Ave
- Transit stop improvement at Barret Ave and Ellison Ave and Castlewood Ave and Barret Ave
- Intersection improvement at Barret Ave and Winter Ave and Castlewood and Barret Ave
- Provide increase bicycle and pedestrian connectivity between Tyler Park, St Louis Cemetery and Winter Ave.
- Replacing three travel lanes along Castlewood with two 10' wide travel lanes and a buffered 10' bi directional bicycle lane.

Project corridor is highlighted in blue below.
