## **District 8 Bus Stop Audit Councilman Brandon Coan**

### **Audit Summary**

In June 2017, Councilman Brandon Coan and a team of volunteer inspectors conducted a field review of all Transit Authority of River City (TARC) bus stops located in District 8. This bus stop audit – designed and executed with assistance from TARC – sought to identify efficiency, distribution, safety, cleanliness and other issues concerning TARC bus stops along District 8 routes.

The inspectors compared bus stop data provided by TARC against conditions in the field. They evaluated stops based on their placement and frequency, along with the quality and types of amenities at each stop.

It is expected that TARC will partner with Councilman Coan to mitigate some of the more common and pervasive concerns recorded by the inspectors. A list of recommendations and the full audit are located below, and a downloadable spreadsheet of audit results is available on the Metro Council District 8 website.
